Such capital distributions represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit of the Fund and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.”

DISTRIBUTION POLICY

The information in this section is hereby deleted in its entirety and replaced with the following:

“The Fund will distribute income (if any), on a semi-annual basis.

We have the discretion to distribute income on a more frequent basis, after taking into account the suitability of the distribution and the performance of the Fund.

At our discretion, the Fund may distribute (1) realised income, (2) realised capital gains (3) unrealised income, (4) unrealised capital gains or (5) a combination of any of the above. The rationale for distribution out of capital is to allow the Fund the ability to distribute income on a regular basis in accordance with the distribution policy of the Fund.

To achieve the Fund’s objective of providing a regular income and capital appreciation to investors, we will set the income distribution on a sustainable manner to minimize any material risk on future capital appreciation. We will strike a balance between income distribution and capital growth when deciding the next income distribution. Having the option to tap into additional sources of income from (3) unrealised income and/or (4) unrealised capital gains (collectively known as “distribution out of capital”) would give the Manager the flexibility to increase the distributable amount to Unit Holders after taking into consideration the distribution out of capital risk.

Distribution out of capital has a risk of eroding the capital of the Fund. Payment of distribution out of capital amounts to a return or withdrawal of part of an investor’s original investment or from any capital gains attributable to that original investment. Any distribution involving any payment out of capital of the Fund will result in an immediate reduction of the NAV per Unit. As a result, the value of future returns would be diminished.

You may elect the mode of distributions in cash payment or additional Units by way of reinvestment by ticking the appropriate column in the application form. You may also inform us, at any time, before the

THIS IS A FIRST SUPPLEMENTAL PROSPECTUS WHICH HAS TO BE READ IN CONJUNCTION WITH THE PROSPECTUS DATED 30 DECEMBER 2022

income distribution date, of your choice of distribution mode. All income distribution will be automatically reinvested into additional Units of the Fund if you do not elect the mode of distribution.

Distribution, which is less than or equal to the amount of MYR 300.00 would be automatically reinvested on behalf of the Unit Holders based on the NAV of the income payment date which is within two (2) Business Days after the income distribution date. Where a person ceases to be a Unit Holder after an income distribution is declared but before the distribution date, and therefore still entitled to the income distribution, that person shall be paid by cheque notwithstanding that that person had made a prior election to receive additional Units via reinvestment.

For Unit Holders who invest through the EPF-MIS, any income distribution made by the Fund will be considered as EPF savings and automatically be reinvested in the form of additional Units for the Unit Holders.

Reinvestment Process

Where a Unit Holder elects to receive income distribution by way of reinvestment, the Manager shall create Units for the Unit Holder based on the NAV of the income payment date which is within two (2) Business Days after the income distribution date.

There will not be any cost to investors for reinvestments in new additional Units.

Cash Payment Process

Income distribution by way of cash payment shall be made via telegraphic transfer where income will be transferred to the Unit Holder's bank account within seven (7) Business Days after the distribution date. Where the Units are held jointly, the payment can be transferred to a joint name bank account of principal Unit Holder and joint Unit Holder or to a sole name bank account of either the principal Unit Holder or the joint Unit Holder. The principal Unit Holder is the one who is first named in the Fund's register of Unit Holders.

Unit prices and distributions payable, if any, may go down as well as up."

The information in this section is hereby deleted in its entirety and replaced with the following:

“AHAM has in place policies and procedures to deal with any conflict of interest situations. Staff of AHAM are required to seek prior approval for personal investments before dealing in securities.

All transactions with related parties are to be executed on terms which are best available to the Fund and which are no less favourable to the Fund than an arm’s length transaction between independent parties. The tax advisers and solicitors have confirmed that they do not have any existing or potential conflict of interest with AHAM and/or the Fund.”

**THIS IS A FIRST SUPPLEMENTAL PROSPECTUS WHICH HAS TO BE READ IN CONJUNCTION
WITH THE PROSPECTUS DATED 30 DECEMBER 2022**

**AHAM Select Dividend Fund
Taxation of the Fund and Unit Holders**

1. This letter has been prepared for inclusion in the First Supplemental Prospectus (hereinafter referred to as “the First Supplemental Prospectus”) in connection with the offer for sale of units in the AHAM Select Dividend Fund (“the Fund”).

