1. FUND INFORMATION

1.1 Basic Information

1.1.1 Name of the Fund

RHB Golden Dragon Fund.

1.1.2 Fund Category

Mixed asset fund.

1.1.3 Fund Type

Growth and income.

1.1.4 Financial Year End

31 December.

1.1.5 Investor Profile

The Fund is suitable for investors who:

- (i) wish to participate opportunistically in the potential of the fast growing Greater China markets;
- (ii) seek a flexible investment mandate capable of capitalising and adapting to prevailing market conditions; and
- (iii) are willing to accept moderate risk in their investments in order to achieve long term capital growth and income.

1.1.6 Investment Objective

The Fund aims to maximise total returns through a combination of long term* growth of capital and current income.

Any material change to the investment objective of the Fund would require the Unit Holders' approval.

Note: * "long term" in this context refers to a period between 5 - 7 years.

1.1.7 Investment Strategy

The Fund seeks to achieve its investment objective through a diversified portfolio of equities and equity-linked securities issued by companies whose businesses are in the Greater China (i.e. the People's Republic of China, Hong Kong SAR and Taiwan) ("China Equities") and Malaysian fixed income securities. Specific risks associated with securities and investments are as elaborated in Section 2.2.

The Fund's direct investments in the China Equities are those of companies whose securities are listed on the Hong Kong, Shanghai, Shenzhen and Taiwan Stock Exchanges, including Greater China companies that are listed in other non-Greater China markets such as the United States of America, London and Singapore Stock Exchanges. These are companies that have at least 50% of its business operations located in Greater China and/or have at least 50% of its revenues derived from the Greater China. The Fund's investments will also include

collective investment schemes domiciled in Singapore, Luxembourg, Hong Kong, United Kingdom and United States of America investing primarily in the Greater China markets. The Fund's direct investments are not sector specific and can invest in a broad range of sectors and industries. It seeks to add value by investing in a selective range of opportunities identified by the Manager as having a strong attraction based on company fundamentals.

The Fund's investment in fixed income securities will be that of Malaysian debt securities issued by corporations, financial institutions and governments (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least investment grade ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment) as well as fixed income collective investment schemes, money market instruments, cash and Deposits.

The Manager employs a bottom-up investment process involving rigorous company research. In addition, the Manager also employs a top-down process to review asset allocation at both the regional/country and sector levels. The Manager believes long-term investment performance can be achieved by employing a rigorous research process that enables the Manager to identify companies that generate superior returns as well as by identifying companies that are undervalued.

The Fund's portfolio will comprise a blend of carefully selected China Equities (as aforementioned), Malaysian debt securities (as aforementioned), money market instruments, cash and Deposits subject always to a minimum allocation of 30% in China Equities and 30% in Malaysian debt securities/fixed income securities, money market instruments, cash and Deposits.

Thus, the Fund's portfolio will be structured as follows:

30% - 70% of the Fund's Net Asset Value

- Investments in securities of and securities relating to companies whose businesses are in the Greater China and are listed on the Greater China markets and/or other markets.

30% - 70% of the Fund's Net Asset Value

- Investments in Malaysian fixed income securities, money market instruments, cash and Deposits.

In reviewing this asset allocation strategy, the Fund's asset mix would range from 30% - 70% in China Equities and 30% - 70% in Malaysian fixed income securities, money market instruments, cash and Deposits. Accordingly, the Fund will be able to have a maximum exposure to the China Equities market of up to 70% whilst maintaining a minimum of 30% in Malaysian fixed income securities, money market instruments, cash and Deposits to provide stability through diversification of the asset class. Similarly, the Fund can also invest up to 70% in Malaysian fixed income securities, money market instruments, cash and Deposits whilst maintaining the minimum of 30% in China Equities market to diversify the portfolio and to provide capital growth.

Given this asset mix, the Fund will be able to tap into varied markets conditions in order to capitalise on any market opportunities. The actual percentage of assets invested in China Equities and fixed income securities will therefore vary from time to time, depending on the judgment of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. Thus, although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors, countries and asset classes and/or type of investments (i.e. equity, fixed income securities, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced following a prolonged rise in equity values and the other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration the reference benchmark as well as its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's equity investments into other asset classes such as debt securities, money market instruments and Deposits, which are defensive in nature.

The performance of the Fund is benchmarked against a composite benchmark comprising:

50% MSCI Golden Dragon Index (RM);
50% Quant Shop Malaysian Government Securities Medium (3 – 7 years) Index.

The composite benchmark chosen best represents the Fund's underlying investments and the geographical location/investment universe of its investments.

For ease of reference, investors may refer to Bloomberg L.P. or the MSCI website (www.msci.com) for these benchmark indicators. Investor should note that the risk profile of the Fund is different from the risk profile of the composite benchmark.

1.1.8 Distribution Policy

Consistent with the Fund's objective to maximize total returns through a combination of long term* growth of capital and current income, the Fund will distribute a portion of its returns to Unit Holders. Distributions, if any, after deduction of taxation and expenses are generally declared annually.

Note: * "long term" in this context refers to a period between 5 - 7 years.

1.1.9 Permitted Investments and Restrictions

In determining the single issuer aggregate limit, the value of the Fund's investments in instruments in paragraph (a) issued by the same issuer must be included in the calculation.
- f) The value of the Fund's investments in units or shares of a collective investment scheme must not exceed twenty (20) per cent of the Fund's Net Asset Value, provided that the collective investment scheme complies with paragraphs (r)(i), (ii) or (iii), excluding collective investment scheme that invests in real estate, or any other limit as may be prescribed by the Securities Commission from time to time.
- g) The value of the Fund's investments in units or shares of a collective investment scheme that invests in real estate pursuant to paragraph (r)(iii) must not exceed fifteen (15) per cent of the Fund's Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- h) The value of the Fund's investments in transferable securities and money market instruments issued by any group of companies must not exceed twenty (20) per cent of the Fund's Net Asset Value ("group limit"), or any other limit as may be prescribed by the Securities Commission from time to time. In determining the group limit, the value of the Fund's investments in instruments in paragraph (a) issued by the issuers within the same group of companies must be included in the calculation.

