5. AMENDMENTS TO RHB BOND FUND

- (a) A new Section 1.3.1A Fund Type is hereby inserted immediately after Section 1.3.1 Fund Category on page 13 of the Master Prospectus:

1.3.1A Fund Type

Income.

- (b) The information on “Investment Strategy” in Section 1.3.5 on pages 13 to 14 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Up to 95% of the Fund’s Net Asset Value will be invested in bonds and other fixed income securities, of which at least 60% of the Fund’s Net Asset Value will be invested in bonds.
- Minimum of 5% of the Fund’s Net Asset Value will be invested in liquid assets

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund will invest in quality fixed income securities which carry a minimum long term credit rating of **investment grade** and above assigned by any Domestic Rating Agencies. To contain credit risk, the Manager will ensure that the diversification of credit rating (and duration standing) in the bond portfolio mitigate the overall risk position of the portfolio.

The Manager may also take temporary defensive measures that may be inconsistent with the Fund’s principal strategy in attempting to respond to adverse market conditions, economics, political or any other conditions which the Manager deem detrimental to the Fund. The defensive measures that the Manager may undertake are in no way to be deviated from the mandates or breaching any laws and regulations. The Fund’s strategies in yield enhancement for the portfolio will also be balanced with other investment needs of the Fund, such as liquidity and risk management. On liquidity management, the Fund will maintain sufficient amount of portfolio in liquid bond to accommodate redemption. As for risk management, the portfolio duration is kept at optimal level where yield enhancement can be optimised on risk adjusted basis, and at the same time, balanced with the need for containing portfolio’s volatility.

Hence, during the temporary defensive period, the Manager may choose to increase the asset allocation by allocating more investment into risk free investments which are money market instruments and Deposit in adverse market condition.

The performance of this Fund is benchmarked against RHB Bank Berhad’s 12-month fixed deposit rate^{^^}. Unit Holders may log on to the RHB Bank Berhad’s website, www.rhbgroup.com, to obtain the latest information on the RHB Bank Berhad’s fixed deposit rate. 9. AMENDMENTS TO RHB ISLAMIC BOND FUND

- (a) A new Section 1.7.1A Fund Type is hereby inserted immediately after Section 1.7.1 Fund Category on page 26 of the Master Prospectus:

1.7.1A Fund Type

Income.

- (b) The information on “Investment Strategy” in Section 1.7.5 on pages 26 to 27 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.7.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Minimum of 60% and up to 95% of the Fund’s Net Asset Value will be invested in sukuk.
- Minimum of 5% of the Fund’s Net Asset Value will be invested in Islamic liquid assets acceptable under the Shariah principle.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund will invest in sukuk. Investments must carry a minimum long term or short term credit rating of **investment grade** as assigned by any Domestic Rating Agencies. To contain credit risk, the Manager will ensure that the diversification of credit rating (and duration standing) in the sukuk portfolio mitigate the overall risk position of the portfolio.

The Manager may also take temporary defensive measures that may be inconsistent with the Fund’s principal strategy in attempting to respond to adverse market conditions, economics, political or any other conditions which the Manager deem detrimental to the Fund. The defensive measures that the Manager may undertake are in no way to be deviated from the mandates or breaching any laws and regulations. The Fund’s strategies in yield enhancement for the portfolio will also be balanced with other investment needs of the Fund, such as liquidity and risk management. On liquidity management, the Fund will maintain sufficient amount of portfolio in liquid sukuk to accommodate redemption. As for risk management, the portfolio duration is kept at optimal level where yield enhancement can be optimised on risk adjusted basis, and at the same time, balanced with the need for containing portfolio’s volatility.

Hence, during the temporary defensive period, the Manager may choose to increase the asset allocation by allocating more investment into risk free investments which are Islamic money market instruments and Islamic Deposit in adverse market condition.

The performance of this Fund is benchmarked against RHB Islamic Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate^{^^}. Unit Holders may log on to the RHB Islamic Bank Berhad’s website, **www.rhbgroup.com**, to obtain the latest information on the RHB Islamic Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

^{^^} The performance benchmark of the Fund has been replaced from Maybank Islamic Berhad’s 12 months IFD-i rate to RHB Islamic Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate with effect from the date of this Supplementary Master Prospectus due to the Manager’s intention to standardize the source of the fixed deposit rate from Maybank’s to RHB Islamic Bank Berhad’s.

10. AMENDMENTS TO RHB ISLAMIC CASH MANAGEMENT FUND

- (a) A new Section 1.8.1A Fund Type is hereby inserted immediately after Section 1.8.1 Fund Category on page 29 of the Master Prospectus:

1.8.1A Fund Type

Income.

- (b) The information on “Investment Strategy” in Section 1.8.7 on pages 29 to 30 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.7 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- At least 90% of the Fund’s Net Asset Value will be invested into Islamic money market instruments and Islamic Deposits that are not more than 397 days to maturity.
- Up to 10% of the Fund’s Net Asset Value will be invested in Islamic money market instruments and Islamic Deposits that is more than 397 days but fewer than 732 days to maturity.

The Fund is an Islamic money market fund whose investment strategy is to invest in a diversified portfolio of short term Islamic money market instruments and Islamic Deposits. Although the Fund is actively managed, any such trading strategy will depend on the market opportunities and the anticipated redemption requests by the Unit Holders.

The minimum credit rating for the rated instruments to be invested by the Fund will be **top three credit rating (including gradation and subcategories)** as assigned by any Domestic Rating Agencies. In the event of a credit downgrade of a particular instrument below the minimum stipulated, the External Investment Manager will endeavour to take the necessary steps to divest that instrument within a time frame deemed reasonable by the External Investment Manager. However, in order to best protect the interests of the Fund, the External Investment Manager has the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.

The risk management strategies and techniques employed by the External Investment Manager include diversification of the Fund’s assets allocation in terms of its exposure to various classes and/or type of investment. The permitted investments and restrictions imposed by the Securities Commission also provide a risk management framework. Moreover, the External Investment Manager in making its investment decisions shall at all times comply with the investment restrictions, requirements as set out in the Deed and the principles of the Shariah. The Fund’s investment strategy takes into consideration the direct correlation between risk and return for any investment alternative. The Fund’s investment strategy requires the committee undertaking the oversight function of the Fund to:

- ensure that the fund manager employs strategies for maximum capital protection[#] through diversification and risk acceptance strategies for optimal return on investment;
- oversee the asset allocation between various forms of investments made to meet the investment objectives of the Fund; and
- review the investment results on a monthly basis against the performance of benchmark indices.

Note: [#]Although the Fund’s investment strategy requires the committee undertaking the oversight function of the Fund to ensure that the fund manager employs strategies for maximum capital protection, the Fund is not a capital guaranteed fund or a capital protected fund.

Results will be evaluated on a total rate of return basis. The committee undertaking the oversight function of the Fund also evaluates the Fund for compliance with its investment objective.

The above investment strategy of the Fund may be varied by the External Investment Manager with the approval of the committee undertaking the oversight function of the Fund from time to time with the knowledge of the Trustee. Such variation in investment strategy may be short term in nature and shall be regularised within three (3) months. The reason for such variation may be due to large redemptions or adverse mark-to-market valuation on the Islamic money market instruments. Depending on the prevailing circumstances, the Fund will adopt a suitable level of activeness and frequency in trading for the purpose of meeting the Fund’s objective.

To mitigate the risks confronting the Fund, the External Investment Manager will, amongst other things:

- constantly monitor market liquidity and pricing;
- adhere to the Fund’s objectives and investment restrictions and limits; and
- constantly liaise with the committee undertaking the oversight function of the Fund and follow the advice from the committee undertaking the oversight function of the Fund.

11. AMENDMENTS TO RHB DIVIDEND VALUED EQUITY FUND

- (a) A new Section 1.9.1A Fund Type is hereby inserted immediately after Section 1.9.1 Fund Category on page 33 of the Master Prospectus:

1.9.1A Fund Type

Growth and income.

- (b) The information on "Investment Strategy" in Section 1.9.5 on pages 33 to 34 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.9.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Minimum of 70% and up to 98% of the Fund's Net Asset Value will be invested in equities.
- Minimum of 2% and up to 30% of the Fund's Net Asset Value will be invested in fixed income securities and/or liquid assets.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Manager will invest in companies that offer higher expected dividend yields compared to other companies in the market and whose cash-flow generated by business and management activities are expected to support such dividend payments. The Manager therefore seeks to identify and invest in companies that focus on shareholder value in the form of sustainable dividend returns combined with the prospect for capital growth.

The Fund will invest abroad following the liberalisation of Bank Negara Malaysia's regulations on investments abroad. Any foreign investments made by the Fund will be in line with the Fund's objective and in Eligible Market. The Fund's foreign investment will primarily be in equity and equity related securities listed on established stock exchanges in countries within Asia and other regions, namely China, Hong Kong, India, Indonesia, South Korea, Philippines, Singapore, Taiwan, Thailand, Australia and such other countries which are deemed fit by the Manager. There is no target industry or sector. On top of that, the Fund has the option to invest in stocks whether or not listed on the stock exchange of the regions stated above but with assets in and revenues derived from these regions. Subject to the investment restrictions of the Fund, the Deed and the relevant laws, the Fund targets to invest up to 98% of its Net Asset Value abroad. For the avoidance of doubt, the Fund has the discretion to invest in the local market depending on the conditions of the local and foreign markets.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

The Manager employs rigorous research to determine the securities to be included in the investment portfolio. The Manager believes long term investment performance can be achieved by employing a rigorous research process that enables it to identify companies that generate superior cash flows as well as companies that are undervalued.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and Deposits, which are defensive in nature.

The performance of this Fund is benchmarked against Morgan Stanley Capital International Asia Pacific Free ex Japan Index (MSCI). Unit Holders can obtain information on the Morgan Stanley Capital International Asia Pacific Free ex Japan Index (MSCI) from the Manager upon request. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

*Funds with mandates investing in foreign markets.

The Funds must be valued at least once every Business Day. However, certain foreign markets in which the Funds may invest in have different time zones from that of Malaysia.

Accordingly, for Funds investing solely in the local market, the valuation of the respective Funds for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the price of the Funds for a particular Business Day will be published online on the Manager's website on the next day.

For Funds which have investments in foreign markets, the valuation of the respective Funds for a Business Day will be conducted by 5.00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business, when the closing prices of the foreign markets for that Business Day would be available.

As such, the price for a particular Business Day, of the Funds with investments in foreign markets will not be published online on the Manager's website on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated on the Manager's website.

Illustration (for Funds investing in foreign markets)

When markets are closed for trading on 13 June 2023 (Tuesday), the valuation date will be the next day on which the Manager is open for business i.e. 14 June 2023 (Wednesday). Thus, the publication date for the price as at 13 June 2023 (Tuesday) will be on 15 June 2023 (Thursday) on the Manager's website.

Investors may obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, www.rhbgroup.com [please refer to Section 5.6 (g) (Availability of Information on Investment)].

In undertaking any of the Fund's investments, the Manager will ensure that all the assets of the respective Funds will be valued at fair value and at all times in compliance with the relevant laws (including approved accounting standards).

Accordingly, where applicable:

- (i) Listed securities / Shariah-compliant securities

Listed securities / Shariah-compliant securities will be valued daily based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

However, if: -

- (a) a valuation based on the market price does not represent the fair value of the listed securities / Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of listed securities / Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,

then the listed securities / Shariah-compliant securities would be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

(ii) Unlisted fixed income securities / sukuk

Unlisted fixed income securities / sukuk denominated in Ringgit Malaysia will be valued on a daily basis by reference to the fair value prices quoted by a bond pricing agency ("BPA") registered with the Securities Commission. However, where quotations are not available, such unlisted fixed income securities / sukuk will be valued at fair value by reference to the average indicative yield quoted by three independent and reputable financial institutions in OTC market at the close of trading. These institutions include investment banks and commercial banks dealing in fixed income securities / sukuk.

Unlisted fixed income securities / sukuk denominated in foreign currencies are valued daily using the Bloomberg Generic Price ("BGN price") provided by Bloomberg. Where BGN prices are not available on any Business Day, these unlisted fixed income securities / sukuk will be valued by reference to the average indicative yield quoted by three independent and reputable financial institutions.

In a case where the Manager is of the view that the price quoted by BPA or the BGN price for a specific unlisted fixed income security / sukuk differs from the market price (i.e., the Manager's view of the market yield) by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non BPA price or non BGN price, obtains necessary internal approvals to use the non BPA price or non BGN price and keeps an audit trail of all decisions and basis for adopting the market price.

However, when the Manager, after taking all reasonable efforts, is unable to obtain quotations from BPA or any BGN price or quotations from three independent and reputable financial institutions due to circumstances such as extreme market conditions, such unlisted fixed income securities / sukuk (denominated in Ringgit Malaysia and denominated in foreign currencies) will be valued at fair value as determined in good faith by the Manager based on the methods or bases which have been verified by the auditor of the Funds and approved by the Trustee.

(iii) Unlisted equity securities / Shariah-compliant equity securities

Unlisted equity securities / Shariah-compliant equity securities will be valued at fair value as determined in good faith by the Manager based on the methods or bases which have been verified by the auditor of the Funds and approved by the Trustee.

(iv) Collective investment schemes / Islamic collective investment schemes

Collective investment schemes / Islamic collective investment schemes which are quoted on an approved exchange shall be valued daily based on the last done market price. Unlisted collective investment schemes / Islamic collective investment schemes shall be valued by reference to the last published repurchase price per unit of that unlisted collective investment scheme / Islamic collective investment schemes.

(v) Financial derivatives / Islamic financial derivatives

Financial derivatives / Islamic financial derivatives positions will be 'marked-to-market' at the close of each trading day.

(vi) Deposits / Islamic Deposits

Deposits / Islamic Deposits will be valued each day by reference to the principal value of such investments and the interest / profits accrued thereon for the relevant period.

(vii) Money market instruments / Islamic money market instruments

Money market instruments / Islamic money market instruments that are held for collecting contractual cash flow purpose i.e. money market placements / Islamic money placements which have a remaining term to maturity of not more than 90 days at the time of acquisition will be measured on an ongoing basis at amortised cost. The risk of using amortised cost accounting is the mismatch between the fair value and book value of a money market instrument / an Islamic money market instrument. The Manager will monitor closely and consider prompt action to discontinue the use of amortised cost method and adopt the fair value, i.e., the discounted net present value, as the valuation for money market instrument / Islamic money market instruments in the event the variance is above 3%.

Money market instruments / Islamic money market instruments other than the aforesaid will be valued on a daily basis by reference to the fair value prices quoted by a BPA registered with the Securities Commission.

(viii) Foreign exchange translation

Foreign exchange translation of foreign investments into Ringgit Malaysia for a particular Business Day is determined based on the bid rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by the relevant laws.

(ix) Any other investments / Shariah-compliant investments

Any other investments / Shariah-compliant investments as may be held by the Funds will be valued based on fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Funds and approved by the Trustee.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

Units can only be switched to other unit trust funds under the management of the Manager that are of the same currency units and that allow switching.

A switching fee¹ of RM25.00 will be imposed and deducted from the redemption amount of the Units to be switched for a switch between funds that impose a similar sales charge or a switch to a fund that impose a lower sales charge. Unit Holders switching to a fund that imposes a higher sales charge will pay the difference in sales charge which is deductible from the redemption amount of the Units to be switched.

The Manager, however, reserves the right to vary this switching fee or to vary the terms of the switching facility.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

For switching into non-money market fund, units of the fund to be switched into shall be purchased at the net asset value per unit as at the next valuation point of the fund's relevant business day after the form of request to switch is received by the Manager ("forward pricing"). For switching into money market fund, units shall be purchased at the net asset value per unit as at the next valuation point of the fund's relevant business day after money is received by the switch in fund.

All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the Malaysian government from time to time.

Based on the Finance Act 2021, income derived by the Funds from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022 onwards, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Funds.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement (“DTA”) or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

There are fees and charges involved and investors are advised to consider them before investing in the Funds.

18. AMENDMENTS TO THE TRANSACTION INFORMATION

The selling price shall be the Net Asset Value per Unit as at the next valuation point of the Fund’s relevant Business Day after the application for Units is received by the Manager (“forward pricing”). A sales charge¹ will be computed separately based on the investment amount/ purchase amount, net of bank charges (if any).

The Net Asset Value per Unit as at the next valuation point of the Fund is computed as follows:-

5.3 Computation of Repurchase Price

DF	CF	BF	MDF

DVEF	ATRF	USEF	

The repurchase price shall be the Net Asset Value per Unit as at the next valuation point of the Fund’s relevant Business Day after the request for repurchase of Units is received by the Manager (“forward pricing”). The Manager will not impose any Repurchase Charge on the redemption amount except for **BF** and **IBF**. For **BF** and **IBF**, a Repurchase Charge¹ of up to 1.00% of the Net Asset Value per Unit will be levied if a Unit Holder redeems his investments on or before the first year of investment. Thereafter, no Repurchase Charge will be imposed.

Illustration

The Net Asset Value per Unit as at the next valuation point of the Fund is computed as follows:-

Daily Net Asset Value	RM47,992,019.47
Units in circulation	47,238,000
Net Asset Value per unit	$\frac{RM47,992,019.47}{47,238,000}$

Say, an investor redeems 9,842.52 Units at the repurchase price of RM1.0160 (which is the Net Asset Value per Unit as at the next valuation point), he would receive proceeds of redemption of RM9,900.00 as follows:

Redemption amount (9,842.52 units x RM1.0160*)	= RM 10,000.00
Less: repurchase charge of 1.00%	= RM (100.00)
Net amount payable to the investor	= RM <u>9,900.00</u>

* Unit price is rounded to the nearest 4 decimal places.

- (c) The information on “How to Purchase and Redeem Units” in Section 5.6 (a) on pages 114 to 116 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

(a) How to Purchase and Redeem Units

DF	CF	BF	MDF	MF
IBF	DVEF	ATRF	USEF	

When purchasing Units, investors must forward the following:

- 1) completed account application form and purchase/switch form;
- 2) necessary remittance; and
- 3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant),

to the Manager’s registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day.

The minimum initial investment of each Fund is RM100.00 (or such other lower amount as the Manager may from time to time decide) and the minimum additional investment is RM100.00 (or such other lower amount as the Manager may from time to time decide).

Similarly, Units of a Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager’s registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the respective Funds. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of Units of a Fund after the redemption must be at least one hundred (100) Units or such other lower quantity as the Manager may from time to time decide (the “minimum investment balance”). There is no restriction on the number of Units a Unit Holder can redeem out of the Unit Holder’s investments or the frequency of redemptions in a year. If the balance of Units held after the redemption is less than the minimum investment balance, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.

For **USEF** and **ATRF**, all repurchase of Units may be subject to such limit on the number of Units which can be repurchased by a Unit Holder on a Business Day. In the event that the respective target fund imposes a suspension of or limit on the number of units which can be redeemed from it, this would result in several repurchase prices being computed. Each Unit Holder will therefore be paid on a staggered basis based on the repurchase prices calculated at each valuation point when the staggered payment request is met by the respective target fund until the full redemption amount so requested by such Unit Holder can be completed. As such, the full redemption proceeds will be paid to the Unit Holder within fifteen (15) Business Days after the request for repurchase of Units is received by the Manager or after five (5) Business Days of such other extended period as may be imposed by the respective target fund.

If such a suspension is imposed by the respective target fund, the Manager will inform the affected Unit Holders within two (2) Business Days after the date of the Manager being notified in writing of such suspension and/or such extension in the suspension period imposed by the target fund.

CMF ICMF

When purchasing Units, investors must forward the following:

- 1) completed account application form and purchase/switch form;
- 2) necessary remittance; and
- 3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant),

to the Manager’s registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day.