The following is general information based on Malaysian tax law in force at the time of lodging the First Supplemental Prospectus with the Securities Commission Malaysia (“SC”) and investors should be aware that the tax law may change at any time. The application of tax law depends upon an investor’s individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that investors consult their tax adviser regarding the specific application of the tax law relating to their specific tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund’s Trustee is a tax resident in Malaysia, the Fund is regarded as a tax resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“MITA”).

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Section 61(1)(b) of MITA provides that gains arising from the realisation of investments shall be treated as income of the trust body of the trust as gains or profits from the disposal of a capital asset, provided that such gains are not related to real property as defined under the Real Property Gains Tax (“RPGT”) Act, 1976.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single-tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying various tax incentives provided under the laws of Malaysia. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the MITA. Effective from 1 January 2022, Paragraph 28 of Schedule 6 of the MITA was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who is tax resident in Malaysia are considered tax residents of Malaysia and would not qualify for

THIS IS A FIRST SUPPLEMENTAL PROSPECTUS WHICH HAS TO BE READ IN CONJUNCTION WITH THE PROSPECTUS DATED 30 DECEMBER 2022

the exemption under the amended Paragraph 28 of Schedule 6 of the MITA.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022] both dated 19 July 2022 and took effect from 1 January 2022. Certain paragraphs in P.U.(A) 235/2022 have been amended via Income Tax (Exemption) (No. 6) Order 2022 (Amendment) Order 2024 [P.U.(A) 157/2024] dated 12 June 2024. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies, limited liability partnerships and companies incorporated under the Labuan Companies Act 1990 which have made an election under Section 3A of the Labuan Business Activity Tax Act 1990 to be charged to tax in accordance with the MITA; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period 1 January 2022 until 30 June 2022 is subject to tax at the rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered. Please note that claiming of bilateral credit and unilateral credit is subject to the approval of the Inland Revenue Board upon review of the requisite supporting documentation.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REITs”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction at the minimum of 10% of such expenses pursuant to Section 63B of the MITA.

2.2 Capital Gains Tax (“CGT”)

Based on the Finance (No. 2) Act 2023, effective 1 January 2024, CGT will be imposed on gains or profits from the disposal of capital assets. However, based on the Income Tax (Exemption)(No.7) Order 2023, there is a 2-months (January 2024 and February 2024) exemption provided for disposal made on or after 1 January 2024 to 29 February 2024 in respect of disposal of shares in companies incorporated in Malaysia not listed on the stock exchange.

Gains or profits from the disposal of a capital asset situated in Malaysia is exempted from tax. However, the exemption does not apply to disposal of unlisted shares of a company incorporated in Malaysia and disposal

of shares under Section 15C of MITA.

Following to the above, the Malaysian Inland Revenue Board (“MIRB”) has issued the Guidelines: Capital Gains Tax on Unlisted Shares dated 1 March 2024 (CGT Guidelines) [Available in Bahasa Malaysia only].

Additionally, the Income Tax (Exemption) (No. 3) Order 2024 [P.U.(A) 75/2024] provides that gains or profits from the disposal of foreign capital assets received in Malaysia by companies, limited liability partnerships, trust bodies, and co-operative societies resident in Malaysia, which are compliance according to the economic substance requirements (“ESR”), are given exemption from CGT from 1 January 2024 to 31 December 2026, was gazetted on 4 March 2024.

According to the P.U.(A) 75/2024, the ESR condition is subject to compliance with the conditions imposed by the Minister as specified in the Guideline on Tax Treatment on Gains From the Disposal of Foreign Capital Assets Received from Outside Malaysia. The ESR for the CGT exemption includes the following:

- (a) employ adequate number of employees with necessary qualifications to carry out the specified economic activities in Malaysia; and
- (b) incur adequate amount of operating expenditure for carrying out the specified economic activities in Malaysia.

Any deduction in relation to the gains or profits exempted from CGT shall be disregarded for the purpose of ascertaining the chargeable income of the company, limited liability partnership, trust body, and co-operative society.