- i) The single issuer limit in paragraph (c) may be raised to thirty-five (35) per cent of the Fund's Net Asset Value if the issuing entity is, or the issue is guaranteed by, either a foreign government, foreign government agency, foreign central bank or supranational, that has a minimum long-term credit rating of investment grade (including gradation and subcategories) by an international rating agency, or any other limit as may be prescribed by the Securities Commission from time to time. Where the single issuer limit is increased to thirty-five (35) per cent of the Fund's Net Asset Value, the single issuer aggregate limit in paragraph (e) may be raised, subject to the group limit in paragraph (h) not exceeding thirty-five (35) per cent of the Fund's Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- j) The single financial institution limit in paragraph (d) does not apply to placements of Deposits arising from:
 - (i) subscription monies received prior to the commencement of investment by the Fund;
 - (ii) liquidation of investments prior to the termination of the Fund, where the placement of Deposits with various financial institutions would not be in the best interests of Unit Holders; or

- l) The Fund's investments in fixed income securities must not exceed twenty (20) per cent of the fixed income securities issued by a single issuer, or any other limit as may be prescribed by the Securities Commission from time to time. This limit may be disregarded at the time of acquisition if at that time of acquisition, the gross amount of fixed income securities in issue cannot be determined.
- m) The Fund's investments in money market instruments must not exceed ten (10) per cent of the instruments issued by any single issuer, or any other limit as may be prescribed by the Securities Commission from time to time. This limit does not apply to money market instruments that do not have a pre-determined issue size.
- n) The Fund's investments in collective investment scheme must not exceed twenty-five (25) per cent of the units or shares in the collective investment scheme, or any other limit as may be prescribed by the Securities Commission from time to time.
- o) The counterparty of an OTC financial derivative must be a financial institution with a minimum long-term credit rating of investment grade (including gradation and subcategories). Subject to the aggregate limit as stipulated in the Guidelines, the maximum exposure of the Fund to the counterparty must not exceed ten (10) per cent of the Fund's Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC financial derivative. The total exposure to a single counterparty is calculated by summing the exposure arising from all OTC financial derivative transactions entered into with the same counterparty.

- p) The Fund's exposure to the underlying assets (vide the financial derivatives) must not exceed the investment limits and restrictions applicable to such underlying assets as stipulated in the Guidelines, or any other limit as may be prescribed by the Securities Commission from time to time.

 - the assets of the collective investment scheme are managed by an entity which is approved, authorised or licensed by a securities regulator to conduct fund management activities; and
 - the business of the collective investment scheme is reported in semi-annual and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period; or

 - the collective investment scheme is not an inverse or leveraged product.

The limits and restrictions mentioned herein must be complied with at all times based on the most up-to-date value of the Fund's investments. The Manager must notify the Securities Commission, within seven (7) Business Days, of any breach of investment limits and restrictions with the steps taken to rectify and prevent such breach from recurring. However, any breach as a result of (a) appreciation or depreciation in value of the Fund's investments; (b) repurchase of Units or payment made from the Fund; (c) change in capital of a corporation in which the Fund has invested in; or (d) downgrade in or cessation of a credit rating, need not be reported to the Securities Commission but must be rectified as soon as practicable within three (3) months from the date of the breach unless otherwise specified in the Guidelines. The three (3) -month period may be extended if it is in the best interest of the Unit Holders and the Trustee's consent is obtained. Such extension must be subject to at least a monthly review by the Trustee. The limits and restrictions in this Section 1.1.9, however, do not apply to securities or instruments that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

Note: If the Fund is eligible to be invested via the EPF-MIS and you transfer your moneys from your EPF account to invest in the Fund, the investments made by the Fund as well as your investment in the Fund from your EPF account will be subject to the EPF's requirements. Please refer to the website at <http://www.kwsp.gov.my> for updated information.

1.1.10 Investment in Unlisted Securities

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of the Fund. The Fund's exposure limit to unlisted securities (if any) shall always be subject to the restriction stipulated in Section 1.1.9 (a) which shall not include:

- (a) Equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and are offered directly to the Fund by the issuer;
- (b) Fixed income securities traded on an organised OTC market; and
- (c) Structured products.

1.1.11 Collective Investment Schemes

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of the Fund. In addition, the Manager will only make such investments if the collective investment scheme is authorised or recognised by the Securities Commission, or is registered or authorised or approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.1.9 (f), (g), (n) and (r).

1.1.12 Financial Derivatives

The Manager may participate in financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be currency futures contracts, currency forwards and currency swaps or any other categories and/or types of financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is to hedge the portfolio's exposure to foreign currency. The benefit of any upside from the currency movement is limited as the primary interest is to protect the value of the portfolio. When participating in such financial derivatives, the Manager will monitor the financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such financial derivatives. This may extend to unwinding of the financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemption in Units or upon downgrade of the credit ratings of the financial institutions. The Fund's net market exposure to financial derivatives will not at any time exceed the Fund's Net Asset Value. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC financial derivatives. The Fund's holding in financial derivatives (if any) shall always be subject to the restrictions stipulated in Sections 1.1.9 (e), (o), (p) and (q).

1.1.13 Structured Products

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of the Fund.

1.1.14 Foreign Securities

The Manager may invest up to 70% of the Fund's Net Asset Value in securities (issued by companies whose businesses are in the Greater China i.e. the People's Republic of China, Hong Kong SAR and Taiwan) listed on or traded in foreign Eligible Markets such as China, Hong Kong SAR, Taiwan, Singapore, Luxembourg, United Kingdom and United States of America.

To date, the Fund has obtained the required investor registration certificate and code (Taiwan) and investor code (China) from the relevant regulatory authority which continues uninterrupted for its investments in these markets.

In undertaking these foreign investments, the Manager will invest directly in the equities markets and may also invest through other collective investment schemes where appropriate subject to the restrictions stipulated in Section 1.1.9.