The minimum initial investment of each Fund is RM100,000.00 for institutional investors and RM50,000.00 for retail investors or multiples thereof and the minimum additional investment is RM50,000.00 for institutional investors and RM25,000.00 for retail investors or multiples thereof (or such other lower amount as the Manager may from time to time decide).

Similarly, units of a Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager’s registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the respective Funds. The redemption monies will be paid by the following Business Day after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

There is no restriction on the number of Units a Unit Holder can redeem out of the Unit Holder's investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of Units if the balance of Units held after the redemption is less than one hundred thousand (100,000) Units for an institutional investor or less than fifty thousand (50,000) Units for a retail investor or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). For the avoidance of doubt, the Manager will deem an automatic request for a full repurchase of Units to have been made by the Unit Holder should a request for partial redemption leave the balance of Units held after the redemption less than the applicable minimum investment balance.

Notes:

- (1) US Person is not eligible to subscribe to the Units of the Funds. If a Unit Holder is a US Person or subsequently becomes a US Person, the Manager will issue a notice to that US Person requiring him/her to either redeem all the Units of the Funds or transfer all the Units of the Funds to a non-US Person, within thirty (30) days from the date of the notice. The Manager shall have the right to compulsorily redeem all the Units held by the said US Person after thirty (30) days from the date of notice if the US Person fails to redeem or transfer his/her Units within the stipulated period.
 - (2) If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, the minimum initial investment shall be RM1,000.00 (or any other amount as may be determined by EPF).

The cooling-off right refers to the right of an individual investor to obtain a refund of his investment if he so requests within the cooling-off period. The cooling-off right is only given to an individual investor, other than those listed below, who is investing in any unit trust funds managed by the Manager for the first time:

- (i) a staff of the Manager; and/or
- (ii) a person registered with a body approved by the Securities Commission to deal in unit trust funds.

The refund to the investor pursuant to the exercise of his cooling-off right must be as follows:

- a) the Net Asset Value per Unit at the point of exercise of the cooling-off right ("market price"), if the Net Asset Value per Unit on the day the Units were purchased ("original price") is higher than the market price; or
- b) the original price, if the market price is higher than the original price.

If the market price is higher than the original price paid by the investor, the Manager may agree to pay the investor the excess amount, provided that such amount is not paid out of the Funds or the assets of the Funds.

The Manager must also refund the sales charge originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) Business Days which shall be effective from the date of receipt of the application by the Manager. Where applicable, if you have invested via the EPF-MIS, the cooling-off period shall be subject to EPF's terms and conditions.

The cooling-off right allows investors the opportunity to reverse an investment decision which could have been unduly influenced by certain external elements or factors.

Withdrawal proceeds will only be paid to the investors once the Manager has received cleared funds for the original investment. For investors who paid by cheque, the refund will be made upon clearance of the cheque. The Manager shall refund the investor in cash within seven (7) Business Days of receiving the cooling-off notice. Where applicable, if you have invested via the EPF-MIS, the refund will be credited back into your EPF accounts.

Dear Sirs

Re: Taxation of the Funds and Unit Holders

This letter has been prepared for inclusion in this Supplementary Master Prospectus in respect of RHB Dynamic Fund, RHB Capital Fund, RHB Bond Fund, RHB Malaysia DIVA Fund, RHB Cash Management Fund 1, RHB Mudharabah Fund, RHB Islamic Bond Fund, RHB Islamic Cash Management Fund, RHB Dividend Valued Equity Fund, RHB Asian Total Return Fund, RHB-GS US Equity Fund (“the Funds”).

Taxation of the Funds

Income Tax

The Funds are unit trusts for Malaysian tax purposes. The taxation of the Funds are therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 (“the Act”).

Any reference to interest in the Act shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment (“YA”) 2016.

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Funds.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement (“DTA”) or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income or profits earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

Discounts earned by the Funds from the following are also exempt from tax: -

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Funds’ expenses such as manager’s remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage (“permitted expenses”) are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax (“RPGT”)

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax (“GST”) has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall also not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds are not liable to be registered for service tax.

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which was claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Act 2023, the tax rate of 17% will be reduced to 15% for chargeable income of up to RM150,000, while the tax rate for chargeable income from RM150,001 up to RM600,000, will remain unchanged at 17%. For chargeable income in excess of RM600,000, the tax rate of 24% will apply. These changes will come into effect from YA 2023.

In addition to the current conditions as mentioned above, the preferential tax rate would not apply if more than 20% of the paid-up capital in respect of ordinary shares of the company at the beginning of the basis period for a YA is directly or indirectly owned by a company or companies incorporated outside Malaysia or an individual or individuals who are not Malaysian citizens. The condition is effective from YA 2024.

Based on the Finance Act 2021, a corporate tax rate of 33% ("Cukai Makmur") will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Funds will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income exempt from tax of RHB Cash Management Fund 1 and RHB Islamic Cash Management Fund which are retail money market funds which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002, will be subjected to tax. This is effective from 1 January 2022. Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is also effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 30 SEPTEMBER 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 15 JULY 2017.

Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, certain expenses such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Ong Guan Heng
Executive Director

The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.
- RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.
- RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.

- "Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760>]. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).
- For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.
- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. Further details of acceptable TINs can be found at the following link [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers>]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.

11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
- d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
- e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
 - You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
 - If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
 - Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
 - This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

1. FUND INFORMATION

1.1 RHB Dynamic Fund

1.1.1 Fund Category

Equity fund.

1.1.2 Financial Year End

31 December.

1.1.3 Name of Trustee

Maybank Trustees Berhad.

1.1.4 Investment Objective

To provide investors with regular income and capital gain at an acceptable level of risk by investing primarily in Malaysian public listed companies with steady and good growth potential.

Any material change to the investment objective of the Fund requires the Unit Holders' approval.

1.1.5 Investment Strategy

The Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Minimum of 50% and up to 95% of NAV will be invested in equities.
- Minimum of 5% of NAV will be invested in fixed income securities and/or liquid assets.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund seeks regular income and capital gain. To pursue this goal, the Fund invests primarily in Malaysian public listed companies with steady income and good growth potential. In analyzing companies, the Manager looks for businesses that demonstrate leadership in their respective sector with strong growth potential coupled with consistent dividend policy.

The Manager uses fundamental valuation parameters, focusing on several key numbers with respect to the company's historical price levels and relative value to its peer universe. These numbers include price and earnings multiple of the company, earnings growth rates, relative price earnings to growth, dividend yield, cashflow, balance sheet strength, quality of management, return on assets and return on investments, among others. Quarterly earnings expectations and results are carefully followed. Subject to the range stipulated above, the Fund's asset allocation and stock selection could differ if key macro and micro factors materially changes.

In addition to those described above, the Fund may invest in fixed income securities to preserve the value[#] of the Fund.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where

applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions.

The performance of this Fund is benchmarked against FBM KLCI. To obtain the latest information on the FBM KLCI, investors can refer to Bursa Malaysia's website, www.bursamalaysia.com. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

Note: [#]Although the Fund aims to preserve its value, the Fund is not a capital guaranteed fund or a capital protected fund.

1.1.6 Distribution Policy

Income, if any, will be distributed during the financial year.

1.1.7 Permitted Investments and Restrictions

The Fund may invest in securities of companies listed on Bursa Malaysia; unlisted securities including securities not listed or quoted on a stock exchange but have been approved by the relevant regulatory authority for such listing or quotation and are offered directly to the Fund by the issuer; financial derivatives; collective investment schemes; structured products and warrants that carry the right in respect of a security traded in or under the rules of an eligible market; Malaysian government securities, cagamas bonds, Bank Negara Malaysia certificates, Malaysian treasury bills, bankers' acceptance and Government Investment Issue (GII); Malaysian currency balances in hand, Malaysian currency deposits with commercial banks, finance companies and Bank Islam Malaysia Berhad including negotiable certificates of deposit, banker's acceptances and placements of money at call with discount houses; foreign investments traded in or under the rules of a foreign market approved by Securities Commission; unlisted fixed income or debt securities; liquid assets (including money market instruments and deposits with any financial institution); and any other investments permitted by the Securities Commission from time to time.

The acquisition of such permitted investments is subject to the following restrictions:

- (a) The value of the Fund's investments in unlisted securities must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- (b) The value of the Fund's investments in ordinary shares issued by any single issuer must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.

Equity fund.

1.2.2 Financial Year End

30 April.

1.2.3 Name of Trustee

Maybank Trustees Berhad.

1.2.4 Investment Objective

To achieve long term growth through capital appreciation with all income including profits on realisation of investments being automatically reinvested for its compounding effect.

Any material change to the investment objective of the Fund requires the Unit Holders' approval.

1.2.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Minimum of 60% and up to 95% of NAV will be invested in equities.
- Minimum of 5% of NAV will be invested in fixed income securities and/or liquid assets.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund seeks long term capital appreciation. To pursue this goal, the Fund invests primarily in Malaysian public listed companies with strong growth potential. The Manager utilises a strategy that seeks attractively priced companies in undervalued sectors, or in sectors that have strong upward stock price momentum which demonstrate strong increases in earnings per share and continue to strengthen their fundamental capabilities and competitive positions, amongst others.

The Manager uses fundamental valuation parameters to determine the relative value of the company compared to its peer universe. These numbers include price/earnings multiple of the company, earnings growth rates, relative price earnings to growth, cashflow, balance sheet strength, quality of management, relative positioning of the company in the industry in which it operates, return on equity, return on assets and return on investments, among others. Quarterly earnings expectations and results are carefully followed. Subject to the range stipulated above, the Fund's asset allocation and stock selection could differ if any of the key macro and micro factors materially changes.

In addition to those described above, the Fund may invest in fixed income securities to preserve the value[#] of the Fund.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where

applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions.

Bond fund.

1.3.2 Financial Year End

30 September.

1.3.3 Name of Trustee

HSBC (Malaysia) Trustee Berhad.

1.3.4 Investment Objective

To provide investors with higher than average income returns compared to fixed deposits over the medium to long term through investments in bonds and other fixed income securities with minimum risk to capital invested.

Any material change to the investment objective of the Fund requires the Unit Holders' approval.

1.3.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Up to 95% of NAV will be invested in bonds and other fixed income securities, of which at least 60% of NAV will be invested in bonds.
- Minimum of 5% of NAV will be invested in liquid assets.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund will invest in quality fixed income securities which carry a minimum long term credit rating of BBB and above assigned by RAM or its equivalent. To contain credit risk, the Manager will ensure that the diversification of credit rating (and duration standing) in the bond portfolio mitigate the overall risk position of the portfolio.

The Manager may also take temporary defensive measures that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse market conditions, economics, political or any other conditions which the Manager deem detrimental to the Fund. The defensive measures that the Manager may undertake are in no way to be deviated from the mandates or breaching any laws and regulations. The Fund's strategies in yield enhancement for the portfolio will also be balanced with other investment needs of the Fund, such as liquidity and risk management. On liquidity management, the Fund will maintain sufficient amount of portfolio in liquid bond to accommodate redemption. As for risk management, the portfolio duration is kept at optimal level where yield enhancement can be optimised on risk adjusted basis, and at the same time, balanced with the need for containing portfolio's volatility.

Hence, during the temporary defensive period, the Manager may choose to increase the asset allocation by allocating more investment into risk free investments which are money market instruments and deposit in adverse market condition.

The performance of this Fund is benchmarked against Maybank's 12 months fixed deposit rate. Unit Holders may log on to the Maybank's website, www.maybank2u.com.my, to obtain the latest

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Up to 60% of NAV will be invested in Shariah-compliant equities.
- Minimum of 40% of NAV will be invested in Islamic debt securities ("sukuk"), Islamic money market instruments and/or liquid assets acceptable under Shariah principles.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund is geared towards investors who look for Shariah based investments that provide a mixture of income and capital appreciation. The Fund's objective is to achieve returns from sukuk's income stream, the dividend income stream, as well as capital appreciation. The adjustments of asset allocation between equity and sukuk are formulated based on the economic analysis and valuations of securities.

Equity investments of the Fund are limited to those in the list of Shariah-compliant securities as determined by the SACSC which is updated and published twice a year. These investments generally focus on companies that have healthy prospective earnings growth, reasonable valuations and preferably yielding dividend that are superior to the fixed deposit rates.

For sukuk, the Fund seeks investments amongst the Shariah principled sukuk that are of investment grade. The investments will be a duration led strategy depending on the yield curve movement.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's Shariah-compliant equity investments into other asset classes such as sukuk, Islamic money market instruments, cash and Islamic deposits with financial institutions, which are defensive in nature and comply with Shariah requirements.

The performance of this Fund is benchmarked against a weighted average of FTSE Bursa Malaysia Emas Shariah Index (50%) and Maybank Islamic Berhad's 12 months IFD-i rate (50%). This benchmark is selected to reflect the neutral strategy of the Fund which aims to provide investors with a balanced mix of income and potential capital growth by investing in listed and non-listed Shariah compliance stocks on Bursa Malaysia, sukuk and other non-interest bearing assets. The FTSE Bursa Malaysia Emas Shariah Index (50%) represents the equities portion and Maybank Islamic Berhad's 12 months IFD-i rate (50%) represents the fixed income portion. The equally weighted benchmark is a reflection of the investment strategy to provide income, capital appreciation and a moderate risk profile. The FTSE Bursa Malaysia Emas Shariah Index is publicly available from major newspaper publications. To obtain the latest information on the FTSE Bursa Malaysia Emas Shariah Index, investors can refer to Bursa Malaysia website (www.bursamalaysia.com). Bond (Shariah-compliant) fund.

1.7.2 Financial Year End

30 September.

1.7.3 Name of Trustee

CIMB Islamic Trustee Berhad.

1.7.4 Investment Objective

To provide regular income to investors through investments in Islamic debt securities and bonds which are acceptable investment under the principles of Shariah.

Any material change to the investment objective of the Fund requires the Unit Holders' approval.

1.7.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Minimum of 5% of NAV will be invested in liquid assets acceptable under Shariah principle.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund will invest in sukuk. Investments must carry a minimum long term credit rating of BBB and above or a minimum short term rating of P3 as assigned by RAM or its equivalent. To contain credit risk, the Manager will ensure that the diversification of credit rating (and duration standing) in the sukuk portfolio mitigate the overall risk position of the portfolio.

The Manager may also take temporary defensive measures that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse market conditions, economics, political or any other conditions which the Manager deem detrimental to the Fund. The defensive measures that the Manager may undertake are in no way to be deviated from the mandates or breaching any laws and regulations. The Fund's strategies in yield enhancement for the portfolio will also be balanced with other investment needs of the Fund, such as liquidity and risk management. On liquidity management, the Fund will maintain sufficient amount of portfolio in liquid sukuk to accommodate redemption. As for risk management, the portfolio duration is kept at optimal level where yield enhancement can be optimised on risk adjusted basis, and at the same time, balanced with the need for containing portfolio's volatility.

Hence, during the temporary defensive period, the Manager may choose to increase the asset allocation by allocating more investment into risk free investments which are Islamic money market instruments and Islamic deposit in adverse market condition.

Although the Fund is actively managed, any such trading strategy will depend on the market opportunities and the anticipated redemption requests by the Unit Holders.

The minimum credit rating for the rated instruments to be invested by the Fund will be "A" by Malaysian Rating Corporation Berhad or equivalent rating by any other similar rating agencies. In the event of a credit downgrade of a particular instrument below the minimum stipulated, the External Investment Manager will endeavour to take the necessary steps to divest that instrument within a time frame deemed reasonable by the External Investment Manager. Results will be evaluated on a total rate of return basis. The investment committee also evaluates the Fund for compliance with its investment objective.

The above investment strategy of the Fund may be varied by the fund manager with the approval of the investment committee of the Fund from time to time with the knowledge of the Trustee. Such variation in investment strategy may be short term in nature and shall be regularized within three (3) months. The reason for such variation may be due to large redemptions or adverse mark-to-market valuation on the money market instruments. Depending on the prevailing circumstances, the Fund will adopt a suitable level of activeness and frequency in trading for the purpose of meeting the Fund's objective.

To mitigate the risks confronting the Fund, the External Investment Manager will, amongst other things:

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- At least 95% of NAV will be invested in a target fund i.e. the United Asian Bond Fund.
- Up to 5% of NAV will be invested in liquid assets to provide for liquidity purpose.

The Fund is a feeder fund that will invest principally in a target fund i.e. the United Asian Bond Fund launched on 8 March 2000 (SGD class). The United Asian Bond Fund is a collective investment scheme domiciled in Singapore investing in debt securities issued by Asian corporations, Asian financial institutions, Asian government and their agencies (including money market instruments) by generally maintaining an exposure of at least 70% and above in such debt securities.

The Manager may take temporary defensive positions that may be inconsistent with Fund's principal strategy in attempt to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's investments into other asset classes such as money market instruments, cash and deposits with licensed financial institutions, which are defensive in nature. In the event that the Manager reallocate up to 100% of the Fund's investments into other asset classes such as money market instruments, cash and deposits with licensed financial institutions, the Fund will no longer be able to track the performance of the United Asian Bond Fund, as the Fund is not invested into the United Asian Bond Fund.

As such, there would be a risk of underperformance of the Fund, should the United Asian Bond Fund outperform the market during the period where the Fund is not invested into the United Asian Bond Fund.

In addition, the Manager may take foreign exchange hedge positions in order to mitigate currency exposure that may erode the Fund's returns.

Notwithstanding the above, the Manager may, in consultation with the Trustee, replace the United Asian Bond Fund with another collective investment scheme with a similar objective if, in the Manager's opinion, the United Asian Bond Fund no longer meets the Fund's investment objective, or when acting in the interest of the Unit Holders. However, Unit Holders' approval must be obtained.

The Manager adopts the following forms of risk management strategies to mitigate the risk inherent to the Fund:

- Temporary defensive measures
These can be undertaken upon consultation with the investment committee of the Fund and may include holding a high level of cash over investments in the United Asian Bond Fund.

The Manager also reserves the right to seek other collective investment scheme if the United Asian Bond Fund is inconsistent with the objective of the Fund, with approval of the Unit Holders.

The performance of this Fund is benchmarked against JP Morgan Asia Credit Index Total Return Composite. Unit Holders can obtain information on the JP Morgan Asia Credit Index Total Return Composite from the Manager upon request. The Asian countries which the United Asian Bond Fund will invest in include but are not limited to Singapore, Malaysia, Thailand, Indonesia, Philippines, Hong Kong SAR, South Korea, Taiwan, China, Australia, New Zealand and Japan.

(d) Investment Focus and Approach

The United Asian Bond Fund is actively managed with a focus on yield at an acceptable risk premium. There is no bias towards sovereign or corporate bonds. The emphasis is on the credit spread as the main source of incremental returns. Credit analysis and credit diversification by the manager of the United Asian Bond Fund are important as a source of added value and to reduce unsystematic risks inherent in such investment respectively.

The investment style of the manager of the United Asian Bond Fund is based on the probability of credit upgrades and the extent to which the pricing has been reflected in the credit in question. The United Asian Bond Fund's portfolio of investments will be reviewed regularly so as to enable the United Asian Bond Fund to switch out of overvalued securities to undervalued securities. A long term view is taken when assessing an investment opportunity. At the same time, the manager of the United Asian Bond Fund recognises that Asian markets are subject to greater volatility than developed markets and may therefore require a greater level of trading than originally envisaged. The policy of the manager of the United Asian Bond Fund generally is to have the United Asian Bond Fund fully invested save where there is overwhelming evidence to suggest that markets are excessively overvalued.