The CGT rate charged on gains or profits from the disposal of foreign capital asset, unlisted shares and Section 15C shares is provided under Part XXI, Schedule 1 of the MITA. The CGT rate is as follows:-

Type of capital asset	CGT Rate
Unlisted Shares and Section 15C Shares acquired before 1 January 2024	<ul style="list-style-type: none">• 10% on chargeable income from disposal of unlisted shares and Section 15C shares; or• 2% of gross disposal price
Unlisted Shares and Section 15C Shares acquired on or after 1 January 2024	10% on chargeable income from disposal of unlisted shares and Section 15C shares

The Fund is required to electronically file the tax returns within 60 days from the date of each disposal. The CGT will be paid within 60 days from the date of disposal. The Fund is required to keep the records of the disposal for 7 years.

2.3 Gains on Disposal of Investments

Currently, gains on disposal of investments by the Fund, where the investments represent shares in real property companies, may be subject to RPGT under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

Disposal of other real properties will still be subject to RPGT Act, 1976.

2.4 Service Tax

**THIS IS A FIRST SUPPLEMENTAL PROSPECTUS WHICH HAS TO BE READ IN CONJUNCTION
WITH THE PROSPECTUS DATED 30 DECEMBER 2022**

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. However, effective from 1 March 2024, in accordance with the provisions of subsection 10(2) Service Tax Act 2018, the service tax for the above services would be subject to service tax at 8%. Non-resident Unit Holders may be subject to tax in their respective tax jurisdictions depending on the provisions of the relevant tax legislation in the jurisdiction they report their income taxes. Any Malaysian income tax suffered by non-resident Unit Holders may be eligible for double tax relief under the laws of the non-resident Unit Holder's jurisdiction subject also to the terms of the double tax agreement with Malaysia (if applicable).

3.2 Withholding Tax on Distribution from Retail Money Market Fund (“RMMF”) to Unit Holders

Distribution of income of a unit trust fund that is a RMMF to its Unit Holders (other than the distribution of interest income to non-individual Unit Holders) is exempted from tax in the hands of the Unit Holders. Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

Types of Unit Holders	Malaysian Tax Rates for Years of Assessment 2023 and 2024

▪ Withholding tax mechanism	▪ Income distribution carries a tax credit, which can be utilised to set off against the tax payable by the Unit Holders

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund’s distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder’s tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Currently, any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable. Unit Holders should consult their respective tax advisors based on their own tax profiles to determine whether the gain from sale, transfer or redemption of units would qualify as capital gains or trading gains.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 (“First Schedule”), only taxable services listed in the First Schedule are subject to service tax. Investment income or gains received by the Unit Holder are not prescribed taxable services and hence, not subject to Service Tax.

**THIS IS A FIRST SUPPLEMENTAL PROSPECTUS WHICH HAS TO BE READ IN CONJUNCTION
WITH THE PROSPECTUS DATED 30 DECEMBER 2022**

Currently, the legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 March 2024, in accordance with the provisions of subsection 10(2) Service Tax Act 2018, the aforementioned services would be subject to service tax at 8%.

We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in the Fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

GENERAL RISKS

➤ **Market risk**

Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.

➤ **Manager's risk**

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

➤ **Inflation risk**

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

➤ **Loan/ financing risk**

This risk occurs when you take a loan/financing to finance your investment. The inherent risk of investing with borrowed/financed money includes you being unable to service the loan/financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan/financing.

➤ **Operational risk**

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will regularly review our internal policies and system capability to mitigate this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.

➤ **Liquidity risk**

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund. Upon such an event and in the best interest of the Unit Holders, the Trustee may suspend the repurchase of Units requests.

➤ **Suspension of repurchase request risk**

Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

Investors should take into consideration the following risks associated with the securities/instruments invested by the Fund:-

➤ **Stock specific risk**

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

➤ **Credit and default risk**

Credit risk relates to the creditworthiness of the issuers of the debentures or money market instruments and the Financial Institutions where the deposits are placed (hereinafter referred to as "investment") and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer and/or the Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or a Financial Institution of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

➤ **Interest rate risk**

This risk refers to the impact of interest rate changes on the valuation of debentures or money market instruments (hereinafter referred to as "investment"). Generally, movement in interest rates affects the prices of investment inversely. For example, when interest rates rise, prices of investment will fall. The fluctuations of the prices of investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding investment until their maturity. We also manage interest rate risk by considering each investment's sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to interest rate changes. For investments in deposits, the fluctuations in the interest rates will not affect the placement of deposits but will result in the opportunity loss by the Fund if the placement of deposits is made at lower interest rate.