1.1.15 Liquid Assets

The Manager in structuring the Fund's portfolio will maintain a reasonable level of liquid assets for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund.

The Fund shall not borrow in connection with its activities or lend any of its cash or investments unless practicable and permitted by the Guidelines and any practice notes issued by the Securities Commission from time to time or other relevant laws or regulations pertaining to unit trust funds. Nonetheless, the Fund may borrow cash on a temporary basis (i.e. not more than one (1) month) from financial institutions to meet redemption requests. Such borrowing shall not exceed ten (10) per cent of the Fund's Net Asset Value at the time the borrowing is incurred.

1.2 Investment Philosophy

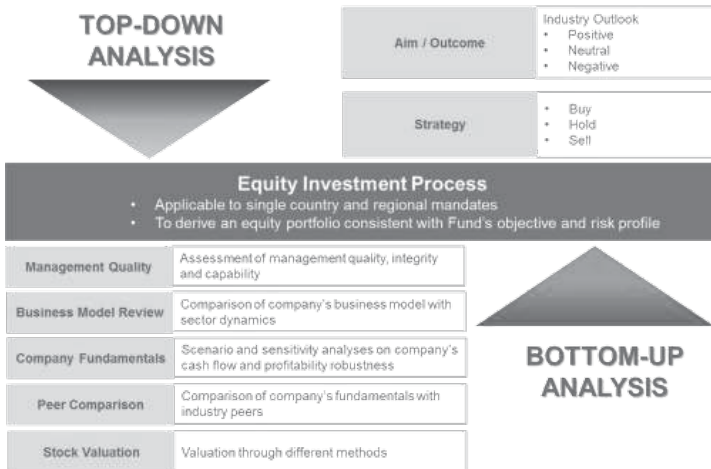

Our investment philosophy describes the approach that the investment team will adhere to when constructing an equity or fixed income portfolio. The fund manager invests in well-managed companies with strong balance sheets that possess competitive advantages that should enable them to outperform their peers over economic cycles. The fund manager is an active investor that makes high conviction security selection decisions, but at the same time does not take unnecessary or excessive risks or take speculative positions. The fund manager seeks to outperform their peers and beat their benchmark by buying mispriced or cheap securities. Following our disciplined sell strategy, the fund manager would then exit positions when the target price is reached. Concurrently, the fund manager understands the Fund's risk profile and act within the Fund's mandate.

1.3 Investment Approach

Whenever the Fund invests in equities and/or fixed income securities, the Manager's investment approach will evolve around the following principles:-

Equities

Fixed Income Securities

1.4 Fund Business Day

As the Fund may invest up to 70% of its Net Asset Value in securities of foreign markets, it is envisaged that although Bursa Malaysia is open for business, the Manager may declare (after consultation with the Trustee) certain days to be a non-Business Day. This is so when the foreign markets in which investments of the Fund have in aggregate values amounting to at least 50% of the Fund's Net Asset Value invested therein, are closed for business. This is to ensure that the valuation of the Fund for a particular Business Day will represent the valuation of the majority of assets comprised in the portfolio of the Fund on that Business Day. Investors will thus be given a fair valuation of the Fund at all times, be it when buying or redeeming Units.

2. RISK FACTORS

2.1 General Risks of Investing in the Fund

The following are risks involved in investing in the Fund:

General Risks

a) Management Risk

Inadequate expertise of the Manager in dealing with the day-to-day management of the Fund will jeopardise the investment of Unit Holders through the risk of reduced returns and in some cases the Unit Holders may also lose the capital invested in the Fund.

The selection of securities of the Fund or placement of Deposits which make up the assets of the Fund is a subjective process and depends on the expertise of a fund manager in carrying out the investment management function of the Fund. The securities selected or Deposits placed by the Manager may perform better or worse than the overall market, or as compared to portfolios of a similar mandate managed by our competitors.

b) Inflation / Purchasing Power Risk

This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased. There is a risk that the value of Unit Holders' money invested in the Fund and the value of any returns thereof may be reduced by inflation.

c) Redemption Risk

The ability of the Fund to honour requests for redemption in a timely manner is subject to the Fund's holding of adequate liquid assets and/or its ability to borrow on a temporary basis as permitted by the relevant laws.

d) Loan / Financing Risk

Investors should assess the inherent risk of investing with borrowed money or through financing facility which would include the following:

- i) the ability to service the loan repayments or financing instalments and the effect of increase in interest rates or profit rates on the loan repayments or financing instalments; and
- ii) (in a case where Units are used as collateral to the loan or financing facility) the ability to provide additional collateral should the Unit prices of the Fund fall beyond a certain level,

failing which, the investors' Units may be sold off to realise the proceeds towards settlement of the outstanding loan or financing facility taken.

[Please see Unit Trust Loan Financing Risk Disclosure Statement in the application form]

e) Risk of Non-Compliance

The risk arises should the Manager not follow the provisions set out in the Deed or the law that governs the Fund or its own internal procedures, whether by oversight or by omission, or if the Manager acts fraudulently or dishonestly. Such non-compliance may result in the Fund being mismanaged and may affect the Unit Holders' investment.

f) Returns are not Guaranteed

There is no guarantee on the investment returns to Unit Holders. Unlike fixed deposits which carry a specific rate of return, the Fund does not provide a fixed rate of return.