(e) Limit of Repurchase and Suspension of Dealings of the United Asian Bond Fund

The manager of the United Asian Bond Fund may, with the approval of the United Asian Bond Fund's trustee and subject to the provisions of the United Asian Bond Fund's deed, limit the total number of units of the United Asian Bond Fund to be realized by the Fund or cancelled by the manager of the United Asian Bond Fund on any dealing day of the United Asian Bond Fund up to 10% of the total number of units of the United Asian Bond Fund then in issue. - (iv) during any period when in the opinion of the United Asian Bond Fund's manager, there is a breakdown in the means of communication normally employed in determining the value of any of the investments or the amount of any cash for the time being comprised in the deposited property of the United Asian Bond Fund or the amount of any liability of the United Asian Bond Fund's trustee for account of the United Asian Bond Fund or when for any other reason the value of any such investments or the amount of any such cash or liability cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the authorised investments of the United Asian Bond Fund cannot be determined); or
- (v) during any period when, in the opinion of the United Asian Bond Fund's manager, the transfer of funds which will or may be involved in the realisation of any material proportion of the investments for the time being constituting the deposited property of the United Asian Bond Fund cannot be effected promptly at normal rates of exchange; or
- (vi) if during any particular day the requests for realisation of units exceed 10% of the units of the United Asian Bond Fund in issue and deemed to be in issue; or
- (vii) during any 48 hour period (or such longer period as may be agreed between the United Asian Bond Fund's manager and the United Asian Bond Fund's trustee) prior to the date of any meeting of unit holders of the United Asian Bond Fund (or any adjourned meeting thereof); or

Over-the-Counter (OTC) financial derivatives

In the case of OTC financial derivatives, reliable and verifiable valuation stated in the above paragraph (c) refers to:

- a) a valuation made by United Asian Bond Fund's manager based on a current market value; or
- b) where such value is not available, a fair value based on an appropriate valuation model which is checked at an appropriate frequency by an independent party.

The valuation by United Asian Bond Fund's manager should not be based solely on a valuation provided by the counterparty to the transaction.

Spread of underlying assets

- 3.1 The exposure of United Asian Bond Fund to the underlying assets of financial derivatives should be sufficiently diversified on a portfolio basis.
- 3.2 In the case where the underlying assets are transferable securities, money market instruments, eligible deposits or units in other schemes, the limits in the paragraphs under item 1 stated herein, except for the concentration limits, apply on a portfolio basis.

Embedded financial derivatives

- 3.3 Where a transferable security or money market instrument embeds a financial derivative, the requirements in the paragraphs under item 2 and 3 stated herein apply to the embedded financial derivative.
- 3.4 Where the counterparty risk of the embedded derivative is or may be transferred to United Asian Bond Fund, the requirements in the paragraphs under item 4 stated herein also apply to the embedded financial derivative.
- 3.5 A transferable security or money market instrument is considered to be embedding a financial derivative if it contains a component which fulfils the following criteria:
 - a) the component results in some or all of the cash flows that otherwise would be required by the transferable security or money market instrument which functions as host contract to be modified according to a variable including but not limited to a specified interest rate, price of a financial instrument, foreign exchange rate,

index of prices or rates, credit rating or credit index, and therefore vary in a way similar to a stand-alone financial derivative;

- b) the component's economic characteristics and risks are not closely related to the economic characteristics and risks of the host contract; and
 - c) the component has a significant impact on the risk profile and pricing of the transferable security or money market instrument.
- 3.6 A transferable security or a money market instrument should not be regarded as embedding a financial derivative where it contains a component which is contractually transferable independently of the transferable security or the money market instrument. Such a component should be deemed to be a separate financial instrument.
- 3.7 Where an instrument is structured as an alternative to an OTC financial derivative or tailor-made to meet the specific needs of United Asian Bond Fund, the instrument should be deemed as embedding a financial derivative.

Cover

- 3.8 A transaction in financial derivatives which gives rise, or may give rise, to a future commitment on behalf of United Asian Bond Fund should be covered as follows:
- a) in the case of financial derivatives which will, or may at the option of United Asian Bond Fund, be cash settled, United Asian Bond Fund should hold, at all times, liquid assets sufficient to cover the exposure;
 - b) in the case of financial derivatives which will, or may at the option of the counterparty, require physical delivery of the underlying assets, United Asian Bond Fund should hold the underlying assets in sufficient quantities to meet the delivery obligation at all times. If United Asian Bond Fund's manager deems the underlying assets to be sufficiently liquid, United Asian Bond Fund may hold as coverage other liquid assets in sufficient quantities, provided that such alternative assets may be readily converted into the underlying asset at any time to meet the delivery obligation.

4 Counterparty of Financial Derivatives

OTC financial derivatives

- 4.1 The counterparty of an OTC financial derivative should be subject to prudential supervision by a financial supervisory authority in its home jurisdiction.
- 4.2 Subject to the group limit in paragraph 1.1, the maximum exposure of United Asian Bond Fund to the counterparty of an OTC financial derivative may not exceed:
- a) in the case of an eligible financial institution described in paragraph 4.3, 10% of United Asian Bond Fund's net asset value; or
 - b) in any other case, 5% of United Asian Bond Fund's net asset value
- ("counterparty limits").
- 4.3 For the purpose of paragraph 4.2, an eligible financial institution should have a minimum long-term rating of A by Fitch Ratings, A by Moody's Investors Service or A by Standard and Poor's Ratings Services (including sub-categories or gradations therein). Alternatively, where the financial institution is not rated, United Asian Bond

Fund should have the benefit of a guarantee by an entity which has a long-term rating of A (including sub-categories or gradations therein).

- 4.4 The exposure to a counterparty of an OTC financial derivative should be measured based on the maximum potential loss that may be incurred by United Asian Bond Fund if the counterparty defaults and not on the basis of the notional value of the OTC financial derivative.

Recognition of collateral

- 4.5 The exposure to a counterparty may be construed as being lower if collateral is tendered to United Asian Bond Fund. The collateral should meet the following requirements:

- a) it is marked-to-market daily;
- b) it is liquid;
- c) it is taken into account, on a portfolio basis, for the purposes of the requirements on spread of investments in the paragraphs under item 1 stated herein;
- d) it is not issued by the counterparty or its related corporations;
- e) it is held by a custodian which is:
 - i) a financial institution subject to prudential supervision by a financial supervisory authority in its home jurisdiction; and
 - ii) independent of the counterparty;
- f) it is legally secured from the consequences of the failure of the custodian, counterparty and their related corporations;
- g) it can be fully enforced by United Asian Bond Fund's trustee at any time;
- h) it is free from all prior encumbrances; and
- i) it cannot be sold or given as security interests.

- 4.6 Collateral may only consist of:

- a) cash;
- b) money market instruments; or
- c) bonds.

- 4.7 For the purpose of paragraph 4.6, money market instruments and bonds should be issued by, or have the benefit of a guarantee from, a government, government agency or supranational, that has a long-term rating of AAA by Fitch Ratings, Aaa by Moody's Investors Service or AAA by Standard and Poor's Ratings Services (including sub-categories or gradations therein).

- 4.8 Notwithstanding paragraph 4.6, securitised debt instruments as well as money market instruments or bonds with embedded financial derivatives are not eligible as collateral.

- 4.9 United Asian Bond Fund's manager should ensure that it has the appropriate legal expertise to put in place proper collateral arrangements, as well as appropriate systems and operational capabilities for proper collateral management.
- 4.10 Additional collateral should be provided to United Asian Bond Fund no later than the close of the next business day if the current value of the collateral tendered is insufficient to satisfy the counterparty limits in paragraph 4.2.

Reinvestment of collateral

- 4.11 Collateral obtained in the form of cash by United Asian Bond Fund may be reinvested subject to the following requirements:
- a) it is invested in financial instruments consistent with paragraphs 4.6 and 4.7;
 - b) the investments are taken into account, on a portfolio basis, for the purposes of the requirements on spread of investments in the paragraphs under item 1 stated herein;
 - c) the investments are held by a custodian which is:
 - i) a financial institution subject to prudential supervision by a financial supervisory authority in its home jurisdiction; and
 - ii) independent of the counterparty;
 - d) the investments are legally secured from the consequences of the failure of the custodian, counterparty and their related corporations;
 - e) the investments cannot be sold or given as security interests; and
 - f) United Asian Bond Fund's manager is reasonably satisfied that any investment of cash collateral by the United Asian Bond Fund will enable United Asian Bond Fund to meet its redemption obligations and other payment commitments.
- 4.12 Notwithstanding paragraph 4.11, the cash collateral obtained should not be invested in transferable securities issued by, or placed on deposit with, the counterparty or its related corporations.
- 4.13 Non-cash collateral obtained by United Asian Bond Fund may not be reinvested.

Recognition of netting

- 4.14 United Asian Bond Fund may net its OTC financial derivative positions with the same counterparty through bilateral contracts for novation or other bilateral agreements between United Asian Bond Fund and its counterparty provided that such netting arrangements satisfy the following conditions:
- a) in the case of a bilateral contract for novation, mutual claims and obligations are automatically amalgamated in such a way that this novation fixes one single net amount each time novation applies and thus creates a legally binding, single new contract extinguishing former contracts;
 - b) United Asian Bond Fund has a netting arrangement with its counterparty which creates a single legal obligation, covering all included transactions, such that, in the event of the counterparty's failure to perform owing to default, bankruptcy, liquidation or any other similar circumstance, United Asian Bond Fund would

have a claim to receive or an obligation to pay only the net sum of the positive and negative mark-to-market values of the individual included transactions;

- c) United Asian Bond Fund's manager obtains written and reasoned legal opinions to the effect that, the netting arrangement is legally enforceable by United Asian Bond Fund against its counterparty, and in particular, in the event of a legal challenge, the relevant courts and administrative authorities would find that United Asian Bond Fund's claims and obligations would be limited to the net sum, as described in the above paragraph 4.14 (b), under:
 - i) the law of the jurisdiction in which the counterparty is incorporated and, if a foreign branch of an entity is involved, also under the law of the jurisdiction in which the branch is located;
 - ii) the law that governs the individual included transactions; and
 - iii) the law that governs the netting agreement;
- d) United Asian Bond Fund's manager has procedures in place to ensure that the legal validity of the netting arrangement is kept under review in the light of possible changes in the relevant laws; and

- 5.5 Where United Asian Bond Fund's manager engages in securities lending and repurchase transactions with any of its related corporations, United Asian Bond Fund's manager should have effective arrangements in place to manage potential conflicts of interest.

 - j) it cannot be sold or given as security interests.
- 5.8 For the purposes of securities lending and repurchase transactions, collateral may only consist of:
 - a) cash;
 - b) money market instruments; or
 - c) bonds.

- 5.9 For the purpose of paragraph 5.8, money market instruments and bonds should be issued by, or have the benefit of a guarantee from, an entity or trust that has a minimum long-term rating of A by Fitch Ratings, A by Moody's Investors Service or A by Standard and Poor's Ratings Service (including sub-categories or gradations therein) (collectively, "eligible collateral").
- 5.10 Notwithstanding paragraph 5.8, securitised debt instruments as well as money market instruments or bonds with embedded financial derivatives are not eligible as collateral.

 - f) United Asian Bond Fund's manager is reasonably satisfied that any investment of cash collateral by United Asian Bond Fund or its agent, will enable United Asian Bond Fund to meet its redemption obligations and other payment commitments.

- 5.14 Notwithstanding paragraph 5.13, the cash collateral obtained should not be invested in transferable securities issued by, or placed on deposit with, the counterparty or its related corporations.
- 5.15 Non-cash collateral obtained by United Asian Bond Fund or its agent may not be reinvested.

Liquidity

- 6.2 United Asian Bond Fund may only borrow from banks licensed under Singapore's Banking Act (Cap. 19), finance companies licensed under Singapore's Finance Companies Act (Cap. 108), merchant banks approved as financial institutions under section 28 of the Monetary Authority of Singapore Act (Cap. 186) or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.
- 6.3 The borrowing period should not exceed one month.
- 6.4 Aggregate borrowings for the purposes of paragraph 6.1 should not exceed 10% of United Asian Bond Fund's net asset value at the time the borrowing is incurred.

(h) Risk management procedures of the manager of United Asian Bond Fund relating to the use of financial derivative instruments

- (a) United Asian Bond Fund may use or invest in financial derivative instruments for the purposes of hedging existing positions in a portfolio, for efficient portfolio management or a combination of both purposes. Where such instruments are financial derivative instruments on commodities, such transactions shall be settled in cash at all times.
- (b) The manager of United Asian Bond Fund will ensure that the global exposure of United Asian Bond Fund to financial derivative instruments or embedded financial derivatives instruments will not exceed 100% of the net asset value of the United Asian Bond Fund at all times. Such exposure will be calculated using the commitment approach as described in, and in accordance with the provisions of, the Code on Collective Investment Schemes issued by the Monetary Authority of Singapore ("Code"), as amended from time to time. United Asian Bond Fund may net its over-the-counter financial derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code, and the manager of United Asian Bond Fund will obtain, or have obtained (as applicable) the legal opinions as stipulated in the Code.
- (c) Description of risk management and compliance procedures and controls adopted by the manager of United Asian Bond Fund:
 - (i) The manager of United Asian Bond Fund will implement various procedures and controls to manage the risk of the assets of United Asian Bond Fund. The decision to invest in any particular security or instrument on behalf of United Asian Bond Fund will be based on the judgment of the manager of United Asian Bond Fund of the benefit of such transactions to the United Asian Bond Fund and will be consistent with the United Asian Bond Fund's investment objective in terms of risk and return.
 - (ii) *Execution of trades.* Prior to each trade, the manager of United Asian Bond Fund will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions (if any) of United Asian Bond Fund,

and that best execution and fair allocation of trades are done. The middle office department of the manager of United Asian Bond Fund will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of United Asian Bond Fund. If there is any non-compliance, the middle office of the manager of United Asian Bond Fund is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.

- (iii) *Liquidity.* If there are any unexpectedly large redemption of units of the United Asian Bond Fund, it is possible that the assets of the United Asian Bond Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid public exchanges or over-the-counter markets. The manager of United Asian Bond Fund will ensure that a sufficient portion of United Asian Bond Fund will be in liquid assets such as cash and cash equivalents to meet expected redemptions, net of new subscriptions.
- (iv) *Counterparty exposure.* United Asian Bond Fund may have credit exposure to counterparties by virtue of positions in financial instruments (including financial derivative instruments) held by the United Asian Bond Fund. To the extent that a counterparty defaults on its obligations and United Asian Bond Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets, its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, the manager of United Asian Bond Fund will restrict their dealings with counterparties that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's Ratings Services, an individual rating of above C or viability ratings of above bbb by Fitch Ratings, a baseline credit assessment of the above a3 by Moody's Investors Service, or equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, the manager of United Asian Bond Fund will take steps to unwind the United Asian Bond Fund's position with that counterparty as soon as practicable.
- (v) *Volatility.* To the extent that United Asian Bond Fund has exposure to financial derivative instruments that allow a larger amount of exposure to a security for no or a smaller initial payment than the case when the investment is made directly into the underlying security, the value of the United Asian Bond Fund's assets will have a higher degree of volatility. United Asian Bond Fund may use financial derivative instruments for hedging purposes for reducing the overall volatility of the value of its assets. At the same time, the manager of United Asian Bond Fund will ensure that the total exposure of United Asian Bond Fund to derivative positions will not exceed the net asset value of the United Asian Bond Fund, as stated in paragraph (b) above.
- (vi) *Valuation.* United Asian Bond Fund may have exposure to over-the-counter financial derivative instruments that are difficult to value accurately, particularly if there are complex positions involved. The manager of United Asian Bond Fund will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (vii) *Foreign exchange/currency risk.* United Asian Bond Fund may have exposure, either directly or indirectly to a wide range of currencies, some of which may be restricted in terms of convertibility. The manager of United Asian Bond Fund may hedge the exposure to these currencies to the SGD (or the base currency of United Asian Bond Fund), possibly leading to a reduced overall gain or greater loss on currency swap transactions entered into by the United Asian Bond Fund. United Asian Bond Fund may also employ strategies to invest in certain

currencies while borrowing in other currencies, and may result in losses if the net movements of the various currencies pairs move in unfavourable directions. The manager of United Asian Bond Fund will select transactions in currencies that are likely to yield favourable returns to United Asian Bond Fund based on their historical trends.

- (d) The manager of United Asian Bond Fund will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that they have the necessary expertise to control and manage the risks relating to the use of financial derivative instruments. The manager of United Asian Bond Fund may modify the risk management and compliance procedures and controls as they deem fit and in the interests of United Asian Bond Fund, but subject always to the requirements under the Code.

Feeder fund.

1.11.3 Name of Trustee

TMF Trustees Malaysia Berhad.

1.11.4 Investment Objective

The Fund's objective is to seek to achieve long term capital appreciation through investment in a collective investment scheme, which invests primarily in securities of United States of America companies.

Any material change to the investment objective of the Fund requires the Unit Holders' approval.

1.11.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- At least 95% of NAV will be invested in a target fund i.e. the Goldman Sachs US Equity Portfolio.
- Up to 5% of NAV will be in cash and cash equivalents.

The Fund will invest at least 95% of NAV in a target fund i.e. the Goldman Sachs US Equity Portfolio, which invests primarily in a diversified portfolio of equities and equity-related securities of companies domiciled in the United States of America, including companies that derive the majority (i.e. more than 50%) proportion of their revenues or profits from the United States of America.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may attempt to cushion the portfolio's downside by reducing its exposure to the Goldman Sachs US Equity Portfolio and increasing its exposure into risk free assets i.e. mainly cash. It follows therefore that there is a risk that the Fund may not track the performance of the Goldman Sachs US Equity Portfolio.

If, in the opinion of the Manager, the Goldman Sachs US Equity Portfolio no longer meets the Fund's investment objective, and/or in acting in the best interests of Unit Holders, the Manager may replace the Goldman Sachs US Equity Portfolio with that of another collective investment scheme that is consistent with the objective of this Fund, subject always to the approval of the Unit Holders.

The replacement of the Goldman Sachs US Equity Portfolio with another collective investment scheme may be performed on a staggered basis to facilitate a smooth transition or where the Goldman Sachs US Equity Portfolio imposes any conditions to the redemption of units or if the manager of the newly identified target fund imposes any Anti Dilution Levy* in relation to applications for units. In such an event, the time required to perform the replacement will depend on such conditions, if any, imposed by the Goldman Sachs US Equity Portfolio in addition to any conditions associated with the Anti Dilution Levy that may be charged by the newly identified target

fund. Hence during such transition period, the Fund's investment may differ from the stipulated investment strategies.

* Anti Dilution Levy is an allowance for fiscal and other charges that is added to the net asset value per unit/share to reflect the costs of investing application monies in underlying assets of the target fund. The levy is intended to be used to ensure that all investors in the target fund are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs.

As the Fund is a feeder fund, the risk management strategies and techniques employed will be at the Goldman Sachs US Equity Portfolio level whereby the Goldman Sachs US Equity Portfolio has access to employ a risk management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Goldman Sachs US Equity Portfolio.

The performance of this Fund is benchmarked against S&P 500 Index. Unit Holders can obtain information on the S&P 500 Index from the Manager upon request. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

1.11.6 Distribution Policy

The Fund is not expected to make any distribution.

1.11.7 Permitted Investments and Restrictions

The Fund may invest in one collective investment scheme, liquid assets and any other investment permitted by the Securities Commission from time to time.

In undertaking the Fund's investments, the Fund must not invest in a fund-of-funds, a feeder fund, or any sub-fund of an umbrella scheme which is a fund-of-funds or a feeder fund.

 - ii) a residual maturity of up to and including 397 days; or
 - iii) are structured in a way that allows for regular, at least 397 days, yield adjustments in line with a reference interest rate.
- 3) Moreover, the following investment restrictions shall be observed by the Goldman Sachs US Equity Portfolio in respect of each issuer:

(a) Rules for risk spreading

For the calculation of the limits defined in paragraph (1) to (5) and (8) below, companies belonging to the same group of companies shall be treated as a single issuer.