➤ **Country risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

➤ **Warrants investment risk**

The value of the warrants will depend on the pricing of the underlying security whereby the growth and performance prospect of the underlying security would consequentially affect the value of the warrants. In addition, the value of the warrants may decrease exponentially as the warrants approach its maturity date and the potential gains from a favourable price movement of the underlying may be offset by aggressive time decay. We may consider unwinding these warrants if there are material adverse changes to its value with the aim to mitigate the risk.

➤ **Currency risk**

As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

➤ **Political risk**

Changes in political environment can directly or indirectly impact investments of the Fund. For example, political instability that leads to social unrest could lead to disruption of economic activity which may impact the Fund's investments in that country. A change in government policies could also impact the Fund's investments. There is no requirement that a new government must be pro investment or that the existing government shall have the same investment policies in perpetuity. For example, a government may impose a moratorium on foreign investments in favour of nationalisation and this political decision may cause the Fund having to liquidate their investments at a less than ideal price or below market price.

➤ **Regulatory risk**

So long as the Fund continues to invest in a particular country, the Fund will be exposed to changes in the regulatory regime of that country. Changes in the national or economic policies or regulations of that country may have adverse effects on the capital market of that country. As such, it could adversely impact the Fund's investments in that country. An example of a regulatory regime that changes constantly is in respect of tax treatment of investment income. Investors should not presume that the tax treatment of a particular investment will be the same in perpetuity. A change in the tax treatment of an investment of the Fund may affect the Fund in a positive or a negative way. An increase in the tax treatment of a particular investment would mean lower returns for the Fund and vice versa. To mitigate the impact of regulatory risk, the Manager will seek to keep abreast of regulatory developments in that country that may potentially affect the investments of the Fund and attempt to pre-empt such changes and their potential impact to the Fund. Regulatory risk is also related to country and political risk.

RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks, operational risks and liquidity risks. The Board has established a board compliance & risk management committee to oversee AHAM's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three (3) Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's investment limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the person(s) or members of a committee undertaking the oversight function of the Fund to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.

We also have in place a credit risk management process to reduce counterparty risk of derivatives whereby such risk arises when the counterparty is not able to meet its contractual obligations. Prior to entering into a contract with the counterparty, we will conduct an evaluation on the credit standing of the counterparty to ensure that the counterparty is able to meet its contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the downgrade in the rating of the counterparty may lead to high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.

We also employ a performance attribution system that enable us to review the performance of the Fund to determine the key factors that have contributed to and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

We engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the portfolio's objective and strategy). We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its Short term expenses including repurchase requests by the Unit Holders.

Liquidity Risk Management

We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies take into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:

- a) The Fund may hold a maximum of 30% of its NAV in money market instruments and/or deposits. This will allow the Fund to have sufficient buffer to meet the Unit Holders' repurchase request;
- b) Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile;
- c) Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Unit Holders' repurchase requests; and
- d) Suspension of repurchase requests from the Unit Holders under exceptional circumstances where the market value or fair value of a material portion of the Fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager, having considered the best interests of Unit Holders.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

As there are no direct indices to track a similar strategy that the Fund intends to employ, thus a composite benchmark of the underlying broad exposure of the Fund has been chosen as the Fund's benchmark.

70% of the benchmark is derived from the FTSE Bursa Malaysia Top 100 Index, which is in line with the Fund's expected Long term asset allocation of 70% of the Fund's NAV invested domestically. The remaining 30% of the benchmark is derived from the MSCI AC Asia Pacific ex Japan High Dividend Yield Index as the Manager expects over the Long term to invest 30% of the Fund's NAV in foreign equities listed within the Asia-Pacific region.

The Manager is of the opinion that the composite benchmark matches the risk profile attributable to this Fund.

You may obtain information on the performance of the benchmark from the Manager upon request.

ASSET ALLOCATION

Equities	70% - 100%
Debentures, money markets instruments and deposits	0% - 30%

INVESTMENT STRATEGY

The Fund will focus on achieving its objective by investing in a portfolio consisting a minimum of 70% of its NAV in equities, while the remaining balance may be invested into debentures, money market instruments and deposits with Financial Institutions.

As the Fund holds a domestic focus, we will maintain a minimum of 70% of the Fund's investments in the domestic market and holds the flexibility to invest up to 30% of its NAV in investments listed / issued in the Asia-Pacific region.