Investment Risks

a) Counterparty Risk

The Fund's placements of Deposits with financial institutions is subject to the risk of the counterparty. Counterparty risk refers to the possibility that the financial institution where the Deposit placements are made will not be able to make timely payments of interest and/or principal repayment on demand when it becomes due. This may lead to a default in the payment of principal and/or interest and ultimately a reduction in the value of the Fund.

b) Interest Rate Risk

This risk refers to the effect of interest rate changes on the market value of a fixed income portfolio. In the event of rising interest rates, prices of fixed income securities and money market instruments will generally decrease and vice versa. Meanwhile, fixed income securities and money market instruments with longer maturities and lower coupon and interest rates are more sensitive to interest rate changes. This risk will be mitigated via the management of the duration structure of the fixed income portfolio. In respect of equities, this risk refers to the impact of interest rate changes to companies in general. Any increase in interest rate would generally increase a company's cost of financing which may impact their profitability which in turn may impact a company's share price. Interest rate movements affect the returns of Deposits as well. Interest rates offered by the financial institutions will fluctuate according to the overnight rate policy determined by Bank Negara Malaysia and this has direct correlation with the Fund's investment in Deposits. In the event of rising interest rates, the Fund's future reinvestment in Deposits will benefit from the higher interest rate and in the event of falling interest rates, the Fund's future investment in Deposits will be reinvested at lower interest rates which in turn will reduce the Fund's potential returns.

c) Credit and Default Risk

This risk refers to the possibility that the issuer of a fixed income security or money market instrument will be unable to make coupon or interest payments and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

d) Market Risk

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in and subsequently the value of the Fund's investments.

e) Particular Security Risk

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the Units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities comprising the Fund's portfolio will cause the Unit price of the Fund to rise or fall accordingly.

f) Equity Related Securities Risk

The Fund may also invest in equity related securities such as warrants. As warrants are linked to the particular equity securities from which they are derived, the warrants inherit the risks linked to that underlying equity such as market risk, currency risk, country risk, industry risk and liquidity risk. A movement in the prices of the underlying equity securities of the warrants will generally result in a larger movement in the prices of the warrants, thus the higher volatility of investments in warrants. In the event of a decline in the market, warrants can lose a substantial amount of their values, far more than equity securities and vice versa. Warrants also have a limited life and if they are not exercised at the maturity, they will expire and become worthless causing the value of the Fund's investments to fall. Like any other investment, the fall in the value of the Fund's investments will ultimately lower the Fund's Net Asset Value.

g) Liquidity Risk

This risk refers to the ease with which a security can be sold at or near its fair value depending on the volume traded on the market. Should a security become illiquid, it may be sold at a discount to its fair value, thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments. To mitigate the liquidity risk, the Fund maintains a reasonable level of liquidity to meet any redemption request.

h) Currency Risk

Where a percentage of the value of the Fund is invested in foreign currency or assets denominated in a foreign currency, the Fund may be exposed to currency risk. Fluctuation in foreign exchange rates will affect the value of the Fund's foreign investments when converted into local currency and subsequently the value of Unit Holders' investments. This risk can be mitigated by investing in a wide range of foreign currency denominated assets thus diversifying the risk of single currency exposure. Hedging may be applied to mitigate the currency risk, if necessary.

i) Country Risk

In addition to currency risk, the Fund is also subject to country risk. The value of the assets of the Fund may also be affected by the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund may invest. Further, when investing in foreign markets, there are countries which may require prior approvals before investments can take place. For example, if and when the Fund invests in countries such as China, Taiwan, and Hong Kong, where such countries require the application of an investment licence or registration of an investor code before any investment can be made in these countries. As such, if investments in such countries are undertaken, there may be a risk that such registration or licence may be revoked or not renewed by the relevant authority and the Fund's investment in these countries may be affected. The effect on the Fund's investments will depend on the regulatory requirements of the respective countries. For example, if a foreign market requires the Fund to obtain an investment licence which is subject to renewal and if such investment licence is not renewed in a timely manner, this may result in the Fund's investment account in that country being frozen by the regulator resulting in investment activities for the Fund in that country being suspended. To mitigate this, the Manager will monitor closely the adherence of investment regulatory requirements in such countries.

j) Financial Derivative Risk

If the Fund participates in financial derivative for hedging purposes, it will be subject to risks associated with such financial derivative. As hedging activities are meant to protect the Fund from currency volatility, the benefit of any upside of currency movement is limited. The Fund's participation in financial derivative may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the financial derivative positions. If no provision is made for the required margin within the prescribed time, the Fund's financial derivative may be liquidated at a loss. Therefore, it is essential that such participation in financial derivative are monitored closely. If and when the Manager participates in financial derivatives, the Manager will monitor the financial derivatives' positions for the Fund. In addition, participation in financial derivatives is also subject to the possibility that the counterparty to the financial derivative may fail or default in its obligations under the financial derivative contract. Such failure or default by the counterparty whether in the payment of principal and/or interest or any gain from the financial derivative transaction may ultimately lead to a reduction in the value of the Fund.

2.2 Specific Risks when Investing in the Fund

As the Fund's equities investments will focus on securities issued by companies whose business are in the Greater China (i.e. the People's Republic of China, Hong Kong SAR and Taiwan), it may be subject to a higher level of risk than an equities portfolio which is not restricted to a particular geographical market. Thus, there is a risk that the Fund will perform poorly during an economic downturn or in the event of adverse news affecting the said Greater China markets.

Further when investing in the China and Taiwan markets, prior approvals are required before investments can be undertaken in these countries. As such, the Fund has obtained from the relevant regulatory authority, the registration certificate and code for investments in Taiwan and an investor code for investments in the China markets.

The Fund is also subject to interest rate risk. As prices of fixed income securities generally move in opposite direction with interest rates, when interest rates rise, prices of fixed income securities will generally fall. This rise in interest rate would cause the investor to face the risk of capital loss. But when interest rates fall, prices of fixed income securities will generally increase, therefore, investors will see capital gains.

In addition, the Fund is subject to credit and default risk. This risk refers to the creditworthiness of the fixed income securities' issuer and its expected ability to pay debt. Default happens when the issuer is not able to make timely payments of interest on the interest payment date and/or principal payment on the maturity date.

As the Fund may invest up to 70% of its Net Asset Value in securities of foreign markets, it may be subject to further risks, such as currency risk and country risk [see Section 2.1 (Investments Risks)], when compared to a portfolio which concentrates its holdings in a single market or economy. Furthermore, share investments are susceptible to the movements of share prices which can rise or fall for a number of reasons such as industry trends, economic factors, and changes in a company's operations, management and financial performance as well as market perception of that particular company.