- Transferable securities and money market instruments

- (1) The Goldman Sachs US Equity Portfolio may not invest more than 10% of its assets in transferable securities or money market instruments issued by the same body.

The total value of the transferable securities and money market instruments held by Goldman Sachs US Equity Portfolio in the issuing bodies in each of which it invests more than 5% of its assets must not exceed 40% of the value of its assets. This restriction does not apply to deposits with financial institutions that are

governed by prudential regulations or to transactions in OTC derivative instruments with these institutions.

For the purposes of this section 3)(a)(1), the Goldman Sachs US Equity Portfolio will treat each mortgage-backed or asset-backed portfolio as a separate issue of a separate issuer, although such portfolios may be part of the same master trust, sponsored by the same sponsor, or serviced by the same service provider.

- (2) The 10% limit laid down in paragraph (1) is raised to 20% in the case of transferable securities and money market instruments issued by the same group of companies.
- (3) The 10% limit laid down in paragraph (1) is raised to a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by a member state of the European Union, by its local authorities, by a non-member state of the European Union or by public international bodies to which one or more member states of the European Union are members.
- (4) The 10% limit laid down in paragraph (1) is raised to 25% for certain debt securities issued by a credit institution whose registered office is in a member state of the European Union and which is subject by law to special public supervision designed to protect the holders of debt securities. In particular, sums deriving from the issue of such debt securities must be invested pursuant to the law in assets which, during the whole period of validity of the debt securities, are capable of covering claims attaching to the debt securities and which, in event of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of accrued interest. To the extent that the Goldman Sachs US Equity Portfolio invests more than 5% of its assets in such debt securities, issued by the same issuer, the total value of such investments may not exceed 80% of the value of the Goldman Sachs US Equity Portfolio's assets.
- (5) The transferable securities and money market instruments referred to in paragraphs (3) and (4) above are not taken into account for the purpose of applying the 40% limit referred to under paragraph (1) above.
- (6) Notwithstanding the limits indicated above, and in accordance with the principle of risk-spreading, the Goldman Sachs US Equity Portfolio is authorised to invest up to 100% of its assets in transferable securities and money market instruments issued or guaranteed by a member state of the European Union, its local authorities, a member state of the organisation for economic co-operation and development ("OECD") or public international bodies of which one or more member states of the European Union are members, provided that (i) the securities of the whole Goldman Sachs US Equity Portfolio consist of at least six different issues and (ii) securities from any one issue may not account for more than 30% of the Goldman Sachs US Equity Portfolio's assets. The provisions of this paragraph (6) shall also apply in respect of the Goldman Sachs US Equity Portfolio investing in securities issued by certain U.S. Government Agency Issuers, namely the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Government National Mortgage Association and the Federal Home Loan Banks.
- (7) Without prejudice to the limits laid down in (b) below, the limits laid down in (1) above are raised to maximum 20% for investment in shares and/or debt securities issued by the same body and when the Goldman Sachs US Equity Portfolio's investment policy is aimed at duplicating the composition of a certain share or debt securities index, which is recognised by the Luxembourg Supervisory Authority and meets the following criteria:

- (i) the index's composition is sufficiently diversified;
- (ii) the index represents an adequate benchmark for the market to which it refers;
- (iii) the index is published in an appropriate manner.

The 20% limit is increased to 35% where that proves to be justified by exceptional conditions, in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for one single issuer.

- **Bank deposits**

- (8) The Goldman Sachs US Equity Portfolio may not invest more than 20% of its assets in deposits made with the same body.

- **Derivatives**

- (9) The risk exposure to a counterparty of the Goldman Sachs US Equity Portfolio in an OTC derivative transaction may not exceed 10% of Goldman Sachs US Equity Portfolio's assets when the counterparty is a credit institution referred to in f) in section 1 above, or 5% of its assets in the other cases.
- (10) The Goldman Sachs US Equity Portfolio may invest in financial derivative instruments provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in paragraph (1) to (5), (8), (9), (16) and (17). When the Goldman Sachs US Equity Portfolio invests in index based financial derivative instruments, these investments do not have to be combined to the limits laid down in paragraph (1) to (5), (8), (9), (16) and (17).
- (11) When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when applying the provisions laid down in paragraph (10) and (12) and when determining the risks arising on transactions in derivative instruments.
- (12) With regard to derivative instruments, the Goldman Sachs Funds, for the Goldman Sachs US Equity Portfolio, will ensure that its overall risk exposure relating to financial derivative instruments does not exceed the total net assets of the Goldman Sachs US Equity Portfolio. As a general rule, the Goldman Sachs US Equity Portfolio cannot have a global exposure greater than its net asset value and as a consequence there is a limit to the Goldman Sachs US Equity Portfolio's exposure of 100% of its net asset value. The total risk exposure may therefore not be greater than 210% of the net asset value, including the 10% of the net asset value that the Goldman Sachs US Equity Portfolio may borrow on a temporary basis.

The risks exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

- **Shares or units in open-ended funds**

- (13) The Goldman Sachs US Equity Portfolio may not invest more than 20% of its net assets in shares or units of a single UCITS or other UCI referred to in section 1) e) above.

- (14) Furthermore, investments made in UCIs other than UCITS, may not exceed, in aggregate, 30% of the assets of the Goldman Sachs US Equity Portfolio.
- (15) To the extent that a UCITS or UCI is composed of several sub-funds and provided that the principle of segregation of commitments of the different sub-funds is ensured in relation to third parties, each sub-fund shall be considered as a separate entity for the application of the limit laid down in paragraph (13) here above.

- Combined limits

- (16) Notwithstanding the individual limits laid down in paragraph (1), (8) and (9), the Goldman Sachs US Equity Portfolio may not combine:
 - (i) investments in transferable securities or money market instruments issued by;
 - (ii) deposits made with; and/or
 - (iii) exposures arising from OTC derivatives transactions and efficient portfolio management techniques undertaken with;a single body, in excess of 20% of its assets.
- (17) The limits set out in paragraph (1) to (5), (8) and (9) cannot be combined. Thus, investments by the Goldman Sachs US Equity Portfolio in transferable securities or money market instruments issued by the same body or in deposits or derivative instruments made with this body in accordance with paragraph (1) to (5), (8) and (9) may not exceed a total of 35% of the net assets of Goldman Sachs US Equity Portfolio.

(b) Restrictions with regard to control

- (18) The Goldman Sachs US Equity Portfolio may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.
- (19) The Goldman Sachs US Equity Portfolio may acquire no more than:
 - (i) 10% of the outstanding non-voting shares of the same issuer;
 - (ii) 10% of the outstanding debt securities of the same issuer;
 - (iii) 25% of the shares or units of the same UCITS and/or other UCI;
 - (iv) 10% of the money market instruments of the same issuer.

The limits set in points (ii) to (iv) may be disregarded at the time of acquisition if at that time the gross amount of debt securities or money market instruments, or the net amount of the securities in issue, cannot be calculated.

- (20) The limits laid down in paragraph (18) and (19) are waived as regards:
 - (i) Transferable securities and money market instruments issued or guaranteed by a member state of the European Union or its local authorities;

- (ii) Transferable securities and money market instruments issued or guaranteed by a non-member state of the European Union;

 - (v) Shares held in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country/state where the subsidiary is located, in regard to the repurchase of the shares at the shareholders request exclusively on its or their behalf.
- 4) Furthermore, the following restrictions will have to be complied with:
 - (1) The Goldman Sachs US Equity Portfolio may not acquire either precious metals or certificates representing them.
 - (2) The Goldman Sachs US Equity Portfolio may not acquire real estate, except when such acquisition is essential for the direct pursuit of its business.
 - (3) The Goldman Sachs US Equity Portfolio may not issue warrants or other instruments giving holders the right to purchase shares in the Goldman Sachs US Equity Portfolio.
 - (4) Without prejudice to the possibility of the Goldman Sachs US Equity Portfolio to acquire debt securities and to hold bank deposits, the Goldman Sachs US Equity Portfolio may not grant loans or act as guarantor on behalf of third parties. This restriction does not prohibit Goldman Sachs US Equity Portfolio from acquiring transferable securities, money market instruments or other financial instruments referred to in paragraph 1) e), g) and h) that are not fully paid-up.
 - (5) The Goldman Sachs US Equity Portfolio may not carry out uncovered sales of transferable securities, money market instruments or other financial instruments referred to in section 1) e), g) and h).
- 5) Notwithstanding the above provisions:

 - (2) If the limits referred to above are exceeded for reasons beyond the control of the Goldman Sachs US Equity Portfolio or the Goldman Sachs Funds or as a result of the exercise of subscription rights, the Goldman Sachs US Equity Portfolio must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its shareholders.

- 6) GSAMGS employs a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Goldman Sachs US Equity Portfolio. - 7) Information relating to the quantitative limits that apply in the risk management of the Goldman Sachs Funds, to the methods chosen to this end and to the recent evolution of the main instrument categories' risks and yields may be provided to investors upon request.
- 8) The Goldman Sachs Funds may employ techniques and instruments in respect of transferable securities and money market instruments subject always to the parameters published by the Luxembourg Supervisory Authority provided always that such techniques and instruments are employed for the purpose of efficient portfolio management for hedging and investment purposes. Where such operations concern the use of financial derivative instruments, these parameters shall conform to the Law of 17 December 2010. Our investment philosophy describes the approach that the investment team will adhere to when constructing an equity or fixed income portfolio. The fund managers invest in well-managed companies with strong balance sheets that possess competitive advantages that should enable them to outperform their peers over economic cycles. The fund managers are active investors that make high conviction security selection decisions, but at the same time do not take unnecessary or excessive risks nor take speculative positions. The fund managers seek to outperform their peers and beat their benchmark by buying mispriced or cheap securities. Following our disciplined sell strategy, they would then exit positions when our target price is reached. Concurrently, the fund managers understand the Funds' risk profile and act within each individual Fund's mandate.

1.16 Shariah Methodology and Shariah Investment Guidelines

MF

IBF

ICMF

All the Fund's investments in equities, fixed income or money market instruments have to comply with Shariah requirements. In general, investment in equities are selected from companies that meet certain stipulated financial filters and are not involved in activities prohibited under Shariah. The prohibited core activities that must be avoided includes:

- (a) financial services based on riba (interest);
- (b) gambling and gaming activities;
- (c) production, processing and sale of alcoholic beverages and non-halal food or related products;
- (d) conventional insurance activities;
- (e) entertainment activities that are non-permissible according to Shariah;
- (f) manufacture or sale of tobacco-based products or related products;
- (g) stockbroking or share trading in Shariah non-compliant securities; and/or
- (h) any further restriction as determined from time to time by the SACSC and/or the Shariah Adviser for Malaysian investments, and as determined from time to time by the Shariah Adviser for investments in foreign markets.

Investments in sukuk or Islamic money market instruments are selected from issuances that are structured based on Shariah principles.

The Fund's investments shall be guided by the Shariah Investment Guidelines as described below. Upon monthly review of the portfolio by the Shariah Adviser, any investments that do not comply with the requirements of the guidelines shall be divested in accordance with what has been prescribed below.

Shariah Investment Guidelines adopted by the Shariah Adviser

The following matters are adopted by the Shariah Adviser in determining the Shariah status of equity investments of the Fund.

1. Investment in Malaysia

Equity:

Reference for investment in local securities is based on the list of Shariah-compliant equities issued by the SACSC twice yearly on the last Friday of May and November which is readily available at the Securities Commission's website.

However, for the Shariah status of Initial Public Offering ("IPO") companies that have yet to be determined by the SACSC, the Shariah Adviser will adopt the following analysis in determining the Shariah status of these companies. The status determined by the Shariah Adviser is taken on a temporary basis until the Shariah status of that particular IPO company is determined in the subsequent release of the List of Shariah-compliant Securities issued by SACSC.

Quantitative Analysis

The Shariah Adviser adopts a two-tier quantitative approach which applies the business activity benchmark and the financial ratio benchmark in determining the Shariah status of the securities. Hence, the securities will be classified as Shariah-compliant if they are within the business activity benchmark and the financial ratio benchmark. If any of these benchmarks are exceeded, the Shariah Adviser will not accord a Shariah-compliant status for such equities.

Business activities benchmark

The contribution of Shariah non-compliant activities to the overall revenue and profit before taxation of the company will be computed and compared against the relevant business activities benchmarks as follows:

- a) The 5% benchmark would be applicable to the following businesses or activities:
 - (i) conventional banking;
 - (ii) conventional insurance;
 - (iii) gambling;
 - (iv) liquor and liquor-related activities;
 - (v) pork and pork-related activities;
 - (vi) non-halal food and beverages;
 - (vii) Shariah non-compliant entertainment;
 - (viii) tobacco and tobacco-related activities;
 - (ix) interest income from conventional accounts and instruments (including dividends from investment in Shariah non-compliant instruments and interest income awarded arising from a judgement by a court or arbitrator); and
 - (x) other activities deemed non-compliant according to Shariah.

For the above-mentioned businesses or activities, the contribution of Shariah non-compliant businesses or activities to the overall revenue or profit before taxation of the company must be less than 5%.

- b) The 20% benchmark would be applicable to the following activities:
 - (i) share trading;
 - (ii) stockbroking business;
 - (iii) rental received from Shariah non-compliant activities; and
 - (iv) other activities deemed non-compliant according to Shariah.

For the above-mentioned businesses or activities, the contribution of Shariah non-compliant businesses or activities to the overall revenue or profit before taxation of the company must be less than 20%.

Financial ratio benchmark

For the financial ratios benchmark, the Shariah Adviser takes into account the following:

- a) Cash over total assets must be lower than 33%
Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.
- b) Debt over total assets must be lower than 33%
Debt will only include interest-bearing debt whereas financing or sukuk will be excluded from the calculation.

Generally, determination of the financial ratio benchmarks is based on available information of the company.

Qualitative Analysis

Companies which have passed the above quantitative test will be further subjected to qualitative screening before the equities of such companies can be classified as Shariah-compliant. In this secondary analysis, the Shariah Adviser will look into aspects of the general public perception of the respective companies' image, core businesses which are considered important and *maslahah* (beneficial) to the Muslim *ummah* (nation) and the country, the non-permissible elements are very small and involve matters such as *umum balwa* (common plight and difficult to avoid), '*uruf*' (custom) and rights of the non-Muslim community which are accepted by the Shariah.

Sukuk and Islamic money market instruments:

The selection of these instruments for investments will be based on the instruments' lists readily available at the website of Securities Commission and/or Bank Negara Malaysia.

2. Investment in foreign markets:

Equity:

Quantitative Analysis

The Shariah Adviser takes into account the following parameters in determining the Shariah status of the listed securities.

- 1) Shariah non-compliant income of the companies arising from the following business activities must not exceed certain designated benchmarks*:
 - a) Conventional financial services;
 - b) Gambling and gaming;
 - c) Manufacture or sale of non-halal products or related products (e.g. pork and liquor);
 - d) Manufacture or sale of tobacco-based products or related products;
 - e) Weaponry;
 - f) Entertainment activities that are not permitted by the Shariah; and
 - g) Other activities deemed non-permissible according to the Shariah.
- 2) The financial ratios of the following must not exceed certain benchmarks*:
 - a) Interest income over total revenue;
 - b) Total interest-bearing debts including all interest-bearing loans/debentures and their respective payables such as short term/long term debts, short term/long term debentures and all debentures payables divided by total assets;
 - c) Total sum of company's cash and cash equivalent placed or invested in non-Shariah compliant deposits or instruments divided by total assets; and
 - d) Total account receivables including trade receivables divided by total assets.

*These benchmarks and financial ratios may vary in accordance with the development of Islamic finance and the jurisdiction of respective screening authorities or the Islamic indices that are being referred to. Should any of the deductions fail to satisfy the benchmarks, the Shariah Adviser will not accord a Shariah-compliant status for such equities.

Qualitative Analysis

Companies which have passed the above quantitative test will be further subjected to qualitative screening before the equities of such companies can be classified as Shariah-compliant. In this secondary analysis, the Shariah Adviser will look into aspects of the general public perception of the respective companies' image, core businesses which are considered important and *maslahah* (beneficial) to the Muslim *ummah* (nation) and the country, the non-permissible elements are very small and involve matters such as *umum balwa* (common plight and difficult to avoid), '*uruf*' (custom) and rights of the non-Muslim community which are accepted by the Shariah.

Foreign sukuk:

For foreign sukuk, the Shariah Adviser would accept resolutions/rulings as decided by the respective Shariah advisors for the instruments. Prospectus or information memorandum of the sukuk and resolutions/rulings/pronouncements by the respective Shariah advisors for the instruments must be presented to the Shariah Adviser for notification and due diligence.

3. Shariah non-compliant investment

a) Wrong investment

Refers to Shariah non-compliant investment made by the Manager. The said investment will be disposed of / withdrawn within one month of knowing the status of the securities. In the event the investment results in a gain (through capital gain and/or dividend), the gain is to be channelled to *baitulmal* or any other charitable bodies as advised by the Shariah Adviser. If the disposal of the investment results in a loss to the Fund, the loss is to be borne by the Manager.

b) Reclassification of Shariah status of the Fund's investment

A security which is reclassified as Shariah non-compliant by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic Indices will be disposed as soon as is practicable, i.e. in the event that on the announcement date or on an effective review date determined by the Shariah Adviser, the market price of the securities exceed or is equal to the investment cost. On the other hand, the Fund is allowed to hold its investment in these Shariah non-compliant securities if on the announcement date or on an effective review date determined by the Shariah Adviser, the market price is below the investment cost. These securities must be disposed once the total amount of dividends received and the market value of that security is equal to the original investment costs.

Any capital gains arising from the disposal of the Shariah non-compliant security made at the time of the announcement can be kept by the Fund. However, any excess capital gains derived from the disposal after the announcement day or after the effective review date at a market price that is higher than the closing price on the announcement day or on the effective review date is to be channelled to *baitulmal* and/or any charitable bodies as advised by the Shariah Adviser.

4. Zakat for the Fund

The Funds do not pay *zakat* on behalf of Muslim individuals and Islamic legal entities who are investors of the Funds. Thus, investors are advised to pay *zakat* on their own.

2. RISK FACTORS

2.1 General Risks of Investing in Unit Trusts

The following are risks involved in investing in the respective Funds:

General Risks

a) Loan/Financing Risk

Investors should assess the inherent risk of investing with borrowed money or financing facility, which should include the following:

- The ability to service the loan repayments or financing instalments and the effect of increase in interest rates or profit rates on the loan repayments or financing instalments;
- If Units are used as collateral, investors may be required to provide additional collateral should the Fund's prices fall below a certain level; and
- The cost of investing with borrowed money or a financing facility may be greater than the return on investment in a Fund.

[Please see Unit Trust Loan Financing Risk Disclosure Statement in the application form. Should Muslim investors wish to finance the acquisitions of Islamic unit trust funds, they are advised to obtain one that is Shariah-compliant in nature.]

b) Management Risk

Poor management of the Fund may jeopardise the investment of each Unit Holder. Therefore, it is important for the Manager to set the investment policies and appropriate strategies to be in line with the investment objective before any investment activities can be considered. However, there can be no guarantee that these measures will produce the desired results.

c) Non-compliance Risk

This is the risk of the Manager not complying with the internal policies, the Deed, all applicable laws or guidelines issued by the regulators. This may occur as a result of system failure or the inadvertence of the Manager. The magnitude of such risk and its impact on the Fund and/or Unit Holders are dependent on the nature and severity of the non-compliance. Non-compliance may adversely affect a Fund especially if the investment of the Fund has to be disposed at a lower price to rectify the non-compliance.

Investors are reminded that the above list of risks may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers or stockbrokers for a better understanding of the risks.