The investment selection process will include dividend paying companies that are able to provide a steady income stream to the Fund. As such, we would adopt a bottom-up strategy where individual stock analysis forms the primary building blocks for portfolio construction and stock selection. The Fund focuses on higher dividend paying sectors where cash flows are more resilient towards the broader market environment, examples of which include utility companies. Similarly, the Fund will also look at selected lower dividend yielding stocks with prospects of growing its dividends to achieve an element of capital growth in addition to dividend yield on a total return basis. Key factors which are useful to the identification of such companies would include sales and profit growth, financial strength and gearing levels, capital expenditure levels as well as management commitment to rewarding shareholders via dividends or capital repayments. The dividends provided by these companies would be the primary source of income from which the Fund would then declare income distributions to you.

The Fund intends to adopt a two-part approach whereby a portion of the Fund's investments will be focused towards stable and high-dividend yielding equities and the other portion will be invested in "the next dividend leaders". These are equities which we believe could, in the Medium term, potentially start paying high dividends or substantially increase the existing dividend payouts. The determination of proportion between the two parts will be driven by prevailing opportunities in the markets and premised on achieving the overall Fund's objective of providing regular income (as a priority) and capital growth over the medium to long term. However, as the Fund's primary objective is to provide regular income, there is a natural bias towards holding more of the stable and high dividend yielding equities.

While the Fund's core investments will remain in equities, the Fund holds the option to invest in fixed income instruments such as debentures, money market instruments and deposits. The selection of fixed income instruments will depend largely on its credit quality where the respective issuers will have strong ability to meet their financial obligations, healthy cash-flow, the collateral type, value, claims priority as well as offer highest safety for timely payment of interest and principal.

To achieve its objective, the Fund will also have the flexibility to invest in unlisted securities, warrants as well as collective investment schemes.

Foreign Investment

The Fund may invest up to 30% of its NAV in investments listed / issued in foreign markets. The decision to invest in foreign equities will be opportunistically driven where the Manager would seek out attractive dividend equities that could provide potential to enhance the returns of the Fund. The Fund will only invest in countries which are eligible markets.

Derivatives

Derivative trades may be carried out for hedging purposes, through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date. Swaps, whereas, is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to preserve the value of the asset from any adverse price movements. For example, to hedge against foreign currency exchange risk, the Fund may enter into a currency forward contract to offset any adverse foreign currency movements by determining an agreed rate for an agreed tenure with its counterparty. While the hedging transactions will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.

Temporary Defensive Position

We hold the option to take temporary defensive measures that may be inconsistent with the Fund's principal strategy, and asset allocation to protect the Fund against adverse market conditions. To manage the risk of the Fund, we may shift the Fund's focus into lower risk investments such as deposits with Financial Institutions or money market instruments.

Cross trades

AHAM may conduct cross trades between funds which it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of AHAM and the Fund's account(s) and between AHAM's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria are monitored by the compliance unit of the Manager, and reported to AHAM's compliance and risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on the investors.

Such extension must be subject to at least a monthly review by the Trustee.

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively. The valuation bases for the permitted investments of the Fund are as below:

➤ **Listed securities**

Valuation of investments in listed securities shall be based on the closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, the investments will be valued at fair value as determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Unlisted securities**

For unlisted MYR denominated debentures, valuation will be done using the price quoted by a bond pricing agency (“BPA”) registered with the SC. For non-MYR denominated debentures, valuation will be based on the average indicative price quoted by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

For other unlisted securities, valuation will be based on fair value as determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Deposit**

Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of such investments and the interests accrued thereon for the relevant period.

➤ **Money market instruments**

Valuation of MYR denominated money market instruments will be done using the price quoted by a BPA registered with the SC. For non-MYR denominated money market instruments, valuation will be done using an average of quotations provided by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

➤ **Collective investment schemes**

Unlisted collective investment schemes will be valued based on the last published repurchase price.

For listed collective investment schemes, valuation will be done in the similar manner used in the valuation of listed securities as described above.