The above should not be construed to be an exhaustive list of the risks which investors should consider before investing in the Fund. Investors should be aware that an investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

2.3 Risk Management Strategies of the Fund

As part of our risk management strategies, we will:

- (1) ensure the Fund adheres to the Fund's investment objective, investment strategy and investment limit and restrictions;
- (2) conduct fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors which are likely to impact the Fund;
- (3) ensure portfolio diversification for the Fund;
- (4) constant review and monitoring of the Fund's performance; and
- (5) employ hedging strategies, if applicable. Please refer to Section 1.1.12 for further details.

Liquidity Risk Management

We have put in place the following liquidity risk management policies to identify, monitor and manage the liquidity of the Fund in order to meet the redemption requests from Unit Holders while safeguarding the interests of the remaining Unit Holders:

- The Fund may hold a reasonable level of liquid assets to meet the Unit Holders' redemption request.
- There will be regular review by the designated fund manager on the Fund's investment portfolio.
- The Manager will monitor on a daily basis the Fund's net flows against repurchase requests during normal and adverse market conditions as a pre-emptive measure to track the Fund's liquidity position.
- The Fund may borrow cash on a temporary basis from financial institutions as permitted under the Guidelines to meet the Unit Holders' redemption requests.

3. VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. As the Fund invests in foreign markets which may have different time zones from that of Malaysia, the valuation of the Fund for a Business Day will be conducted by 5.00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business.

Accordingly, the price of the Fund for a particular Business Day will not be published online on the Manager's website on the next day but will instead be published the next following day (i.e. the price will be two (2) days old). This will be specifically indicated on the Manager's website.

Illustration

When markets are closed for trading on 18 April 2023 (Tuesday) the valuation date will be the next day on which the Manager is open for business, that is, 19 April 2023 (Wednesday). Thus, the publication date for the prices as at 18 April 2023 (Tuesday) will be on 20 April 2023 (Thursday) on the Manager's website.

Investors may obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, www.rhbgroup.com [please refer to Section 5.6 (g) (Availability of Information on Investment)].

In undertaking any of the Fund's investments, the Manager will ensure that all the assets of the Fund will be valued at fair value and at all times in compliance with the relevant laws (including approved accounting standards).

Accordingly, where applicable:

- (i) Listed securities will be valued daily based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions; or

- (b) no market price is available, including in the event of a suspension in the quotation of securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,

then the securities would be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

- (ii) Unlisted fixed income securities denominated in RM will be valued on a daily basis by reference to the fair value prices quoted by a bond pricing agency (“BPA”) registered with the Securities Commission. However, where quotations are not available, such unlisted fixed income securities will be valued at fair value by reference to the average indicative yield quoted by three independent and reputable financial institutions in OTC market at the close of trading. These institutions include investment banks and commercial banks dealing in fixed income securities.

In a case where the Manager is of the view that the price quoted by BPA for a specific unlisted fixed income security differs from the market price (i.e., the Manager’s view of the market yield) by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non BPA price, obtains necessary internal approvals to use the non BPA price and keeps an audit trail of all decisions and basis for adopting the market price.

However, when the Manager, after taking all reasonable efforts, is unable to obtain quotations from BPA price or quotations from three independent and reputable financial institutions due to circumstances such as extreme market conditions, such unlisted fixed income securities denominated in RM will be valued at fair value as determined in good faith by the Manager based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

- (iii) Unlisted equity securities will be valued at fair value as determined in good faith by the Manager based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.
- (iv) Collective investment schemes which are quoted on an approved exchange shall be valued daily based on the last done market price. Unlisted collective investment schemes shall be valued by reference to the last published repurchase price per unit for that unlisted collective investment scheme.
- (v) Financial derivatives positions will be ‘marked-to-market’ at the close of each trading day.
- (vi) Deposits will be valued each day by reference to the principal value of such investments and the interest accrued thereon for the relevant period.
- (vii) Money market instruments that are held for collecting contractual cash flow purpose i.e. money market placements which have a remaining term to maturity of not more than 90 days at the time of acquisition will be measured on an ongoing basis at amortised cost. The risk of using amortised cost accounting is the mismatch between the fair value and book value of a money market instrument. The Manager will monitor closely and consider prompt action to discontinue the use of amortised cost method and adopt the fair value, i.e., the discounted net present value, as the valuation for money market instrument in the event the variance is above 3%.

Money market instruments other than the aforesaid will be valued on a daily basis by reference to the fair value prices quoted by a BPA registered with the Securities Commission.

- (viii) Foreign exchange translation of foreign investments into RM for a particular Business Day is determined based on the bid rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by the relevant laws.
- (ix) Any other investments as may be held by the Fund will be valued based on fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

4. FEES, CHARGES AND EXPENSES

4.1 Charges

The charges directly incurred by an investor when purchasing or redeeming Units are as follows:

(a) Sales Charge¹

The Manager will impose a sales charge which can be levied on an investor's investment amount/purchase amount, net of bank charges (if any) by the Manager's various distributors as follows:

Distributor	% of investment amount
IUTA	Up to 5.26%
Tied (retail) agent	Up to 5.26%
Direct sales (Direct investment with the Manager)	Up to 5.26%

An investor can expect differing sales charge to be levied when buying Units from the various distribution channels and within each distribution channel, subject to the maximum sales charge of the Fund. This is due to the different levels of services provided by each distribution channel and/or the size of the investment undertaken.

From the sales charge received from investors for the Fund, the Manager pays no more than the entire sales charge as mentioned above as selling commission to its distributors for the Fund.

Illustration:

Say, an investor makes an investment of RM10,000.00 at the Selling Price of RM0.4750 and the distributor levies a sales charge of 5.26%, the investor will pay a total of RM10,526.00 which is made up of:

Amount invested	=	RM	10,000.00
Add: sales charge levied by the distributor @ 5.26%	=	RM	526.00
Total amount paid by the investor	=	RM	<u>10,526.00</u>

The investor will be allotted with Units calculated as follows:

$$\frac{\text{RM}10,000.00}{\text{RM}0.4750^*} = 21,052.63 \text{ Units}^{**}$$

* Unit price is rounded to the nearest 4 decimal places.