2.2 Specific Risks when Investing in the Funds

The following are specific risks involved in investing in the Funds:

DF

a) Stock Market Risk

Securities may decline in value due to factors affecting securities markets generally or particular industries represented in the securities markets. The value of a security may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investors' sentiment generally. They may also decline due to factors that affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. Equity securities generally have greater price volatility than fixed income securities. The market price of securities owned by the Fund might go down or up, sometimes rapidly or unpredictably.

b) Liquidity Risk

Liquidity risk exists when particular investments are difficult to sell, possibly preventing the Fund from selling such illiquid securities at a favourable price. The Fund's principal investment strategies that involve securities or securities with substantial market and/or credit risk tend to have greater exposure to liquidity risk. As part of its risk management, the Manager will attempt to manage the liquidity of the Fund through asset allocation and diversification strategies within the portfolio. The Manager will also conduct constant fundamental research and analysis to forecast future liquidity of its investments.

c) Individual Stock Risk

The performance of each individual stock that the Fund invests in is dependent upon the management quality of the particular company and its growth potential. Hence, this would have an impact on the Fund's prices and its dividend income. The Manager aims to reduce all these risks by using diversification that is expected to reduce the volatility as well as the risk for the Fund's portfolio. In addition, the Manager will also perform continuous fundamental research and analysis to aid its active asset allocation management especially in its stock selection process.

d) Issuer Risk

The value of each individual fixed income securities that the Fund invests in may decline for a number of reasons which is directly related to the issuer, such as, the management performance, financial leverage and reduced demand for the issuer's goods or services. The Manager aims to reduce all these risks by using diversification that is expected to reduce the volatility as well as the risk for the Fund's portfolio.

a) Interest Rate Risk

Generally, bond prices move in the opposite direction of interest rates; a rise in interest rates will generally cause a fall in bond prices and vice versa. The Fund will experience a capital loss or capital gain should the bond be sold before maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

b) Credit and Default Risk

This refers to the likelihood that the company issuing the bonds and/or financial institution where liquid assets of the Fund are deposited may default. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Municipal bonds are subject to the risk that litigation, legislation or other political events, local business or economic conditions, or the bankruptcy of an issuer could have a significant effect on the issuer's ability to make payments of principal and/or interest. The Fund could lose money if the issuer or guarantor of a fixed income security, or the counterpart to a derivatives contract, repurchase agreement or a loan of portfolio securities or a financial institution, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer and/or financial institution. This risk refers to the possibility that the issuer of an instrument and/or financial institution will not be able to make timely payments of interest or principal repayment on the maturity date, where applicable. This may lead to a default in the payment of principal and interest and ultimately a reduction in the value of the Fund.

a) Interest Rate Risk

Interest rate risk is crucial in this Fund since money market instruments and deposits portfolio management depends on forecasting interest rate movements. Interest rate changes could affect the Fund's portfolio adversely if the strategy taken by the portfolio manager differs from the

actual outlook of the interest rates market. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured money market instruments and deposits depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

b) Inflation Risk

Inflation reduces the purchasing power of money. Therefore in an inflationary environment, there is a possibility that income from money market instruments and deposits may not be able to keep up with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

d) Issuer Risk

The value of each individual sukuk that the Fund invests in may decline for a number of reasons which is directly related to the issuer, such as, the management performance, financial leverage and reduced demand for the issuer's goods or services. The Manager aims to reduce all these risks by using diversification that is expected to reduce the volatility as well as the risk for the Fund's portfolio.

e) Interest Rate Risk

Generally, sukuk prices move in the opposite direction of interest rates; a rise in interest rates will generally cause a fall in sukuk prices and vice versa. The Fund will experience a capital loss or capital gain should the sukuk be sold before maturity. The interest rate risk here refers to the general interest rate risk of the country which may affect the value of the Fund's investments even if the Fund does not invest in interest bearing instruments.

The sukuk indicative rate is influenced by the yield curve of the conventional interest rates. Thus, any movement in the conventional interest rates may be reflected in the indicative rates of sukuk

as well.

However, this does not in any way suggest that the Fund will invest in conventional fixed income securities where interest rates apply. All the investments carried out for the Fund will be in accordance with Shariah principles. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

f) Credit and Default Risk

This refers to the likelihood that the company issuing the sukuk and/or financial institution where liquid assets of the Fund are deposited may default. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Shariah-compliant municipal sukuk are subject to the risk that litigation, legislation or other political events, local business or economic conditions, or the bankruptcy of an issuer could have a significant effect on the issuer's ability to make payments of principal and/or profit. The Fund could lose money if the issuer or guarantor of a sukuk, or the counterpart to a derivatives contract, repurchase agreement or a financial institution, is unable or unwilling to make timely principal and/or profit payments, or to otherwise honour its obligations. This may lead to a default in the payment of principal and profit and ultimately a reduction in the value of the Fund.

g) Shariah Specific Risk

The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah-compliant. Should the situation arise, the Manager will need to take the necessary steps to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

a) Interest Rate Risk

Interest rate risk is crucial in this Fund since Islamic money market instruments and Islamic deposits portfolio management depends on forecasting interest rate movements. Interest rate changes could affect the Fund's portfolio adversely if the strategy taken by the portfolio manager differs from the actual outlook of the interest rates market. This risk will be mitigated via shorter or longer tenured Islamic money market instruments and Islamic deposits depending on the Manager's forward looking view of the interest rate trend. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country which may affect the value of the investment of the Fund. The interest rate risk here refers to the general interest rate risk of the country which may affect the value of investment even if the Fund does not invest in interest bearing instruments.

b) Credit and Default Risk

This risk refers to the possibility that the issuer of a particular investment will not be able to make timely or full payments of principal or income due on that investment. In the case of the Fund, the Manager will endeavour to mitigate this risk by selecting only issuers with prescribed and acceptable credit ratings. The minimum credit rating for rated instruments to be invested by the Fund shall be "A" by Malaysian Rating Corporation Berhad or equivalent rating by any other similar rating agencies. In the event of a credit downgrade of a particular instrument below the minimum stipulated, the Manager will endeavour to take the necessary steps to divest that instrument within a time frame deemed reasonable by the Manager. However, in order to best

protect the interests of the Fund, the Manager has the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.

c) Inflation Risk

Inflation reduces the purchasing power of money. Therefore in an inflationary environment, there is a possibility that income from Islamic money market and Islamic deposits may not be able to keep up with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

d) Shariah Specific Risk

Should the situation arise, the Manager will need to take the necessary steps to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

a) Stock Market Risk

Securities may decline in value due to factors affecting securities markets generally or particular industries represented in the securities markets. The value of a security may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investors' sentiment generally. They may also decline due to factors that affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. Equity securities generally have greater price volatility than fixed income securities. The market price of securities owned by the Fund might go down or up, sometimes rapidly or unpredictably.

b) Currency Risk

As the Fund invests overseas, fluctuations in the denominated currencies of the foreign shares and fixed income securities/debentures it invests in may affect the price of the units. The Manager could utilise two pronged approaches in order to mitigate the currency risk. Firstly by spreading the investments across differing currencies (i.e. diversification) and secondly by hedging the currencies when it is deemed necessary.

c) Country Risk

The stock prices may be affected by the political and economic conditions of the country in which the stocks are listed. To mitigate these risks, the Manager will select securities that spread across countries within its portfolio in an attempt to avoid such events. Decision on diversification will be based on its constant fundamental research and analysis on the global markets.

d) Liquidity Risk

Liquidity risk exists when particular investments are difficult to sell, possibly preventing the Fund from selling such illiquid securities at a favourable price. The Fund's principal investment strategies that involve foreign securities, derivatives or securities with substantial market and/or credit risk tend to have greater exposure to liquidity risk. As part of its risk management, the Manager will attempt to manage the liquidity of the Fund through asset allocation and diversification strategies within the portfolio. The Manager will also conduct constant fundamental research and analysis to forecast future liquidity of its investments.

e) Sector Risk

Securities may decline in value due to factors affecting the securities markets generally. The value of a security in a particular sector may decline due to general market conditions, such as real or perceived adverse economic conditions, cyclical or seasonal changes in the industry,

technological changes within the industry, changes in the general outlook of the industry, corporate earnings, or adverse investors' sentiment generally. The Manager will endeavour to mitigate such risks by investing in a portfolio that diversifies the Fund's assets within that sector. This is expected to reduce the volatility as well as the risk for the Fund's portfolio.

f) Interest Rate Risk

Generally, bond prices move in the opposite direction of interest rates; a rise in interest rates will generally cause a fall in bond prices and vice versa. The Fund will experience a capital loss or capital gain should the bond be sold before maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

g) Credit and Default Risk

This refers to the likelihood that the company issuing the bonds and/or financial institution where liquid assets of the Fund are deposited may default. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Municipal bonds are subject to the risk that litigation, legislation or other political events, local business or economic conditions, or the bankruptcy of an issuer could have a significant effect on the issuer's ability to make payments of principal and/or interest. The Fund could lose money if the issuer or guarantor of a fixed income security, or the counterpart to a derivatives contract, repurchase agreement or a loan of portfolio securities or a financial institution, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer and/or financial institution. This risk refers to the possibility that the issuer of an instrument and/or financial institution will not be able to make timely payments of interest or principal repayment on the maturity date, where applicable. This may lead to a default in the payment of principal and interest and ultimately a reduction in the value of the Fund.

h) Issuer Risk

The value of each individual fixed income securities that the Fund invests in may decline for a number of reasons which is directly related to the issuer, such as, the management performance, financial leverage and reduced demand for the issuer's goods or services. The Manager aims to reduce all these risks by using diversification that is expected to reduce the volatility as well as the risk for the Fund's portfolio.

i) Inflation / Purchasing Power Risk

Inflation can be defined as increases of price level of goods and services and is commonly reported using the consumer price index as a measure. Inflation is one of the major risks to investors over the long term and results in uncertainty over the future value of the investments. Inflation reduces purchasing power of money. In an inflationary environment, fixed rate securities are exposed to higher inflation risks than inflation-linked securities. This risk can be minimised by investing in securities that can provide positive real rate of return.

j) Regulatory Risk

Any changes in national policies and regulations may have an effect on the capital markets in which the Fund is investing. If this occurs there is a possibility that the Unit price of the Fund may be adversely affected.

ATRF

As the Fund may invest up to 100% of its NAV in a target fund, i.e. United Asian Bond Fund, it is subject to the management risk of the investment manager of United Asian Bond Fund. Poor management of the United Asian Bond Fund will jeopardize the investment of the Fund in the United Asian Bond Fund and in turn, the Unit Holders' investment through the loss of capital invested in the Fund.

a) Currency Risk

The Fund invests at least 95% of its NAV in a target fund, i.e. the United Asian Bond Fund, which is denominated in SGD. Fluctuations in foreign exchange rate between SGD and Ringgit Malaysia will affect the value of the Fund's foreign investments when converted to local currency and subsequently the value of Unit Holders' investment.

As such, the performance of the Fund will also be affected by the movements in the exchange rate between SGD and Ringgit Malaysia.

b) Liquidity Risk

The Fund invests at least 95% of its NAV in a target fund, i.e. the United Asian Bond Fund. The liquidity risk that exists at the Fund level is associated with the inability of the United Asian Bond Fund to meet large redemption requests in a timely manner. This is related to the risk of substantial redemptions.

c) Income Distribution Risk

Income distribution from the Fund is not guaranteed, it is subject to the income distribution of the United Asian Bond Fund. Furthermore, as per the Guidelines on Unit Trust Funds, distribution of income of the Fund should only be made from realised gains or realised income of the Fund. Under the circumstances where there are no realised gains or realised income of the United Asian Bond Fund, the Fund may not be able to distribute income. As such, it should be noted that the distribution of income is not guaranteed.

d) Risk of Substantial Redemptions

The Fund invests at least 95% of its NAV in a target fund, i.e. the United Asian Bond Fund. The redemption requests made by the investors of the Fund will also be requested by the Fund to the United Asian Bond Fund.

The United Asian Bond Fund imposes a 10% limit of realisation on any particular day when requests for redemption of units exceed 10% of the total number of units that has been issued on the United Asian Bond Fund (10% limit of realisation). As such, any substantial requests from the Fund may trigger this 10% limit of realisation.

When this 10% limit of realisation has been triggered, this may lead to investors of the Fund not being able to receive their redemption proceeds within 10 days from the date of their redemption requests. For more details, please refer to the explanation below on the suspension of NAV calculation or limitation of redemption payments.

e) Suspension of NAV Calculation or Limitation of Redemption Payments

As further described in the prospectus of the United Asian Bond Fund, the United Asian Bond Fund may in certain circumstances impose a limit of realisation on any particular day when requests for redemption of units exceed 10% of the total number of units that has been issued on the United Asian Bond Fund. Once the requests for redemption of units exceed 10% of the total number of units that has been issued on the United Asian Bond Fund (10% limit of realisation), any redemption requests received by the United Asian Bond Fund will be pro-rated accordingly to all unit holders who are redeeming their units in the United Asian Bond Fund. This pro-rated action will continue until the 10% limit of realisation is no longer breached.

As a result, part or all of such requests for redemption may be deferred for a period typically not exceeding ten (10) business day of the United Asian Bond Fund beginning from the day the 10% limit of realisation is imposed by the United Asian Bond Fund. If such circumstances arise on any Business Day upon notification from the investment manager of the United Asian Bond Fund, the Manager may not be able to redeem its investments in the United Asian Bond Fund in order to meet any repurchase of Units requests from the Unit Holders within ten (10) days of receiving the redemption requests.

Illustration: Application of the 10% limit on redemption/repurchase of units

Hypothetical figures are used for the purposes of this illustration.

30th of September

Assuming that there was a substantial amount of redemption requests made by several investors of the United Asian Bond Fund. The fund manager of the United Asian Bond Fund may limit the number of units which can be redeemed to 10% of the total number of units then in issue in the United Asian Bond Fund on that business day of the United Asian Bond Fund (10% limit of realisation).

As such, if the 10% limit of realisation has been imposed by the United Asian Bond Fund i.e. when the requests for redemption of units of the United Asian Bond Fund exceed 10% of the total number of units that has been issued on the United Asian Bond Fund, any redemption requests received by the United Asian Bond Fund will be pro-rated accordingly to all unit holders of the United Asian Bond Fund who are redeeming their units in the United Asian Bond Fund. This pro-rated action will continue until the 10% limit of realisation is no longer breached. As a result, the United Asian Bond Fund will have to stagger its redemption proceeds with redemptions to be calculated based on several valuation points ("Deferred Redemption Requests").

1st of October

On 1st October, Investor A placed a redemption request for 900,000 Units of the Fund and Investor B placed a redemption request for 100,000 Units (which sums up to 1,000,000 units of the United Asian Bond Fund).

The Manager will submit redemption request of the 1,000,000 units to the United Asian Bond Fund (i.e. redemption requests from Investor A and B).

In view of the Deferred Redemption Requests which has been lined up before the redemption request of the Fund to the United Asian Bond Fund (i.e. for the redemption requests for Investor A and B) and with the imposition of the 10% limit on redemption requests, the Deferred Redemption Requests would be given priority over requests subsequently received from Investor A and Investor B.

10th of October

Assuming that the Deferred Redemption Requests could only be fully fulfilled on 9th of October. As such, the redemption requests made by Investor A and B, that was submitted to the Fund and where the Fund also submitted the redemption requests to the United Asian Bond Fund on 1st October, will only be processed the following business day of the United Asian Bond Fund (i.e. 10th of October), subject to the 10% limit of realisation.

Let us assume that the RM equivalent of the net asset value per unit of the United Asian Bond Fund is RM0.5000.

Based on the above, the requested redemption amount is	=	Units redeemed x net asset value per unit
	=	1,000,000 units x RM0.5000
	=	RM500,000

Let us assume that the RM equivalent of the net asset value of the United Asian Bond Fund is RM4,000,000. At the time of these redemption requests, the redemption requests as a percentage of the net asset value of the United Asian Bond Fund works out to be:

=	RM500,000
	RM4,000,000

$$= 12.5\%$$

Since the redemption request from Investor A and B are above 10% of the United Asian Bond Fund's net assets value, the fund manager of the United Asian Bond Fund may limit the number of units which can be redeemed to 10% of the United Asian Bond Fund's net asset value on that business day of the United Asian Bond Fund, which works out to be:

$$\begin{aligned} &= \text{RM}4,000,000 \times 10\% &= \text{RM}400,000 \\ &= \frac{\text{RM}400,000}{\text{RM}0.5000} &= 800,000 \text{ units} \end{aligned}$$

If the manager of the United Asian Bond Fund decide to impose such 10% limit on that business day of the United Asian Bond Fund, then on 10th of October, a portion of the redemption requests received from Investor A and B will be executed for an aggregate amount of 800,000 units, i.e. 720,000 units redeemed for Investor A and 80,000 units redeemed for Investor B. The proceeds from 800,000 units redeemed will be paid within fifteen (15) Business Days from the Manager's receipt of the redemption request:

$$\begin{aligned} &= \text{Amount redeemed from the Fund} - \text{Repurchase Charge incurred} \\ &= \text{RM}400,000 - \text{RM}0 \\ &= \text{RM}400,000 \end{aligned}$$

11th of October

Assuming that no other investors of the United Asian Bond Fund placed a redemption request on that business day of the United Asian Bond Fund. So for that day, there is only the outstanding redemption request of 200,000 units of the United Asian Bond Fund (180,000 units redemption request carried over for Investor A and 20,000 units carried over for Investor B).

And let us assume that the RM equivalent of the net asset value per unit of the United Asian Bond Fund has remained unchanged from the previous day (i.e. RM equivalent of RM0.5000).

$$\begin{aligned} \text{Based on the above, the total outstanding redemption request is} &= \text{Units redeemed} \times \text{net asset value per unit} \\ &= 200,000 \text{ units} \times \text{RM}0.5000 \\ &= \text{RM}100,000 \end{aligned}$$

The RM equivalent of the net asset value of the United Asian Bond Fund as at 11th of October is RM3,600,000, after deducting the redemption from the previous day. The redemption requests received on 11th of October as a percentage of the net asset value of the United Asian Bond Fund works out to be:

$$\begin{aligned} &= \frac{\text{RM}100,000}{\text{RM}3,600,000} \\ &= 0.03\% \end{aligned}$$

As Investor A and Investor B have redemption requests carried over from the previous business day of the United Asian Bond Fund and the total outstanding redemption requests are less than 10% of the United Asian Bond Fund, their outstanding redemption requests will be executed and fulfilled in full. As such, 180,000 units will be redeemed for Investor A and 20,000 units for Investor B. The proceeds from 200,000 units redeemed will be paid within fifteen (15) Business Days from the Managers' receipt of the redemption request. However, should the United Asian Bond Fund extend the period of the payment of the redemption proceeds beyond ten (10) business days, the Manager will pay the investors five (5) Business Days after obtaining the redemption proceeds from the United Asian Bond Fund.

Note: This is an illustration on how redemption proceeds can be staggered and disbursed. The United Asian Bond Fund may choose to disburse the redemption proceeds in staggered basis. Investor's redemption request may be staggered over several Business Days should there be other successive large redemption requests placed at the same time (which the aggregate exceed 10% of the United Asian Bond Fund's net asset value). In such situation, redemption orders may be accepted on a pro-rata basis and that deferred redemption request will be given priority over requests subsequently received.