➤ **Derivatives**

The valuation of derivatives will be based on the prices provided by the respective issuers. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporate all the relevant and available market data with respect to the derivatives (e.g. interest rates, movement of the underlying assets, volatility of the underlying assets, the correlation of the underlying assets and such other factors). For foreign exchange forward contracts (“FX Forwards”), interpolation formula is applied to compute the value of the FX Forwards based on the rates provided by Bloomberg or Reuters. If the rates are not available on Bloomberg or Reuters, the FX Forwards will be valued based on fair value as determined by us in good faith, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

The transfer must be made in terms of Units and not MYR value. There is no minimum amount of Units required to effect a transfer except that the transferor and transferee must hold the minimum holdings of Units to remain as a Unit Holder.

It is important to note that we are at the liberty to disregard or refuse to process the transfer application if the processing of such instruction will be in contravention of any law or regulatory requirements, whether or not having the force of law and/or would expose us to any liability.

The transfer facility is not applicable for EPF investors.

SUSPENSION OF DEALING IN UNITS

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units* due to exceptional circumstances, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealings in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

*The action to impose suspension shall only be exercised as a last resort by the Manager, as disclosed in the section on "Liquidity Risk Management".

DISTRIBUTION POLICY

The Fund will distribute income (subject to income availability), on a semi-annual basis after the end of its first financial year.

All income distribution will be made in the form of cash. However, you may, when filling up the application form for the purchase of Units, elect the mode of distributions in cash payment or additional Units by way of reinvestment by simply ticking the appropriate column in the application form. You may also inform us, at any time, before the income distribution date, of your choice of distribution mode. All income distribution will be automatically reinvested into additional Units of the Fund if you do not elect the mode of distribution in the account opening form.

Distribution, which is less than or equal to the amount of MYR 300.00 would be automatically reinvested on behalf of the Unit Holders based on the NAV of the income payment date which is within two (2) Business Days after the income distribution date. Where a person ceases to be a Unit Holder after an income distribution is declared but before the distribution date, and therefore still entitled to the income distribution, that person shall be paid by cheque notwithstanding that that person had made a prior election to receive additional Units via reinvestment.

Notwithstanding the above, we may also reinvest the distribution proceeds which remain unclaimed after twelve (12) months from the date of payment, provided that you still have an account with us.

For Unit Holders who invest through the EMIS, any income distribution made by the Fund will be considered as EPF savings and automatically be reinvested in the form of additional Units for the Unit Holders.

Reinvestment Process

Where a Unit Holder elects to receive income distribution by way of reinvestment, the Manager shall create Units for the Unit Holder based on the NAV of the income payment date which is within two (2) Business Days after the income distribution date.

There will not be any cost to investors for reinvestments in new additional Units.

Cash Payment Process

Income distribution by way of cash payment shall be made via telegraphic transfer where income will be transferred to the Unit Holder's bank account within seven (7) Business Days after the distribution date. Where the Units are held jointly, the payment can be transferred to a joint name bank account of principal Unit Holder and joint Unit Holder or to a sole name bank account of either the principal Unit Holder or the joint Unit Holder. The principal Unit Holder is the one who is first named in the Fund's register of Unit Holders.

Unit prices and distributions payable, if any, may go down as well as up.

UNCLAIMED MONEYS

Any monies payable to you which remain unclaimed after twelve (12) months from the date of payment will be dealt as follows:-

REPURCHASE CHARGE

There will be no Repurchase Charge levied on any repurchase of Units of the Fund.

SWITCHING FEE

The Manager does not impose any switching fee. FEES AND EXPENSES

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 1.50% per annum of the NAV of the Fund (before deducting the management fee and trustee fee). This fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 200 million for that day, the accrued management fee for that day would be:

$$\frac{\text{MYR } 200,000,000 \times 1.50\%}{365 \text{ days}} = \text{MYR } 8,219.18 \text{ per day}$$

ANNUAL TRUSTEE FEE

The Fund pays an annual trustee fee of up to 0.08% per annum of the NAV of the Fund (excluding foreign custodian fees and charges) (before deducting the management fee and trustee fee). In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 200 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{MYR } 200,000,000 \times 0.08\%}{365 \text{ days}} = \text{MYR } 438.36 \text{ per day}$$

Expenses related to the issuance of this Prospectus will be borne by the Manager.

Accordingly, any rebate or shared commission will be directed to the account of the Fund.

The soft commissions can be retained by us or our delegates provided that:-

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we or our delegates will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

All fees and charges payable by you are subject to all applicable taxes and/or duties as may be imposed by the government and/or the relevant authorities from time to time.

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point. The NAV per Unit is the NAV of the Fund divided by the number of Units in Circulation, at the same valuation point.