** Units computed are rounded to the nearest 2 decimal places.

Note: If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, you will be levied a sales charge of up to 3.00% of the investment amount or any other rate as may be determined by the EPF from time to time.

(b) Repurchase Charge

The Manager will not impose any repurchase charge on investors redeeming their investments.

Illustration

Say, an investor redeems 21,052.63 Units at the Repurchase Price of RM0.4750 (which is the Net Asset Value per Unit as at the next valuation point), the investor would receive proceeds of redemption of RM10,000.00 as follows:

Redemption amount (21,052.63 Units x RM0.4750)	=	RM	10,000.00
Less : repurchase charge	=	RM	(NIL)
Net amount payable to the investor	=	RM	<u>10,000.00</u>

(c) Other Charges

(i) Switching of Units

Units can only be switched to other unit trust funds under the management of the Manager that are of the same currency units and that allow switching.

A switching fee¹ of RM25.00 will be imposed and deducted from the redemption amount of the Units to be switched for a switch between funds that impose a similar sales charge or a switch to a fund that impose a lower sales charge. Unit Holders switching to a fund that imposes a higher sales charge will pay the difference in sales charge which is deductible from the redemption amount of the Units to be switched.

The Manager, however, reserves the right to vary this switching fee or to vary the terms of the switching facility.

For switching into non-money market fund, units of the fund to be switched into shall be purchased at the net asset value per unit as at the next valuation point of the fund's relevant business day after the form of request to switch is received by the Manager ("forward pricing"). For switching into money market fund, units shall be purchased at the net asset value per unit as at the next valuation point of the fund's relevant business day after money is received by the switch in fund.

Illustration

If a Unit Holder switches 5,000 Units in **RHB Golden Dragon Fund** at the Repurchase Price of RM0.5558 and wishes to invest in another unit trust fund under the management of the Manager (that allows switching and which has a higher sales charge of 5.50%) at the net asset value per unit of RM0.5829.

Proceeds from switch (5,000 Units x RM0.5558)	=	RM	2,779.00
(RHB Golden Dragon Fund)			
Less : switching fee of 0.24% (5.50% - 5.26%)	=	RM	(6.67)
Net proceeds from switch:	=	RM	<u><u>2,772.33</u></u>

Proceeds from RHB Golden Dragon Fund invested in another unit trust fund under the management of the Manager:			<u>RM2,772.33</u>
			RM0.5829
	=		4,756.10 units**

** Units computed are rounded to the nearest 2 decimal places.

(ii) Transfer of Units

The Manager charges a transfer fee¹ of RM5.00 for each transfer.

Please refer to Section 5.6 (e) (How to Transfer Ownership of Units).

(iii) Any bank charges imposed by the relevant financial institutions will be borne by the Unit Holders.

Note: ¹All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the Malaysian government from time to time.

4.2 Fees and Expenses

The fees and expenses indirectly incurred by an investor when investing in the Fund are as follows:

(a) Management Fee¹

The Manager is entitled to a management fee of one point eight per cent (1.80%) per annum of the Net Asset Value of the Fund calculated on a daily basis before deducting the management fee and Trustee's fee for that particular day.

Illustration: Calculation of management fee

Assuming that the Net Asset Value of the Fund (before deducting the management fee and Trustee's fee) for a particular day is RM105,000,000.00 and the annual management fee is at the rate of one point eight per cent (1.80%) per annum, the calculation of the management fee of the Fund for that particular day is as follows:

$$\frac{\text{RM}105,000,000.00 \times 1.80\%}{365 \text{ days}^*} = \text{RM}5,178.08 \text{ per day}$$

* In the event of a leap year, the management fee will be divided by 366 days.

(b) Trustee's Fee¹

The Trustee is entitled to a trustee fee of up to zero point zero eight per cent (0.08%) per annum of the Net Asset Value of the Fund (including local custodian fee and charges but excluding foreign custodian fee and charges) calculated on a daily basis before deducting the management fee and Trustee's fee for that particular day.

Illustration: Calculation of Trustee's fee

Assuming that the Net Asset Value of the Fund (before deducting the management fee and Trustee's fee) for a particular day is RM105,000,000.00 and the Trustee's fee is at the rate of zero point zero eight per cent (0.08%) per annum, the calculation of the Trustee's fee of the Fund for that particular day is as follows:

$$\frac{\text{RM}105,000,000.00 \times 0.08\%}{365 \text{ days}^*} = \text{RM}230.14 \text{ per day}$$

* In the event of a leap year, the Trustee's fee will be divided by 366 days.

(c) Other Expenses Directly Related to the Fund

In administering the Fund, there are expenses directly related to the Fund. These expenses include the cost of the auditors' fees and other relevant professional fees, foreign custodial charges, cost of distribution of semi-annual and annual reports, tax certificates, reinvestment statements and other notices to Unit Holders. In addition, there are expenses that are directly related and necessary to the business of the Fund as set out in the Deed, such as commissions paid to brokers, other transaction costs and taxes, if any, that are also paid out of the Fund.

All expenses pursuant to the issuance of this prospectus will be borne by the Manager.

Note: ¹All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the Malaysian government from time to time.

4.3 Reduction or Waiver of Fees and Charges

The Manager may, for any reason at any time, waive or reduce the amount of its management fee only or other charges directly payable by the Unit Holder and/or investor in respect of the Fund, either generally (for all Unit Holders and/or investors) or specifically (for any particular Unit Holder and/or investor) and for any period or periods of time at its absolute discretion.

4.4 Policy on Rebates and Soft Commissions

It is the Manager's policy to credit all rebates to the account of the Fund. However, goods and services ("soft commissions") provided by any broker or dealer may be retained by the Manager or the fund manager only if:

- (a) the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;

- (b) any dealing with broker or dealer is executed on terms which are the most favourable for the Fund; and
- (c) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager or fund manager must not enter into unnecessary trades to achieve a sufficient volume of transactions to qualify for soft commissions.