Furthermore, investments of United Asian Bond Fund are subject to the following risks:

i) Market Risk

Investors will be exposed to market risk in the Asian bond markets. Investors should consider and satisfy themselves as to the usual risks of investing and participating in publicly traded securities. Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of the securities which in turn may cause the prices of units in the United Asian Bond Fund to rise or fall.

ii) Foreign Exchange and Currency Risk

The United Asian Bond Fund which is denominated in SGD may have exposure, either directly or indirectly, to a wide range of currencies. Where the United Asian Bond Fund makes investments which are denominated in a foreign currency, fluctuations in the exchange rates of other currencies against the SGD may affect the value of units of United Asian Bond Fund. In the management of the United Asian Bond Fund, the manager of the United Asian Bond Fund adopts an active currency management approach. However, the foreign currency exposure of the United Asian Bond Fund may not be fully hedged depending on the circumstances of each case. Such considerations shall include but are not limited to the outlook on the relevant currency, the costs of hedging and the market liquidity of the relevant currency.

Additionally, the United Asian Bond Fund has classes of units that are denominated in currencies other than the base currency of the United Asian Bond Fund. Changes in the exchange rate between the base currency of the United Asian Bond Fund and the denominated currency of another class may lead to an appreciation or depreciation of the value of the units of the class, as expressed in the denominated currency of the class and depending on the movement in exchange rates between the base currency and the denominated currency of the other class. Where a class of units is designated in a currency other than the base currency of the United Asian Bond Fund, the manager of the United Asian Bond Fund may or may not mitigate the exchange rate risk by hedging such foreign currency exposure to the extent of the net asset value attributed to such class.

Although the financial instrument used to mitigate the risk is not in relation to the other classes of units (if any) within the United Asian Bond Fund, the financial instrument will comprise the assets (or liabilities) of the United Asian Bond Fund as a whole. The gains (or losses) on and the costs of the relevant financial instruments will, however, accrue solely to the relevant class of units of the United Asian Bond Fund.

Note: The risks relating to classes of units of United Asian Bond Fund that are denominated in currencies other than SGD, the base currency of the United Asian Bond Fund are not applicable to the Fund. This is because the Fund invests in SGD class of the United Asian Bond Fund.

iii) Political Risk

The United Asian Bond Fund's investments may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in the other countries.

iv) Derivatives Risk

The United Asian Bond Fund which use or invest in financial derivative instruments will be subject to risks associated with such investments. These financial derivative instruments include

but are not limited to foreign exchange forward contracts. An investment in financial derivative instruments may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment positions. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that such investments in financial derivative instruments are monitored closely. The manager of the United Asian Bond Fund has the controls for investments in financial derivative instruments and has in place systems to monitor the derivatives positions of the United Asian Bond Fund.

v) Liquidity Risk

Investments by the United Asian Bond Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and the lack of liquidity which are inherent characteristics of these markets.

vi) Small and Medium Capitalisation Companies Risk

Investments in companies with small or medium capitalisation generally carry greater risk than is customarily associated with companies with larger capitalisation. Examples of such risks are less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. This may result in greater volatility in the share prices of such companies. Investors should be aware that investments in single country, sector or regional funds which may present greater opportunities and potential for capital appreciation may be subject to higher risks as they may be less diversified than a global portfolio.

vii) Debt Securities Risk

The United Asian Bond Fund will invest in non-investment grade fixed income securities as well as fixed income securities which are of investment grade as rated by Standard and Poor's Ratings Services, Moody's Investors Service or Fitch Ratings, or an equivalent reputable rating agency. Non-investment grade fixed income securities would include those securities having a long term credit rating of below "BBB-" by Standard and Poor's Ratings Services, "Baa3" by Moody's Investors Service, "BBB-" by Fitch Ratings, or their equivalent.

Investments in bonds and other debt securities are subject to interest rate fluctuations and credit risks, such as risk of default by issuers.

Interest rate risks will arise from unexpected changes in the term structure of interest rates, which are in turn dependent on general economic conditions. In general, the prices of debt securities are subject to interest rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates. In addition, such investments are subject to the specific ability of the issuers of such securities to meet their debt obligations and are hence dependent on the financial health of the issuers, which may change adversely over time due to their specific business conditions and general market conditions. Thereby, adverse changes in the financial condition of the issuer of the debt securities which the United Asian Bond Fund is invested in, or in general economic conditions, or both, or an unanticipated rise in interest rates, may increase the potential for default.

viii) Regional Risk

The United Asian Bond Fund may present greater opportunities and potential for capital appreciation, but may be subject to higher risks as it may be less diversified than a multi-regional portfolio.

ix) Counterparty Risk

Where the United Asian Bond Fund enters into over-the-counter transactions, United Asian Bond Fund is exposed to the risk that a counterparty may default on its obligations to perform under the relevant contract. If a counterparty becomes bankrupt or insolvent, the United Asian Bond Fund

could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the United Asian Bond Fund seeks to enforce its rights. The United Asian Bond Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that the contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

x) Broker Risk

The manager of United Asian Bond Fund may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the United Asian Bond Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in its transactions, the manager of United Asian Bond Fund considers, amongst other things, the range and quality of the professional services provided by such brokers and dealers and its credit standing and the licensing or regulated status.

It is possible that the brokers or dealers engaged for the United Asian Bond Fund may encounter financial difficulties that may impair the operational capabilities of United Asian Bond Fund. If a broker or dealer fails or becomes insolvent, there is a risk that the United Asian Bond Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not settle.

xi) Risk of Use of Rating Agencies and Other Third Parties

Credit ratings of instruments invested into by the United Asian Bond Fund represent the United Asian Bond Fund's manager's and/or rating agencies' opinion regarding the credit quality of the instruments or the issuers and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent change of circumstances may take time.

The manager of United Asian Bond Fund is entitled to rely, without independent investigation, upon pricing information and valuations furnished to the United Asian Bond Fund by third parties, including pricing services providers and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. The manager of United Asian Bond Fund cannot be held responsible for any failures by such parties in their valuations.

xii) Risk Relating to Distributions

The United Asian Bond Fund may from time to time make distributions to unit holders. Such distributions are at the absolute discretion of the manager of United Asian Bond Fund and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the United Asian Bond Fund. Dividend/interest income may be adversely affected by events such as (but not limited to) investee entities suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. In the event that distributable income and/or capital gains are insufficient, distributions may be made out of the capital of the United Asian Bond Fund. The declaration and/or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the net asset value of the United Asian Bond Fund. Moreover, distributions out of the capital of the United Asian Bond Fund may amount to a reduction of part of the unit holder's original investment. Distributions may also result in reduced future returns to the unit holders.

xiii) Investment Management Risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

The above is not an exhaustive list of the risks which investors should consider before investing in the Fund that invests principally in the United Asian Bond Fund. Investments in the United Asian Bond Fund may be exposed to other risks of an exceptional nature from time to time.

The risk management strategies and techniques employed by the Fund will be at the target fund level, United Asian Bond Fund as elaborated in section 1.10.8 (h).

USEF

Since a large portion of the NAV is invested in the Goldman Sachs US Equity Portfolio, investment into the Fund assumes the risks inherent in the Goldman Sachs US Equity Portfolio.

The specific risks to investors when investing in the Fund include the following:

a) Investment Manager Risk

As this Fund invests at least 95% of its NAV in the Goldman Sachs US Equity Portfolio, it is subject to risk associated with the investment manager of the Goldman Sachs US Equity Portfolio. This is the risk associated with the following:-

- (i) The risk that the investment manager may under-perform the target or the benchmark of the Goldman Sachs US Equity Portfolio due to the investment manager making poor forecasts of the performances of securities, asset classes or markets;
- (ii) The risk of non-adherence to the investment objectives, strategy and policies of the Goldman Sachs US Equity Portfolio, which may occur due to system failure or the inadvertence of the investment manager; and
- (iii) The risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes, systems and people.

The Manager has no control over the investment manager's investment strategy, techniques and capabilities, operational controls and management of the Goldman Sachs US Equity Portfolio. Any mismanagement of the Goldman Sachs US Equity Portfolio may negatively affect the NAV of the Fund. In the event of such occurrence, the Manager would seek an alternative investment manager and/or other target fund that is consistent with the objective of the Fund.

b) Market Risk

The value of the instruments in which the Goldman Sachs US Equity Portfolio invests, may go up or down in response to the prospects of individual companies and/or prevailing economic conditions. Movement of overseas markets may also have an impact on the local markets.

c) Currency Risk

The Fund invests at least 95% of its NAV in the Goldman Sachs US Equity Portfolio denominated in USD. Fluctuation in foreign exchange rates will affect the value of the Fund's foreign investments when converted into local currency and subsequently the value of Unit Holders' investments. When USD moves unfavourably against the Ringgit, these investments will suffer currency losses. This is in addition to any capital gains or losses in the investment (please note that capital gains or losses in the Fund's investment in the Goldman Sachs US Equity Portfolio is also exposed to currency gains or losses resulting from fluctuations in the foreign exchange rates between USD and the other currencies which the Goldman Sachs US Equity Portfolio may be exposed to). The Manager may utilise the hedging of currencies to mitigate this risk.

d) Liquidity Risk

The liquidity risk that exists at the Fund level is associated with the inability of the Goldman Sachs US Equity Portfolio to meet large redemption in a timely manner. In the event of large redemption request that would result in the total redemption shares in the Goldman Sachs US Equity Portfolio to be more than 10% of the shares in the Goldman Sachs US Equity Portfolio or a particular share class of the Goldman Sachs US Equity Portfolio, part or all of such requests for

redemption may be deferred for a period typically not exceeding ten business days of the Goldman Sachs US Equity Portfolio. However, should the Goldman Sachs US Equity Portfolio extend the period of the payment of the redemption proceeds beyond ten (10) business days, the Manager will pay the investors five (5) Business Days after obtaining the redemption proceeds from the Goldman Sachs US Equity Portfolio.

e) Regulatory Risk

Any changes in national policies and regulations may have an effect on the capital markets in which the Goldman Sachs US Equity Portfolio is investing. If this occurs, there is a possibility that the unit price of the Fund may be adversely affected.

f) Risk of Substantial Redemptions

Substantial redemptions of shares within a limited period of time could require the Goldman Sachs US Equity Portfolio to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the shares of the Goldman Sachs US Equity Portfolio. This risk may be exacerbated where an investment with a fixed life or where investments utilizing hedging techniques is made by the Goldman Sachs US Equity Portfolio.

g) Suspension of NAV Calculation / Limitation of Redemption Payments

The umbrella fund of the Goldman Sachs US Equity Portfolio may in certain circumstances temporarily suspend the determination of the net asset value per share of the Goldman Sachs US Equity Portfolio or a specific share class of the Goldman Sachs US Equity Portfolio and the issue, redemption or exchange of shares or a particular share class in the Goldman Sachs US Equity Portfolio.

As further described in the prospectus of the Goldman Sachs US Equity Portfolio, if on any given date requests for redemption of shares relate to more than 10% of the shares in the Goldman Sachs US Equity Portfolio or a particular share class of the Goldman Sachs US Equity Portfolio, part or all of such requests for redemption may be deferred for a period typically not exceeding ten (10) business days of the Goldman Sachs US Equity Portfolio.

Illustration: Application of the 10% limit on redemption / repurchase of shares of the Goldman Sachs US Equity Portfolio

Hypothetical figures are used for the purposes of this illustration.

30th of September

Let us assume that there was a substantial amount of redemption requests made by several investors in the Goldman Sachs US Equity Portfolio. The board of directors of the umbrella fund of the Goldman Sachs US Equity Portfolio may limit the number of shares which can be redeemed to 10% of the Goldman Sachs US Equity Portfolio's net asset value on that business day of the Goldman Sachs US Equity Portfolio.

As such, if total redemption requests are in excess of the 10% limit, these orders may be accepted on a pro-rata basis in order to limit the total redemptions to 10%. The remaining of these redemption requests will be deferred and executed on the following business day of the Goldman Sachs US Equity Portfolio to the extent they represent no greater than 10% of the net asset value of the Goldman Sachs US Equity Portfolio ("Deferred Redemption Requests").

1st of October

Assuming Investor A placed a redemption request for 900,000 Units and Investor B placed a

redemption request for 100,000 Units (which sums up to 1,000,000 units of the Goldman Sachs US Equity Portfolio). Due to the Deferred Redemption Requests lined up before Investor A and B and the 10% limit on redemption requests imposed, no redemption proceeds were paid to Investor A and B as the Deferred Redemption Requests would be given priority over requests subsequently received (from Investor A and Investor B).

10th of October

Assuming the Deferred Redemption Requests could only be completely paid out by the 9th of October. Therefore, redemption requests made by Investor A and B will only be processed on the following business day of the Goldman Sachs US Equity Portfolio (i.e. the 10th of October), again, to the extent possible.

Let us assume that the RM equivalent of the net asset value per unit of the Goldman Sachs US Equity Portfolio is RM0.5000.

$$\begin{aligned}
 \text{Based on the above, the requested redemption amount is} &= \text{Units redeemed} \times \text{NAV per unit} \\
 &= 1,000,000 \text{ units} \times \text{RM0.5000} \\
 &= \text{RM500,000}
 \end{aligned}$$

Let us assume that the RM equivalent of the net asset value of the Goldman Sachs US Equity Portfolio is RM4,000,000 at the time of these redemption requests so the percentage of the Goldman Sachs US Equity Portfolio for which redemption requests have been received is:

$$\begin{aligned}
 &= \frac{\text{RM500,000}}{\text{RM4,000,000}} \\
 &= 12.5\%
 \end{aligned}$$

Therefore, the redemption request from Investor A and B are above 10% of the Goldman Sachs US Equity Portfolio's net assets value. The board of directors of the umbrella fund of the Goldman Sachs US Equity Portfolio may limit the number of shares which can be redeemed to 10% of the Goldman Sachs US Equity Portfolio's net asset value on that business day of Goldman Sachs US Equity Portfolio, which is:

$$\begin{aligned}
 &= \text{RM4,000,000} \times 10\% &= \text{RM400,000} \\
 &= \frac{\text{RM400,000}}{\text{RM0.5000}} &= 800,000 \text{ units}
 \end{aligned}$$

If the board of directors of the umbrella fund of the Goldman Sachs US Equity Portfolio decide to impose such 10% limit on that business day of the Goldman Sachs US Equity Portfolio, then on the 10th of October, a portion of the redemption requests received from Investor A and B will be executed for an aggregate amount of 800,000 units, i.e. 720,000 units redeemed for Investor A and 80,000 units redeemed for Investor B. The proceeds from the 800,000 units redeemed will be paid within fifteen (15) Goldman Sachs US Equity Portfolio's business days from the Manager's receipt of the redemption request:

$$\begin{aligned}
 &= \text{Amount redeemed from the Fund} - \text{Repurchase Charge incurred} \\
 &= \text{RM400,000} - \text{RM0} \\
 &= \text{RM400,000}
 \end{aligned}$$

11th of October

Let us assume that no other investors placed a redemption request. So for that day, there is an outstanding redemption request for 200,000 units of the Goldman Sachs US Equity Portfolio (180,000 units redemption request carried over for Investor A, 20,000 units carried over for

Investor B).

And let us assume that the RM equivalent of the net asset value per unit of the Goldman Sachs US Equity Portfolio has remained unchanged from the previous day (i.e. RM equivalent of RM0.5000).

$$\begin{aligned}\text{Based on the above, the total outstanding} &= \text{Units redeemed} \times \text{NAV per unit} \\ \text{redemption request is} &= 200,000 \text{ units} \times \text{RM0.5000} \\ &= \text{RM100,000}\end{aligned}$$

The RM equivalent of the net asset value of the Goldman Sachs US Equity Portfolio as at 11th of October is RM3,600,000, after deducting the redemption from the previous day. The percentage of the Fund for which redemption requests have been received on the 11th of October is:

$$\begin{aligned}&= \frac{\text{RM100,000}}{\text{RM3,600,000}} \\ &= 0.03\%\end{aligned}$$

As Investor A and Investor B both have redemption requests carried over from the previous business day of the Goldman Sachs US Equity Portfolio and the total outstanding redemption requests are less than 10% of the Goldman Sachs US Equity Portfolio, their outstanding redemption requests will be executed and met in full. As such, 180,000 units will be redeemed for Investor A and 20,000 units for Investor B. The proceeds from 200,000 units redeemed will be paid within fifteen (15) of the Goldman Sachs US Equity Portfolio's business days beginning from the Manager's receipt of the redemption request. However, should the Goldman Sachs US Equity Portfolio extend the period of the payment of the redemption proceeds beyond ten (10) business days, the Manager will pay the investors five (5) Business Days after obtaining the redemption proceeds from the Goldman Sachs US Equity Portfolio.

Note: This is an example of how redemption proceeds can be staggered and disbursed. The Goldman Sachs US Equity Portfolio may choose to disburse the redemption proceeds in different proportions. Investor's redemption request may be staggered over several business days should there be other successive large redemption requests placed at the same time (which in aggregate exceed 10% of the Goldman Sachs US Equity Portfolio's net asset value). In this situation, redemption orders may be accepted on a pro-rata basis and that deferred redemption request will be given priority over requests subsequently received.

Furthermore, investments of Goldman Sachs US Equity Portfolio are subject to the following risks:

i) Currency Risk

While the Goldman Sachs US Equity Portfolio is denominated in USD, the underlying securities may be quoted in other currencies and thus may be subject to fluctuation in foreign exchange and certain exchange control mechanism. As such, any unfavourable currency fluctuations or adverse exchange control mechanism will result in currency losses. This is in addition to any capital gains or losses in the Goldman Sachs US Equity Portfolio's investments. The Goldman Sachs US Equity Portfolio may or may not seek to hedge all or any portion of its foreign currency exposure. However, even if the Goldman Sachs US Equity Portfolio attempts such hedging techniques, it is not possible to hedge fully or perfectly against currency fluctuations.

ii) Concentration Risk

As the Goldman Sachs US Equity Portfolio invests in a diversified portfolio of equities and equity-related securities of companies domiciled in the United States of America, this means that the Goldman Sachs US Equity Portfolio may be more greatly impacted by adverse social, political

or economic events which may occur in the country.

This concentration does not allow the same scope of diversification of risks across different markets as would be possible if investments were not as concentrated in that country.

iii) Corporate Action and Voting Rights

From time to time, the issuer of a security held in the Goldman Sachs US Equity Portfolio may initiate a corporate action relating to that security, including an offer to purchase new shares, or to tender existing shares, of that security at a certain price. Certain corporate actions are voluntary, meaning that the Goldman Sachs Funds may only participate in the corporate action if it elects to do so in a timely fashion. If the Goldman Sachs Funds, the management company or the investment adviser of the Goldman Sachs US Equity Portfolio does not receive sufficient advance notice of a voluntary corporate action, the Goldman Sachs Funds, the management company or the investment adviser of the Goldman Sachs US Equity Portfolio may not be able to timely elect to participate in that corporate action. Participation or lack of participation in a voluntary corporate action may result in a negative impact on the value of the Goldman Sachs US Equity Portfolio.

The Goldman Sachs US Equity Portfolio may also in its discretion exercise or procure the exercise of all voting or other rights which may be exercisable in relation to its investments.

iv) Derivatives and Structured Products Risk

The Goldman Sachs US Equity Portfolio may from time to time invest in derivatives, which are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or index. Such assets, rates and indices may include shares, interest rates, currency exchange rates and stock indices. Derivatives may be used for investment or hedging purposes.

The Goldman Sachs US Equity Portfolio may also invest in structured products, which are investment products backed by, or representing interests in, underlying assets which have been purchased by the issuer of the structured products. The cash flow from the underlying asset may be apportioned among the newly issued structured products to create securities with different investment characteristics such as varying maturities, payment priorities or interest rate provisions, and the extent of the payments made with respect to structured investments depends on the amount of the cash flow from the underlying investments. Structured products may entail the risk of loss of principal and/or interest payments as a result of movements in the underlying market or security.