Please refer to the "Valuation Point For The Fund" section of this Prospectus for an explanation of the valuation point.

Illustration on the computation of NAV and NAV per Unit for a particular day:-

Units in Circulation	300,000,000.00
	MYR
Investments	195,000,000.00
Add other assets	5,700,000.00
Gross asset value	200,700,000.00
Less: Liabilities	700,000.00
NAV (before deduction of management fee and trustee fee for the day)	200,000,000.00
Less: Management fee for the day	8,219.18
Less: Trustee fee for the day	438.36
NAV	199,991,342.46
NAV per Unit*	0.6700

* NAV per Unit is derived from the NAV divided by Units in Circulation.

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price, which are the NAV per Unit for the Fund as at the next valuation point after we receive the purchase request or repurchase request.

Calculation of Selling Price

For illustration purposes, let's assume the following:

Investment Amount	MYR 10,000.00
Selling Price per Unit	MYR 0.50
Number Of Units Received*	MYR 10,000 ÷ MYR 0.50 = 20,000 Units
Sales Charge	5.50%
Sales Charge Paid By Investor**	5.50% x MYR 0.50 x 20,000 Units = MYR 550
Total Amount Paid By Investor***	MYR 10,000 + MYR 550 = MYR 10,550

Formula for calculating:-

* Number of Units received	=	$\frac{\text{Investment Amount}}{\text{Selling Price per Unit}}$
** Sales Charge paid by investor	=	Sales Charge x Selling Price per Unit x Number of Units received
*** Total amount paid by investor	=	Investment Amount + Sales Charge paid by investor

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

Units Repurchased	20,000 Units
Repurchase Price per Unit	MYR 0.50
Repurchase Amount^	20,000 Units x MYR 0.50 = MYR 10,000
Repurchase Charge	0.00%
Repurchase Charge Paid By Investor^^	0.00% x MYR 10,000 = MYR 0.00
Total Amount Received By Investor^^^^	MYR 10,000 - MYR 0.00 = MYR 10,000

Formula for calculating:-

^ Repurchase Amount	=	Unit repurchased x Repurchase Price per Unit
^^ Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase Amount
^^^^ Total amount received by investor	=	Repurchase Amount - Repurchase Charge paid by investor

Dear Sirs

AHAM Select Dividend Fund (f.k.a Affin Hwang Select Dividend Fund)

Taxation of the Fund and Unit Holders

1. This letter has been prepared for inclusion in the Replacement Prospectus ("Replacement Prospectus") in connection with the offer of units in the AHAM Select Dividend Fund ("the Fund").

The following is general information based on Malaysian tax law in force at the time of lodging the Replacement Prospectus with the Securities Commission Malaysia ("SC") and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor's individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund's Trustee is a resident in Malaysia, the Fund is regarded as a resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA").

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single-tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the MITA. Effective from 1 January 2022, Paragraph 28 of Schedule 6 of the MITA was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who is tax resident in Malaysia are considered tax residents of Malaysia and would not qualify for the exemption under the amended Paragraph 28 of Schedule 6 of the MITA.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022] on 19 July 2022 which took effect from 1 January 2022. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies and limited liability partnerships; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period from 1 January 2022 until 30 June 2022 is subject to the tax rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REITs”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. The Fund would not be required to pay Service Tax on the acquisition of fund management services from the Fund Manager.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund. No withholding tax will be imposed on the income distribution of the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia:-

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

3.2 Withholding Tax on Distribution from Retail Money Market Fund (“RMMF”) to Unit Holders

Distribution of income of a unit trust fund that is a RMMF to its Unit Holders (other than the distribution of interest income to non-individual Unit Holders) is exempted from tax in the hands of the Unit Holders. Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

Types of Unit Holders	Malaysian Tax Rates for Year of Assessment 2022
Non-individual residents:	
<ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Income distribution carries a tax credit, which can be utilised to set off against the tax payable by the Unit Holders ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income
Non-individual non-residents:	
<ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Withholding tax deducted will be regarded as a final tax ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund’s distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 ("First Schedule"), only taxable services listed in the First Schedule are subject to service tax. This excludes any investment income or gains received by the Unit Holder as such income and gains are not prescribed taxable services.

The legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 January 2019, the imposition and scope of service tax has been widened to include any imported taxable service.

We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.