4.5 Tax

All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the Malaysian government from time to time.

Based on the Finance Act 2021, income derived by the Fund from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022 onwards, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Fund.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement (“DTA”) or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

There are fees and charges involved and investors are advised to consider them before investing in the Fund.

5. TRANSACTION INFORMATION

5.1 Pricing of Units

The Manager adopts a single pricing policy, i.e. the Selling Price and the Repurchase Price is the Net Asset Value per Unit.

5.2 Valuation of Units

The valuation of Units is based on the Net Asset Value and is calculated at the end of a Business Day. In line with the single pricing policy, the Selling Price and the Repurchase Price will be the Net Asset Value per Unit.

Calculation of Net Asset Value per Unit

The valuation of the Fund is conducted at least once every Business Day. The Net Asset Value is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at the valuation point.

The valuation of the Fund is in the local currency, i.e. RM. The Net Asset Value per Unit will be the Net Asset Value divided by the total number of Units in circulation, at that valuation point.

Total Net Asset Value (RM)	194,485,824.23
Assumption of Units in circulation at valuation point	572,211,000
Net Asset Value per Unit	0.3399*

* Net Asset Value per Unit is rounded to 4 decimal places.

Please note that the above is for illustration purpose only.

5.3 Computation of Selling Price

The Selling Price shall be the Net Asset Value per Unit as at the next valuation point of the Fund's relevant Business Day after the application for Units is received by the Manager ("forward pricing"). A sales charge¹ will be computed separately based on the investment amount/purchase amount, net of bank charges (if any).

Illustration

Say, an investor makes an investment of RM10,000.00 at the Selling Price of RM0.4750 (which is the Net Asset Value per Unit as at the next valuation point) and the distributor levies a sales charge¹ of 5.26%, the investor will pay a total of RM10,526.00 which is made up of:

Investment amount	=	RM 10,000.00
Add: sales charge levied by the distributor @ 5.26%	=	RM 526.00
Total amount paid by the investor	=	<u>RM 10,526.00</u>

The investor will be allotted with Units calculated as follows:	<u>RM10,000.00</u>
	RM 0.4750*
	= 21,052.63 Units**

* Unit price is rounded to the nearest 4 decimal places.

** Units computed are rounded to the nearest 2 decimal places.

Note: ¹All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the Malaysian government from time to time.

5.4 Computation of Repurchase Price

The Repurchase Price shall be the Net Asset Value per Unit as at the next valuation point of the Fund's relevant Business Day after the request for repurchase of Units is received by the Manager ("forward pricing"). The Manager does not charge any repurchase charge for this Fund.

Illustration

Say, an investor redeems 21,052.63 Units at the Repurchase Price of RM0.4750 (which is the Net Asset Value per Unit as at the next valuation point), he would receive proceeds of redemption of RM10,000.00 as follows:

Redemption amount (21,052.63 Units x RM0.4750*)	=	RM 10,000.00
Less: repurchase charge	=	RM (NIL)
Net amount payable to the Unit Holder	=	<u>RM 10,000.00</u>

* Unit price is rounded to the nearest 4 decimal places.

5.5 Pricing Error Policy

The Manager shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation of the Fund, any incorrect pricing of Units which is deemed to be significant will involve the reimbursement of money in the following manner:

- a) by the Manager to the Fund and/or to the Unit Holders and/or to the former Unit Holders; or
- b) by the Fund to the Manager.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the Net Asset Value per Unit and the amount to be reimbursed is equivalent to RM10.00 or more.

5.6 Transaction Details**(a) How to Purchase and Redeem Units**

When purchasing Units, investors must forward the following:

- 1) completed account application form and purchase/switch form;
- 2) necessary remittance; and
- 3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant),

to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors, before their respective cut-off times on any Business Day.

The minimum initial investment of the Fund is RM100.00 (or such other amount as the Manager may from time to time decide) and the minimum additional investment is RM100.00 (or such other amount as the Manager may from time to time decide).

Similarly, Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the Fund.

The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of Units after the redemption must be at least one hundred (100) Units or such other lower quantity as the Manager may from time to time decide (the “minimum investment balance”). There is no restriction on the number of Units a Unit Holder can redeem out of the Unit Holder’s investments or the frequency of redemptions in a year. If the balance of Units held after the redemption is less than the minimum investment balance, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.

Notes:

- (1) US Person is not eligible to subscribe to the Units of the Fund. If a Unit Holder is a US Person or subsequently becomes a US Person, the Manager will issue a notice to that US Person requiring him/her to either redeem all the Units of the Fund or transfer all the Units of the Fund to a non-US Person, within thirty (30) days from the date of the notice. The Manager shall have the right to compulsorily redeem all the Units held by the said US Person after thirty (30) days from the date of notice if the US Person fails to redeem or transfer his/her Units within the stipulated period.
- (2) If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, the minimum initial investment shall be RM1,000.00 (or any other amount as may be determined by EPF).

(b) Cooling-off Period

The cooling-off right refers to the right of an individual investor to obtain a refund of his investment if he so requests within the cooling-off period. The cooling-off right is only given to an individual investor, other than those listed below, who is investing in any unit trust funds managed by the Manager for the first time:

- (i) a staff of the Manager; and/or
- (ii) a person registered with a body approved by the Securities Commission to deal in unit trust funds.

The refund to the investor pursuant to the exercise of his cooling-off right must be as follows:

- a) the Net Asset Value per Unit at the point of exercise of the cooling-off right (“market price”), if the Net Asset Value per Unit on the day the Units were purchased (“original price”) is higher than the market price; or
- b) the original price, if the market price is higher than the original price.

If the market price is higher than the original price paid by the investor, the Manager may agree to pay the investor the excess amount, provided that such amount is not paid out of the Fund or the assets of the Fund.