Both derivatives and structured products are still subject to the risks associated with its underlying assets, which may include counterparty and credit risk, market risk and liquidity risk. Moreover, these financial instruments allow the use of leverage/gearing which may cause the price movements to be much more volatile as compared to price movements of its underlying assets. As an example, for a derivative/structured product tied to a debt security as its underlying asset, changes in the market's interest rate may have a much greater effect on the price of the derivative/structured product than the price of the debt security itself. As such, investing into derivatives and structured products may result in higher volatility of the Goldman Sachs US Equity Portfolio's net asset value, as compared to investing directly into the underlying assets or securities.

v) Uncertain Tax Positions

Due to uncertain tax regulations, the net asset value of the Goldman Sachs US Equity Portfolio on any dealing day may not accurately reflect tax liabilities, including on any historical realized or unrealized gains (including those tax liabilities that are imposed with retrospective effect). In addition, the net asset value of the Goldman Sachs US Equity Portfolio on any dealing day may reflect an accrual for tax liabilities, including estimates for such tax liabilities, that may subsequently not be paid, or that may be less than what is ultimately required to be paid. Accounting standards may also change, creating an obligation for the Goldman Sachs US Equity Portfolio to accrue for a tax liability that was not previously required to be accrued or in situations where the Goldman Sachs US Equity Portfolio does not expect to be ultimately to be subject to

such tax liability.

Due to uncertain tax regulations or accounting standards, the net asset value of the Goldman Sachs US Equity Portfolio could be affected, which may be detrimental to the Goldman Sachs US Equity Portfolio.

vi) Certain ERISA Considerations

If the assets of the Goldman Sachs US Equity Portfolio were to be treated as “plan assets” for purposes of certain United States federal pension regulations, the Goldman Sachs US Equity Portfolio could, among other things, be subject to certain restrictions on its ability to carry out certain of its activities, including, without limitation, that the Goldman Sachs US Equity Portfolio may be prohibited from trading with and through Goldman Sachs in respect of its investments.

Although the Goldman Sachs US Equity Portfolio expects that its assets will not be treated as “plan assets”, there is no assurance that this will be the case.

vii) Securities Risk

This is the risk of security prices falling. In general, the value of securities fluctuates in response to activities of individual companies, external factors that affect the specific companies and market conditions. In particular, investors should be aware that equity and equity-related investments are subordinate in the right of payment to other corporate securities, including debt securities.

Accordingly, the value of securities that a Goldman Sachs US Equity Portfolio holds may decline over short or extended periods. This decline in the value of securities means that the net asset value of the Goldman Sachs US Equity Portfolio will decrease.

viii) Inclusion of Shares in an Index

The “inclusion of shares in an index” pertains to the inclusion of shares of the Goldman Sachs US Equity Portfolio in an index. This risk disclosure is applicable when the Goldman Sachs US Equity Portfolio itself is part of an index constituent. When the shares of the Goldman Sachs US Equity Portfolio are included in an index (or excluded from the index having previously been included in it), this will affect the price of the relevant shares.

The inclusion/exclusion of shares in an index may trigger large inflows into or outflows from the Goldman Sachs US Equity Portfolio and this may cause an adverse impact on the underlying costs (including transaction costs in relation to purchases and sales of securities and/or instruments as a result of large inflows and large outflows respectively) of the Goldman Sachs US Equity Portfolio. The adverse impact on the underlying cost will be detrimental to the Goldman Sachs US Equity Portfolio.

ix) Investments in ADRs, EDRs and GDRs

Some securities in which the Goldman Sachs US Equity Portfolio may invest are represented by American Depositary Receipts (“ADRs”), European Depositary Receipts (“EDRs”) and Global Depositary Receipts (“GDRs”). ADRs are denominated in US Dollars and are sponsored and issued by U.S. banks. ADRs represent the right to receive securities of non-U.S. issuers deposited in a U.S. bank or a correspondent bank outside the United States. The Goldman Sachs US Equity Portfolio may also invest in EDRs, which are receipts evidencing an arrangement with a European bank similar to that for ADRs and are designed for use in the European securities markets. In addition, the Goldman Sachs US Equity Portfolio may invest in GDRs, which are receipts issued by a U.S., European or other international financial institution evidencing arrangements similar to both ADRs and EDRs. ADRs, EDRs and GDRs are not necessarily denominated in the currency of the underlying security and as such these investments may suffer currency losses in addition to capital gains/losses.

x) Cross-contamination between Portfolios and Share Classes

Legislation in Luxembourg is in place which is intended to eliminate the risk of cross-contamination between the Goldman Sachs US Equity Portfolio and other portfolios of the

Goldman Sachs Funds i.e. the risk of the assets of one portfolio being used to meet the liabilities of another. Therefore, as a matter of Luxembourg law, each portfolio of the Goldman Sachs Funds, including the Goldman Sachs US Equity Portfolio, is “ring-fenced” and considered to constitute a single pool of assets and liabilities, so that the rights of shareholders and creditors in relation to each portfolio should be limited to the assets of that portfolio. However, there can be no categorical assurance that, should an action be brought against the Goldman Sachs Funds in the courts of another jurisdiction, the segregated nature of the Goldman Sachs Funds and the Goldman Sachs Funds’ portfolios will necessarily be upheld.

There is no legal segregation between the assets and liabilities attributable to the various share classes of the Goldman Sachs US Equity Portfolio.

xi) Materiality Policy for Correcting Valuation Errors

In accordance with applicable law and regulation, a materiality policy may be applied to errors committed in calculating the net asset value of the Goldman Sachs US Equity Portfolio, which means that those errors which are deemed by the policy to be immaterial will not lead to a reissued and corrected net asset value for the Goldman Sachs US Equity Portfolio.

xii) “Fair Value” Prices

Investors should be aware that in certain circumstances the valuer may be required to provide “fair value” prices for certain assets and that in such circumstances the valuer’s “fair value” may diverge significantly from the next available market price of assets.

xiii) Debt Securities, Interest Rate Risk

The Goldman Sachs US Equity Portfolio may invest in debt securities, including convertible securities. No minimum rating is required and the Goldman Sachs US Equity Portfolio may invest in non-investment grade securities. Debt securities are subject to interest rate changes. If the markets’ interest rates change, the price of these securities may be deeply affected and this applies to a greater degree if the securities have high correlation to the interest rates.

xiv) Real Estate Companies

The Goldman Sachs US Equity Portfolio may, invest in transferable securities of companies principally* engaged in the real estate industry which carries special risks including: the cyclical nature of real estate values, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, demographic trends and variations in rental income, changes in zoning laws, casualty or condemnations losses, environmental risks, regulatory limitations on rents, changes in neighbourhood values, related party risks, changes in the appeal of properties to tenants, increases in interest rates and other real estate capital market influences.

*principally here refers to companies where their main source of income is based on activities that relates to real estate.

xv) Illiquid Assets

Redemption requests by investors in the Goldman Sachs US Equity Portfolio that require it to liquidate underlying positions may lead to:

- the Goldman Sachs US Equity Portfolio realising a greater portion of more liquid securities resulting in the Goldman Sachs US Equity Portfolio then holding a greater concentration of such relatively less liquid interests than was previously the case and the Goldman Sachs US Equity Portfolio’s investment mix may thereby become more biased towards relatively less liquid securities which could increase the risk for remaining investors; and/or
- the Goldman Sachs US Equity Portfolio realising less liquid assets at an unfavourable time and/or unfavourable conditions which may adversely impact the value that is realised

for those assets and/or the Goldman Sachs US Equity Portfolio's ability to settle redemption requests on its normal settlement cycle.

xvi) Risk of Changes in Borrowing Rates

The Goldman Sachs US Equity Portfolio is authorised to borrow on a temporary basis within the limits set forth in its investment restrictions. The Goldman Sachs US Equity Portfolio may choose to only borrow from a single entity which may be an affiliate of the depository, and the borrowing rate imposed by the custodian may change due to market conditions. As a consequence thereof, the borrowing rates imposed by the custodian may not be the most competitive.

Borrowing may in particular occur in connection with investments in markets which have different settlement cycles from that of the Goldman Sachs US Equity Portfolio or a requirement to pre-pay settlement proceeds or post margin.

xvii) Legal, Tax and Regulatory Risk

As the Goldman Sachs Funds invests into the Goldman Sachs US Equity Portfolio, investors should be aware that the regulatory, legal and tax factors affecting the Goldman Sachs US Equity Portfolio, which are described in detail in the Goldman Sachs US Equity Portfolio Prospectus, may impact the Goldman Sachs Funds. This includes the risk of legislative frameworks having an effect on the markets and funds investing in those markets. Any changes in national or economic policies or regulations may hinder the Goldman Sachs Funds from its ability to continuously invest into the Goldman Sachs US Equity Portfolio and this may impact the investments of the Goldman Sachs Funds. To minimise the impact, the manager of Goldman Sachs US Equity Portfolio will seek to keep abreast of regulatory developments that may affect the Goldman Sachs Funds's ability to invest into the Goldman Sachs US Equity Portfolio while attempting to preempt any regulatory changes that may adversely impact the Goldman Sachs Funds's investment in the Goldman Sachs US Equity Portfolio.

The above risk factors are a summary of the particular risks associated with investments in Goldman Sachs US Equity Portfolio, which investors are encouraged to discuss with their adviser(s), e.g. their bankers, lawyers, stockbrokers or independent financial advisers. It does not purport to be a comprehensive summary of all the risks associated with an investment in the Goldman Sachs US Equity Portfolio. Please refer to the Goldman Sachs US Equity Portfolio prospectus for a more complete description of the risk considerations associated with investing in the Goldman Sachs US Equity Portfolio.

3. VALUATION OF ASSETS

DF	CF	BF	MDF	CMF	MF
IBF	ICMF	DVEF*	ATRF*	USEF*	

* Funds with mandates investing in foreign markets.

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia.

Accordingly, for Funds investing solely in the local market, the valuation of the respective Funds for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the daily price of the Fund for a particular Business Day will be published in the major newspapers on the next day.

For Funds which have investments in foreign markets, the valuation of the respective Funds for a Business Day will be conducted before 5.00 pm on the following day in which the Manager is open for business, when the closing prices of the foreign markets for that Business Day would be available.

As such, the daily price for a particular Business Day, of the Funds with investments in foreign markets will not be published in the major newspapers on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the major newspapers.

Illustration (for Funds investing in foreign markets)

For the market close of 19 July 2017 (Wednesday), the valuation date will be the next day in which the Manager is open for business, that is, 20 July 2017 (Thursday). Thus, the major newspaper publication date for the prices as at 19 July 2017 (Wednesday) will be on 21 July 2017 (Friday).

Investors may however obtain the most current computed prices by contacting the Manager directly or visiting our website, **www.rhbgroup.com** [please refer to section 5.6 (g) (Availability of Information on Investment)].

In undertaking any of the Funds' investments, the Manager will ensure that all the assets of the respective Funds under its management will be valued appropriately, that is, at fair market value and at all times in compliance with the Securities Laws including approved accounting standards.

Accordingly, where applicable:

(i) Listed local and foreign securities

Listed local and foreign securities will be valued daily based on the last done market price of the respective exchanges.

However, if:-

(a) a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions; or

(b) no market price is available, including in the event of a suspension in the quotation of securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

then the securities should be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

(ii) Unlisted fixed income securities

Investments in unlisted Ringgit Malaysia denominated bonds or fixed income securities will be valued daily using fair value prices quoted by a bond pricing agency ("BPA") registered by the SC. However, where quotations are not available, such unlisted bonds or fixed income securities will be valued weekly or as and when appropriate, by reference to the average indicative yield quoted by three independent and reputable financial institutions in over-the-counter market at the close of trading. These institutions include investment banks and commercial banks which deal in fixed income securities.

Generally, investments in foreign unlisted bonds or fixed income securities will be valued daily using the average indicative yield quoted by three independent and reputable financial institutions in over-the-counter markets at the close of trading. These institutions include

investment banks and commercial banks which deal in fixed income securities. The Manager may also value such investment on any other basis as may be permitted by the Securities Commission from time to time.

In a case where the Manager is of the view that the price quoted by BPA for a specific unlisted debt instrument differs from the market price (i.e. the Manager's view of the market yield) by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non BPA price, obtains necessary internal approvals to use the non BPA price and keeps an audit trail of all decisions and basis for adopting the market price.

However, when the Manager is unable to obtain quotations from BPA or quotations from three independent and reputable financial institutions due to circumstances such as extreme market conditions, such local and foreign unlisted fixed income securities will be valued according to an alternative method determined in good faith by the Manager, which has been verified by the auditor of the Fund and approved by the Trustee provided that the Manager records its basis for using the alternative method having obtained necessary internal approvals to use the alternative method and the Manager keeps an audit trail of all decisions and basis for adopting the alternative method. Any alternative method shall be consistently applied unless advised otherwise by the auditor of the Fund and the Trustee.

(iii) Unlisted securities

Investments in unlisted securities will be valued at the cost price of each investment until the securities of the investee companies are successfully listed on a recognised stock exchange, upon which quoted prices will be available and valuation will be based on the market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

(iv) Collective investment schemes

Collective investment schemes which are quoted on an approved exchange shall be valued in the same manner as listed securities as described above. Unlisted collective investment schemes, shall be valued by reference to its last published repurchase price of a unit for that unlisted collective investment scheme.

(v) Futures contracts

Futures contracts positions will be "marked to market" at the close of each trading day.

(vi) Bank deposits and deposits

Bank deposits and deposits placed with financial institutions will be valued each day by reference to the principal value of such investments. Interest/profit receivables will be accrued each day based on the rate of interest/profit attached to the deposits.

(vii) Money market instruments

Money market instruments will be valued each day based on the accretion of discount or amortisation of premium on a yield to maturity basis.

(viii) Foreign exchange translation

Foreign exchange translation into RM for a particular Business Day is determined based on the bid rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by the relevant governing bodies or authorities.

DVEF	ATRF	USEF	

This is considered as a withdrawal of investment from one Fund and an investment into any of the unit trust funds under the management of the Manager that allows switching of units. A switching fee will be imposed on Unit Holders switching between funds under management (that allow switching). A switching fee¹ of RM25.00 will be imposed and deducted from the redemption amount of the units to be switched for a switch between funds that impose a similar sales charge or a switch to a fund that impose a lower sales charge. Unit Holders switching to a fund that imposes a higher sales charge will pay the difference in sales charge which is deductible from the redemption amount of the Units to be switched.

The Manager however, reserves the right to vary this fee or to vary the terms of the switching facility. The Manager may reject any switching request:

- (i) that it regards as disruptive to efficient portfolio management; or
- (ii) if deemed by the Manager to be contrary to the best interest of the Fund.

$$\text{Add: GST}^1 (6\% \text{ of RM}4,315.07) = \text{RM}258.90$$

$$\text{Total management fee payable for that particular day} = \text{RM}4,573.97$$

DVEF

ATRF

Illustration: Computation of annual trustee fee

Assuming that the Net Asset Value (before deducting the Manager's fee and Trustee's fee) of a Fund for a particular day is RM105,000,000.00 and assuming the trustee fee is at the rate of zero point zero eight per cent (0.08%) per annum, the calculation of the trustee fee of the Fund for that particular day is as follows:

$$\frac{\text{RM } 105,000,000.00 \times 0.08\%}{365 \text{ days}^*} = \text{RM}230.14$$

$$\text{Add: GST}^1 (6\% \text{ of RM}230.14) = \text{RM}13.80$$

$$\text{Total management fee payable for that particular day} = \text{RM}243.94$$

*Note: In the event of a leap year, the annual trustee fee will be divided by 366 days.

¹The implementation of GST is effective 1 April 2015 at the rate of 6% and the fees and charges payable are exclusive of GST.

(c) Other Indirect Fees

ATRF USEF

In respect of **ATRF**, since the Manager will invest in unit/shares of its target fund, there are other fees and charges indirectly incurred by that target fund such as the subscription fee, realisation charge, switching fee, annual trustee fee, annual custodian fees, annual valuation and accounting fee, annual registrar fee and transaction fees which are incurred at that target fund's level.

In respect of **USEF**, since the Manager will invest in unit/shares of the target fund, there are other fees and charges indirectly incurred by the target fund such as the annual custodian fees and transaction fees which are incurred at that target fund's level.

The rates for these fees will vary according to the country of investment and, in some cases, according to asset class. Thus the custody cost to a target fund will depend on its asset allocation at any time. As such, Unit Holders will indirectly bear the custodian fee and transaction fees charged at that target fund's level.

Other fees borne by a target fund include operating and related expenses including but not limited to, stamp duties, taxes, commissions and other dealing costs, foreign exchange costs, bank charges, registration fees in relation to investments, insurance and security costs, fees and expenses of the auditor, the remuneration and expenses of its directors and officers, all expenses incurred in the collection of income and certain other expenses incurred in the administration of that target fund and in the acquisition, holding and disposal of investments. A target fund will also be responsible for the costs of preparing, translating, printing and distributing all its respective rating agencies, statements, notices, accounts, prospectuses and reports.

These fees and charges are imputed into the calculation of each of the target fund's net asset value. As such, Unit Holders are indirectly bearing the above fees and expenses charged at the target fund level.

Investors should note the above higher fees arising from the layered investment structure of the Fund.

In administering the respective Funds, there are expenses directly related to the Funds. These expenses include the cost of the auditors' fees and other relevant professional fees, custodial charges, cost of distribution of interim and annual reports, tax certificates, reinvestment statements or distribution cheques (where applicable) and other notices to Unit Holders. In addition, there are expenses that are directly related and necessary to the business of the Funds as set out in the respective Deeds, such as commissions paid to brokers, other transaction costs and taxes, if any, that are also paid out of the respective Funds.

All expenses pursuant to the issuance of this master prospectus will be borne by the Manager.

4.3 Policy on Rebates and Soft Commissions

DF	CF	BF	MDF
CMF	MF	IBF	ICMF
DVEF	ATRF	USEF	

It is the Manager's policy to credit all rebates to the account of the respective Funds.

However, goods and services ("soft commissions") provided by any broker or dealer may be retained by the Manager or the fund manager only if the goods and services are of demonstrable benefit to the Unit Holders and in the form of research and advisory services that assist in the decision making process relating to the Funds' investments, such as research materials and computer software, which are incidental to the investment management activities of the Funds and any dealing with the broker or dealer is executed on terms which are the most favourable for the Funds.

4.4 Goods and Services Tax ("GST")

DF	CF	BF	MDF
CMF	MF	IBF	ICMF
DVEF	ATRF	USEF	

All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties (including but not limited to GST) as may be imposed by the government from time to time.

There are fees and charges involved and investors are advised to consider them before investing in the Funds.

5. TRANSACTION INFORMATION

5.1 Pricing Policy

The Manager adopts a single pricing policy, i.e. the Selling Price and the Repurchase Price is the Net Asset Value per Unit.

5.2 Computation of Purchase of Units

DF	CF	BF	MDF
CMF	MF	IBF	ICMF
DVEF	ATRF	USEF	

The selling price shall be the Net Asset Value per Unit as at the next valuation point of the Fund's relevant Business Day after the request for Units is received by the Manager ("forward pricing"). A Sales Charge will be calculated and charged separately.

Illustration: Computation of selling price

The following is an illustration using hypothetical figures:

Daily Net Asset Value	RM44,097,264.66
Units in circulation	33,756,000
Net Asset Value per Unit	<u>RM44,097,264.66</u> <u>33,756,000</u>
	= RM1.3064*

Say, an investor makes an investment of RM10,000.00 at the selling price of RM1.3064 and the distributor levies a sales charge of 5.00%, the investor will pay a total of RM10,530.00 as follows:

Investment amount	=	RM 10,000.00
Add:		
Sales charge levied by the distributor @ 5.00%	=	RM 500.00
GST ¹ (6% of RM500.00)	=	RM 30.00
Total amount paid by the investor	=	<u>RM 10,530.00</u>

The investor will be allotted with 7,654.62 units calculated as follows:

$$\text{Units allotted is calculated as } \frac{\text{RM10,000.00}}{\text{RM1.3064}^*} = 7,654.62 \text{ units}^{**}$$

*Unit price is rounded to the nearest 4 decimal places.

