RHB CASH MANAGEMENT FUND 2

The Fund aims to provide investors a high level of liquidity while providing reasonable returns by predominantly investing its assets in Malaysian Ringgit deposits with financial institutions in Malaysia.

MANAGER'S COMMENTS

MARKET REVIEW

Malaysia Government Securities (“MGS”) was faced with profit taking activities which drove the yield curve higher amidst higher Fed Funds rate. The front of end of the yield curve faced the most pressure as higher inflation expectation (low base effect) was also mentioned in Bank Negara’s 2016 annual report (revised to 3 – 4%, from 2 – 3%). At close, the 3-, 5-, 7-, 10-, 15-, 20- and 30-year MGS were traded at 3.55% (February 2017: 3.35%), 3.83% (3.74%), 4.05% (3.93%), 4.15% (4.07%), 4.52% (4.48%), 4.67% (4.65%) and 4.82% (4.71%) respectively. Similar momentum was also observed in the Government Investment Issue (“GII”) as yields widened along the front and belly of the yield curve. The 3-, 5-, 7-, 10-, 15-, 20-year GII were last traded at 3.72% (February 2017: 3.61%), 3.94% (3.78%), 4.08% (3.96%), 4.13% (4.07%), 4.71% (4.57%) and 4.73% (4.67%).

On the local economic front, Bank Negara Malaysia’s (“BNM”) Monetary Policy Committee (“MPC”) maintained Overnight Policy Rate (“OPR”) at 3.00% with more upbeat global outlook supported by trade recovery. The central bank’s hawkish tone tilt rules out near term interest rate cut, but timing of hike would hinge on assessment of demand pull inflation, which is still absence judging from consumer sentiment. In the 2016 BNM annual report which was released in the same month, 2017 headline Consumer Price Index (“CPI”) forecast was revised up by 1% to 3 – 4% with upside risks. With the new Foreign Exchange Administration (“FEA”) measures, the Ringgit has largely stabilized which should lend support to the external reserves in 2H of 2017. Financial stability concerns also abated amidst moderating household debt to GDP ratio (from 89.1% in 2015 to 88.4% in 2016).

DISCLAIMER:
Based on the fund’s portfolio returns as at 15 March 2017, the Volatility Factor (VF) for this fund is 0.1 and is classified as “Very Low”. (source: Lipper) “Very Low” includes funds with VF that are above 0.0 but not more than 1.8 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund’s portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 31 December 2016 which is calculated once every six months and is valid until its next calculation date, i.e. 30 June 2017.
A Product Highlights Sheet (“PHS”) highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 3 August 2016 and its supplementary(ies) (if any) (“the Master Prospectus”) before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.
The Manager wishes to highlight the specific risks of the Fund are credit/default risk, inflation/purchasing power risk and returns are not guaranteed risk. These risks and other general risks are elaborated in the Master Prospectus.
This factsheet is prepared for information purposes only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive it. Past performance is not necessarily a guide to future performance. Returns may vary from year to year.