The Manager must also refund the sales charge originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) Business Days which shall be effective from the date of receipt of the application by the Manager. Where applicable, if you

have invested via the EPF-MIS, the cooling-off period shall be subject to EPF's terms and conditions.

The cooling-off right allows investors the opportunity to reverse an investment decision which could have been unduly influenced by certain external elements or factors.

Withdrawal proceeds will only be paid to the investors once the Manager has received cleared funds for the original investment. For investors who paid by cheque, the refund will be made upon clearance of the cheque. The Manager shall refund the investor in cash within seven (7) Business Days of receiving the cooling-off notice. Where applicable, if you have invested via the EPF-MIS, the refund will be credited back into your EPF accounts.

(c) Where Units can be Purchased or Redeemed

Units can be purchased or redeemed at the Manager's registered/principal office or any of its branches, or any of its participating IUTAs and any other authorised distributors or channels as the Manager may decide from time to time. (d) How to Switch between Funds

Unit Holders may switch to units of any unit trust fund under the management of the Manager that are of the same currency and that allows for switching by forwarding the completed form of request to switch to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. The minimum amount for a switch into another fund is RM100.00 or such other amount as the Manager may from time to time decide. There is no restriction as to the number of switches a Unit Holder may perform or the frequency of switching. The minimum investment balance must be at least one hundred (100) Units or such other lower quantity as the Manager may from time to time decide after the switch. Following a switching transaction, if the quantity of Units held by a Unit Holder in the Fund falls below its minimum investment balance, the Manager can switch the entire investment and forward the proceeds to the fund that the Unit Holder intends to switch into. The Manager however, reserves the right to vary these terms.

(e) How to Transfer Ownership of Units

Unit Holders may transfer their holdings of Units to another investor by forwarding the completed form of transfer to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day.

If the transferee is a new investor, the transferee must also forward the following:

- 1) completed application form; and
- 2) relevant supporting documents such as a photocopy of the transferee's identity card (for an individual applicant) or certified true copies of the certificate of

incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant).

However, the Manager may refuse to register any partial transfer of Units if the registration would result in the transferor or the transferee holding less than the minimum investment balance of one hundred (100) Units or such other lower quantity as the Manager may from time to time decide. The Manager may also refuse an entry of transfer during the fourteen (14) days preceding an income distribution date.

(f) Unclaimed Moneys

All money payable to a Unit Holder may be paid by electronic payments or cheques. However, after the lapse of one (1) year from the date of the cheque or any moneys payable to Unit Holders which remain unclaimed for such period of time, the Manager shall file and pay the unpresented payments to the Registrar of Unclaimed Moneys in accordance with the requirements of the Unclaimed Moneys Act 1965. Thereafter, the Unit Holders are to claim such monies from the Registrar of Unclaimed Moneys.

(g) Availability of Information on Investment

After purchasing Units, the value of the investment can be monitored easily as the Unit price of the Fund is published online daily on the Manager's website, **www.rhbgroup.com**.

Unit Holders will receive an unaudited semi-annual report and an audited annual report of the Fund from the Manager within two (2) months after the end of the financial period/financial year end that the report covers. The Manager may also issue updates on the performance of the Fund either quarterly or semi-annually, or as and when appropriate.

5.7 Mode of Distribution

Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional Units based on the Net Asset Value per Unit as at the first Business Day after Units are quoted ex-entitlement. Allotment of such Units shall be within two (2) weeks thereafter.

Dear Sirs

Re: Taxation of the Fund and Unit Holders

This letter has been prepared for inclusion in this Replacement Prospectus in respect of RHB Golden Dragon Fund ("the Fund").

Taxation of the Fund

Income Tax

The Fund is a unit trust for Malaysian tax purposes. The taxation of the Fund is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Fund in respect of investment income derived from or accruing in Malaysia is liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

The Fund may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Fund.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement ("DTA") or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income earned by the Fund from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

Discounts earned by the Fund from the following are also exempt from tax: -

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Fund's expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Fund are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax ("RPGT")

Gains on disposal of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall also not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Fund such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Fund is only deriving income from such activities, the Fund is not liable to be registered for service tax.

However, certain expenses incurred by the Fund such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Fund is a cost to the Fund and is not recoverable, unlike the GST input tax which was claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Fund, to the extent that this is distributed to them. The income distribution from the Fund may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Fund to the extent of an amount equivalent to their share of the total taxable income of the Fund. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Act 2023, the tax rate of 17% will be reduced to 15% for chargeable income of up to RM150,000, while the tax rate for chargeable income from RM150,001 up to RM600,000, will remain unchanged at 17%. For chargeable income in excess of RM600,000, the tax rate of 24% will apply. These changes will come into effect from YA 2023.

In addition to the current conditions as mentioned above, the preferential tax rate would not apply if more than 20% of the paid-up capital in respect of ordinary shares of the company at the beginning of the basis period for a YA is directly or indirectly owned by a company or companies incorporated outside Malaysia or an individual or individuals who are not Malaysian citizens. The condition is effective from YA 2024.

Based on the Finance Act 2021, a corporate tax rate of 33% (“Cukai Makmur”) will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Fund will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Fund will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income exempt from tax of a unit trust that is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002, will be subjected to tax. This is effective from 1 January 2022. Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is also effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, certain expenses such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat

the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Ong Guan Heng
Executive Director

The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.
- RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. If you are a U.S. Person, we may need to give the Inland Revenue Board of Malaysia ("IRBM") your account information, which may then be shared with the U.S. IRS.

It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.
- RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.
- Each jurisdiction has its own rules for defining tax residences, and jurisdiction have provided information on how to determine if you are resident in a jurisdiction on the following website: - <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/>
- RHBAM MY are not allowed to give tax advice. Please consult your tax adviser if you require assistance in determining your tax residence(s).

- "Reportable Jurisdiction" is a jurisdiction with which an obligation to provide financial account information is in place.
- "Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760>]. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).
- For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.
- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers>]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.

- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
 - b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment may be increased.
 - c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
 - d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
 - e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
 - b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
 - c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
 - d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
 - e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.