**Units computed are rounded to the nearest 2 decimal places.

¹The implementation of GST is effective 1 April 2015 at the rate of 6% and the fees and charges payable are exclusive of GST.

5.3 Computation of Redemption of Units

DF	CF	BF	MDF
CMF	MF	IBF	ICMF
DVEF	ATRF	USEF	

The repurchase price shall be the Net Asset Value per Unit as at the next valuation point of the Fund's relevant Business Day after the request for repurchase is received by the Manager ("forward pricing"). The Manager will not impose any Repurchase Charge on the redemption amount except for **BF** and **IBF**. For **BF** and **IBF**, a Repurchase Charge of up to 1.00% of the NAV per Unit will be levied if a Unit Holder redeems his investments on or before the first year of investment. Thereafter, no Repurchase Charge will be imposed.

Illustration: Computation of repurchase price

The following is an illustration using hypothetical figures:

Daily Net Asset Value	RM47,992,019.47
Units in circulation	47,238,000
Net Asset Value per Unit	<u>RM47,992,019.47</u> <u>47,238,000</u>
	= RM1.0160*

Say, an investor redeems of 9,842.52 units of the Fund at the repurchase price of RM1.0160 (which is the Net Asset Value per Unit as at the next valuation point), he would receive proceeds of redemption of RM9,900.00 as follows:

Redemption amount (9,842.52 units x RM1.0160)	=	RM 10,000.00
Less:		
Repurchase charge of 1.00%	=	RM (100.00)
GST ^{1a}	=	Nil
Net amount payable to the investor	=	<u>RM 9,900.00</u>

*Unit price is rounded to the nearest 4 decimal places.

^{1a} The implementation of GST is effective 1 April 2015 at the rate of 6% and the fees and charges payable are exclusive of GST. The repurchase charge herein is a penalty in nature and is not subject to GST. However, the Manager reserves the right to charge GST without prior notification to investor when directed to do so by the Royal Malaysian Customs or when there is a change in the interpretation of the nature of the repurchase charge by the Royal Malaysian Customs.

5.4 Pricing Error Policy

DF	CF	BF	MDF
CMF	MF	IBF	ICMF
DVEF	ATRF	USEF	

The Manager shall ensure that the Funds and the Units are correctly valued and priced according to the respective Deeds and all relevant laws. Where there is an error in the valuation of the Funds, any incorrect pricing of Units which is deemed to be significant will involve the reimbursement of money in the following manner:

- (a) by the Manager to the respective Funds, and/or to the Unit Holders and/or to the former Unit Holders; or
- (b) by the respective Funds to the Manager.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the Net Asset Value per Unit and the amount to be reimbursed is equivalent to RM10.00 or more.

5.5 Selling and Repurchase Price of Transaction

DF	CF	BF	MDF	MF
IBF	DVEF	ATRF	USEF	

A transaction of Units by an investor or Unit Holder is considered as carried out on a particular Business Day only if the payment together with completed application form and relevant supporting documents are received by the Manager not later than 4:00 p.m. (or such other time as the Manager may deem fit in its discretion) on that same Business Day. In the event the same is only received by the Manager after 4:00 p.m. (or such other time as the Manager may deem fit in its discretion), the transaction is considered as carried out on the immediate following Business Day. Any payment made on a non-Business Day shall be treated as payment made on the following Business Day.

Applications for redemption must be submitted to the Manager on a Business Day no later than 4:00 p.m. Such redemption requests are deemed received only if all documents and forms received by the Manager are duly and correctly completed. Any documents and forms received by the Manager after 4:00 p.m. on a Business Day shall be treated as having been received by the Manager on the immediate following Business Day.

Notwithstanding the preceding paragraphs above, the business hours, payment cut-off time and payment system of the IUTAs are subject to the internal policies of the respective IUTAs.

5.6 Transaction Details

(a) How to Purchase and Redeem Units

DF	CF	BF	MDF	MF
IBF	DVEF	ATRF	USEF	

When purchasing Units, investors must forward the following:

- 1) completed application form (account application form and purchase/switch form);
- 2) necessary remittance; and
- 3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant)

to the Manager's registered/principal office or any of its branch offices, or to any of its authorised sales agents or participating Institutional Unit Trust Advisers (IUTAs) before their respective cut-off times.

The minimum initial investment of each Fund is RM1,000.00 and the minimum additional investment is RM100.00 (or such other lower amount as the Manager may from time to time accept).

Please refer to our Directory of Outlets for Purchase and Sale of Units at the end of this master prospectus.

Similarly, Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its authorised sales agents or participating IUTAs before their respective cut-off times.

There are no restrictions on the number of Units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of Units if the balance of Units held after the redemption is less than one thousand (1,000) Units or such other lower quantity as the Manager may from time to time decide (the minimum investment balance) for **DF**, **CF**, **MDF**, **BF**, **IBF** and **MF** or less than two thousand (2,000) Units or such other lower quantity as the Manager may from time to time decide (the minimum investment balance) for **DVEF**, **ATRF** and **USEF**. For the avoidance of doubt, the Manager will deem an automatic request for a full repurchase of Units to have been made by the Unit Holder should a request for partial redemption leave the balance of Units held after the redemption less than the applicable minimum holding.

For **USEF** and **ATRF**, all repurchase of Units may be subject to such limit on the number of Units which can be repurchased by a Unit Holder on a Business Day. In the event that the respective target fund imposes a suspension of or limit on the number of units which can be redeemed from it, this would result in several repurchase prices being computed. Each Unit Holder will therefore be paid on a staggered basis based on the repurchase prices calculated at each valuation point when the staggered payment request is met by the respective target fund until the full redemption amount so requested by such Unit Holder can be completed. As such, the full redemption proceeds will be paid to the Unit Holder within fifteen (15) Business Days after the request for repurchase of Units is received by the Manager or after five (5) Business Days of such other extended period as may be imposed by the respective target fund.

If such a suspension is imposed by the respective target fund, the Manager will inform the affected Unit Holders within two (2) Business Days after the date of the Manager being notified in writing of such suspension and/or such extension in the suspension period imposed by the target fund.

CMF**ICMF**

When purchasing Units, investors must forward the following:

- 1) completed application form (account application form and purchase/switch form);
- 2) necessary remittance; and
- 3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant)

to the Manager's registered/principal office or any of its branches, or to any of its authorised sales agents or participating Institutional Unit Trust Advisers (IUTAs) before their respective cut-off times.

The minimum initial investment of each Fund is RM100,000.00 for institutional investors and RM50,000.00 for retail investors or multiples thereof and the minimum additional investment is RM50,000.00 for institutional investors and RM25,000.00 for retail investors or multiples thereof (or such other lower amount as the Manager may from time to time accept).

Please refer to our Directory of Outlets for Purchase and Sale of Units at the end of this master prospectus.

Similarly, Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any its authorised sales agents or participating IUTAs before their respective cut-off times.

Redemption monies will be paid by the following Business Day after receipt by the Manager of the request to repurchase Units.

There are no restrictions on the number of Units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of Units if the balance of Units held after the redemption is less than one hundred thousand (100,000) Units for an institutional investor or less than fifty thousand (50,000) Units for a retail investor or such other lower quantity as the Manager may from time to time decide (the minimum investment balance). For the avoidance of doubt, the Manager will deem an automatic request for a full repurchase of Units to have been made by the Unit Holder should a request for partial redemption leave the balance of Units held after the redemption less than the applicable minimum holding.

(b) Cooling-off Period

DF	CF	BF	MDF
CMF	MF	IBF	ICMF
DVEF	ATRF	USEF	

The cooling-off right refers to the right of an individual investor to obtain a refund of investor's investment if the investor so requests within the cooling-off period. The cooling-off right is only given to an individual investor, other than those listed below, who is investing in any unit trust fund managed by the Manager for the first time:

- (i) a staff of the Manager; or
- (ii) a person registered with a body approved by the SC to deal in unit trust funds.

The refund to the investor pursuant to the exercise of investor's cooling-off right shall not be less than the sum of:

- a) the Net Asset Value per Unit on the day the Units were purchased; and
- b) the Sales Charge originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) Business Days[#] which shall be effective from the date of receipt of the application by the Manager. During this cooling-off period, should a Unit Holder change his mind about the investment, he may exercise his cooling-off right via a letter and shall be paid within ten (10) days of the receipt of the cooling-off notice by the Manager. Where applicable, for investors contributing from their EPF accounts, the cooling-off period shall be subject to EPF's terms and conditions.

[#]These are the working days when the Manager is open for business.

The cooling-off right allows investors the opportunity to reverse an investment decision which could have been unduly influenced by certain external elements or factors.

Withdrawal proceeds will only be paid to the investors once the Manager has received cleared funds for the original investment. For investors who paid by cheque, the refund will be made upon clearance of the cheque. Where applicable, for EPF investors, the refund will be credited back into their respective EPF accounts only after funds have been received from the EPF.

(d) How to Switch between Funds

Investors may switch between unit trust funds under the management of the Manager that allow switching of units by forwarding the completed form of request to switch to the Manager's registered/principal office or any of its branch offices, or to any of its authorised sales agents or participating IUTAs before their respective cut-off times. There are no restrictions as to the number of switches a Unit Holder may perform or the frequency of switching. Following a switch transaction, if the quantity of holdings of a Unit Holder in a Fund falls below its minimum holding, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder. The Manager however, reserves the right to vary these terms.

(e) How to Transfer Ownership of Units

Investors may transfer their holdings of Units to another investor by forwarding the completed form of transfer to the Manager's registered/principal office or any of its branch offices or to any of its authorised sales agents or participating IUTAs before their respective cut-off times.

If the transferee is a new investor, he must also forward the following:

- 1) completed application form; and
- 2) relevant supporting documents such as a photocopy of his identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant).

Following a transfer transaction, if the quantity of holdings of a Unit Holder in a Fund falls below its minimum holding, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.

(f) Unclaimed Monies

All money payable to a Unit Holder may be paid by cheques. In the event any of the cheques is not presented for payment by the date which falls six (6) months from the date of the cheque, the Unit Holder may request the Manager to arrange for the monies to be paid by a replacement cheque to the Unit Holder. However, after the lapse of one (1) year from the date of the cheque, the Manager shall file and pay the unrepresented payments to the Registrar of Unclaimed Moneys and Unit Holders will have to liaise directly with the Registrar of Unclaimed Moneys to claim their monies.

(g) Availability of Information on Investment

After purchasing Units, the value of the investment can be monitored easily as the unit price of the respective Funds are published daily in the major newspapers and at our website, **www.rhbgroup.com**. The Manager will ensure the accuracy of the price of the respective Funds to the press for publication. The Manager, however, will not be held liable for any error or omission in the price published as this is beyond the Manager's control. In the event of any conflict between the price published and the price computed by the Manager, the Manager's computed price shall prevail.

Unit Holders will receive, in respect of the Funds in which they hold Units, an unaudited half year report and an audited annual report of the Fund from the Manager within two (2) months after the end of the financial period/financial year end that the report covers. The Manager may also issue updates either quarterly or semi-annually, on the performance of the Funds as and when appropriate.

In addition, the Manager has a help-desk service specially set-up to assist customers and investors in their enquiries pertaining to their investments. 6. SALIENT TERMS OF THE DEED

6.1 Rights and Liabilities of Unit Holders

6.1.1 Recognition of Unit Holders

Money invested by an investor in the Funds will purchase a number of Units, which represents the Unit Holder's interest in the Funds. Each Unit held in the Funds represents an equal undivided beneficial interest in the assets of the Funds. However, the Unit does not give a Unit Holder an interest in any particular part of the Funds or a right to participate in the management or operation of the Funds (other than through Unit Holders' meetings).

A Unit Holder will be recognised as a registered Unit Holder in the Funds on the Business Day his or her details are entered onto the register of Unit Holders.

6.1.2 Rights of Unit Holders

A Unit Holder has the right, among others, to the following:

- To inspect the register of Unit Holders, free of charge, at any time at the registered office of the Manager, and obtain such information pertaining to its Units as permitted under the relevant Deed and the Guidelines on Unit Trust Funds ("Guidelines");
- To receive the distribution of the Funds (if any), participate in any increase in the value of the Units and to other rights and privileges as set out in the relevant Deed;
- To call for Unit Holders' meetings;
- To vote for the removal of the Trustee or the Manager through a special resolution;
- To receive annual reports, interim reports or any other reports of the Fund; and
- To exercise cooling-off for qualified investors.

Unit Holders' rights may be varied by changes to the Deed, the Guidelines or judicial decisions or interpretation.

6.1.3 Liabilities and Limitations of Unit Holders

Liabilities

- (i) The liability of a Unit Holder is limited to the purchase price per Unit and the application fee paid or agreed to be paid for a Unit. A Unit Holder need not indemnify the Trustee or the Manager if there is a deficiency in the assets of the Fund to meet the claim of any creditor of the Trustee or Manager in respect of the Fund.
- (ii) The recourse of the Trustee, the Manager and any creditor is limited to the assets of the Fund.

Limitations

A Unit Holder cannot:

- (i) interfere with any rights or powers of the Manager and/or Trustee under the relevant Deed;
- (ii) exercise a right in respect of an asset of the Fund or lodge a caveat or other notice affecting the asset of the Fund or otherwise claim any interest in the asset of the Fund; or
- (iii) require the asset of the Fund to be transferred to the Unit Holder.

For full details of the rights of a Unit Holder, please refer to the relevant Deeds.

(“FUNDS”) DATED 15 JULY 2017 (“MASTER PROSPECTUS”)

This letter has been prepared for inclusion in the master prospectus dated 15 July 2017 in connection with the offer of units in the above unit trust funds (“the Funds”):-

Taxation of the Funds

Income Tax

The Funds are treated as a unit trust for Malaysian tax purposes. The taxation of the Funds are therefore governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“the Act”).

Any reference to interest in the Act shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24% with effect from Year of Assessment (“YA”) 2016.

Investment income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments (whether local or foreign) by the Funds will not be subject to tax in Malaysia.

Any income received by the Funds from a Sukuk Issue which has been issued by the Malaysia Global Sukuk Inc will be exempt from tax.

Any income received by the Funds from a Sukuk Ijarah, other than convertible loan stock, issued in any currency by 1Malaysia Sukuk Global Berhad will be exempt from tax.

Discounts earned by the Funds from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government of Malaysia; or
- debentures or sukuks, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Deductions in respect of the Funds’ expenses such as manager’s remuneration, maintenance of a register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage are generally allowed based on a prescribed formula subject to a minimum of 10 percent and a maximum of 25 percent of the total of these expenses.

Single-tier Malaysian dividends received by the Funds are exempted from tax and expenses incurred by the Funds in relation to dividend income (which is paid or credited under the single-tier system) are disregarded.

Gains or profits earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government of Malaysia; or
- securities or bonds issued or guaranteed by the Government of Malaysia; or
- debentures or sukuks, other than convertible loan stock, approved or authorised by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013¹; or
- any development financial institution regulated under the Development Financial Institutions Act 2002¹; or
- Sukuks originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorised by, or lodged with, the Securities Commission (“SC”) or approved by the Labuan Financial Services Authority²; or

Note 1: Effective from YA 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with criteria as set out in the relevant guidelines of the Securities Commission.

Note 2: With effect from YA 2017, the income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

- A Sukuk Wakala, other than a convertible loan stock, issued in any currency by Wakala Global Sukuk Berhad; or
- A Sukuk Wakala issued in accordance with the principle of Wakala Bil Istithmar with the nominal value of up to one billion and five hundred million United States Dollars, other than a convertible loan stock, issued by the Malaysia Sovereign Sukuk Berhad.
- A Sukuk Wakala issued in accordance with the principle of Wakala with the nominal value up to one billion and five hundred million United States Dollars, other than convertible loan stock, issued by the Malaysia Sukuk Global Berhad (formerly known as 1Malaysia Sukuk Global Berhad).

Real Property Gains Tax (“RPGT”)

Gains on disposal of investments by the Funds will generally not be subject to income tax in Malaysia.

However, such gains may be subjected to RPGT in Malaysia, if the gains are derived from the sale of Malaysian real properties or shares in Malaysian real property companies (as defined). The gains on the disposal of the chargeable assets would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Goods and Services Tax (“GST”)

GST has been implemented in Malaysia with effect from 1 April 2015, at a standard rate of 6%. It replaced the Sales Tax and Service Tax.

The issue, holding or redemption of any unit under a trust fund is regarded as an exempt supply. The investment activities of the Funds such as buying and selling of securities are exempt supplies and thus not subject to GST. Thus, if the Funds are only making such exempt supplies, it is not required to be registered for GST.

However, certain expenses incurred by the Funds such as fund manager’s fees, trustee fees and professional fees will be subject to GST if the service providers are GST registered. If the Funds are only making exempt supplies (and thus not GST registered), any input tax incurred by the Funds for the aforementioned expenses are not claimable.

Taxation of Unit Holders

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder’s share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set-off against the tax payable by them.

Any excess over their tax liability will be refunded to the unit holders. No other withholding taxes will be imposed on the income distribution of the Funds.

With effect from YA 2016, corporate unit holders (resident or non resident in Malaysia), will be taxed at the corporate tax rate of 24%, on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds.

Resident corporate unit holders whose paid-up capital in the form of ordinary shares does not exceed RM2.5 million will be subject to a tax rate of 19% (effective from YA 2016) on chargeable income of up to RM500,000.

For chargeable income in excess of RM500,000, the tax rate of 24% (effective from YA 2016) is still applicable. However, the said tax rate of 19% (will be reduced to 18% with effect from YA 2017) on chargeable income of up to RM500,000 will not apply if more than 50% of the paid up capital in respect of ordinary shares of that company is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Pursuant to Income Tax (Exemption) (No. 2) Order 2017 [P.U.(A) 117], a tax exemption equivalent to a reduction in the corporate tax rate from 1% to 4% will be effectively given for YA 2017 and YA 2018 based on percentage of increase in the chargeable business income for the relevant YA as compared to the immediately preceding YA, subject to meeting the stipulated conditions.

Individuals and other non-corporate unit holders who are resident in Malaysia are generally subject to income tax at scaled rates. The scaled tax rates range from 0% to 28% with effect from YA 2016.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, will be subject to Malaysian income tax at the rate of 28% with effect from YA 2016. Non resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of single-tier dividends and other tax exempt income by the Funds will be exempted from tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempted from tax in the hands of the unit holders.

Units split by the Funds will be exempted from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfers or redemptions of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

The following gains or income received by the unit holders are not subject to GST:-

- the distribution of income from the Funds to the unit holders which may comprise of dividends, interest income and gain from realisation of investments;
- distribution of foreign income from the Funds;
- unit split by the Funds and reinvestment of distribution; and
- gain made from selling or redemption of units.

However, the following expenses incurred by the unit holders should be subject to GST if the supplier is GST registered:-

- any fee based charges in relation to buying of the units such as sales charge; and
- switching and transfer charges for switching or transferring the units.

The tax position is based on our understanding and interpretation of the Malaysian tax laws and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

- The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.

- Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan. If you have doubts in respect of any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

I / We acknowledge that I / We have read and understood the contents of the investment Loan Financing Risk Disclosure Statement. I / We do declare and represent that as at the date hereof, I / We am / are not an undischarged bankrupt nor has any petition for bankruptcy been filed against me/us. I also accept and acknowledge that RHB Asset Management Sdn Bhd has absolute discretion to reply on facsimile confirmation from me and undertake to indemnify and hold harmless RHB Asset Management Sdn Bhd, its employees and agents at all costs, expenses, loss of liabilities, claims and demands arising out of this confirmation.
