PRODUCT HIGHLIGHTS SHEET

KAF DANA ADIB

Name of Fund	KAF Dana Adib.
Fund Category	Equity (Islamic).
Fund Type	Growth.
Commencement Date	25 March 2004.
Capital Protected / Guaranteed	No.

PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

This Fund is suitable for investors who:

- seek high capital appreciation over a longer period of time and do not expect any dividend or regular income from Shariah-compliant investment;
- willing to accept moderate to high risk tolerance; and
- prefer to invest in Shariah-compliant securities.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

The Fund's investment objective is to attain capital growth in the medium to long term through investing in securities listed in the Malaysian equities market whilst abiding by Shariah principles.

Investment Strategy

Investment policy and strategy

Asset allocation:

The strategic limit on asset allocation of the Fund is as follows:

Shariah-compliant equities	Minimum 70% and maximum 90%
Sukuk and Islamic liquid assets	Minimum 10% and maximum 30%

In selecting **Shariah-compliant equities**, the Manager will combine both top-down and bottom-up approach after having ascertained the direction of the economy. The focus will be on value and growth Shariah-compliant equities. The Fund will also invest in Islamic money market instruments for cash management purposes. All investments will adhere strictly to Shariah requirements. Shariah-compliant equities investments are subject to specific stock risk, market risk and Shariah status reclassification risk. The Manager aims to reduce all these risks by using diversification that is expected to reduce the market volatility.

Accordingly, the principal valuation for Shariah-compliant equities selection preferred by the Manager will comprise the following attributes:

- High earnings per share growth potential;
- Low price earnings to growth ratio;
- Strong balance sheets;
- Focused management team;
- Relatively high-dividend yield; and
- Sustainable financial performance potential.

The Fund's asset allocation strategy is dependent on the state of the economy as perceived by the Manager after going through the investment process. The asset allocation may swing very widely in exceptional circumstances, i.e. the Asian Financial Crisis of 1997/98 being a prime example, but the Fund's Shariah-compliant equity exposure is expected to be within 70% to 90% in normal economic and investment circumstances. A portion of the Fund may be utilised for short-term trading from time to time as and when

opportunities arise. Opportunities may include but are not limited to arbitrage situations, discrepancies in valuation, expected liquidity surge and thematic plays.

The Manager may invest directly in Shariah-compliant equities and sukuk and/or may invest through other Islamic collective investment schemes if those investment objectives complement the Fund's objective and enhance the return of the Fund.

The Manager will invest in Islamic derivatives for hedging purposes, when appropriate. Such investments shall be made in Islamic futures and Islamic options or any other Islamic derivatives that may be allowable by the relevant authorities from time to time. For the purposes of the Fund's investment in Islamic derivatives, the global exposure will be calculated using commitment approach to ensure it does not exceed the Fund's NAV. The global exposure of the Fund to Islamic derivatives is calculated as the sum of the:

- absolute value of the exposure of each individual Islamic derivative not involved in netting or hedging arrangements;
- absolute value of the net exposure of each individual Islamic derivative after netting or hedging arrangement; and
- the values of cash collateral received pursuant to the reduction of exposure to counterparties of over-the-counter (OTC) Islamic derivatives.

The Fund will at all times place/invest its non-equity investments in Islamic money market. The tenure of Islamic deposits shall vary in accordance to the Manager's outlook of the stock market.

The Fund will at all times place/invest its cash in Islamic money market, Government Investment Issues ("GII") and/or sukuk rated at least "BBB" by RAM or other approved rating agencies. These sukuk are mainly subject to interest rate risk and the credit risk.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

Specific risks of the Fund

- *Specific stock risk*
Specific stock risk can be associated with the shift in consumer taste, advertising campaigns, lawsuits and competitive industry conditions. It can be mitigated by diversifying the Fund's investment over more companies in various segments of the economy, which operate independently from one another. Failing to achieve the expected earnings would result in the stock price declining, which in turn will affect the performance of the Fund. Specific stock risk is mitigated by exercising prudence in stock selection.
- *Shariah status reclassification risk*
 - (a) Shariah-compliant equity securities
This risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SACSC or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such securities.
Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposals of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:
 - (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of

reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SACSC or the date of review (“Review”) by the Shariah Adviser. The Fund is allowed to keep dividends received up to the effective date of Reclassification or Review and capital gains from the disposal of the securities on the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification or Review should be channeled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser;

- (ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser; or
 - (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund’s value.
- (b) Sukuk or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income securities or money market instruments or deposits or collective investment schemes.

Please be advised that if a Unit Holder invests in units through an IUTA which adopts the nominee system of ownership, the Unit Holder would not be considered to be a Unit Holder under the deed and the Unit Holder may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder’s meeting and to vote thereat and the right to have the Unit Holder’s particulars appearing in the register of Unit Holders of the Fund.

VALUATIONS AND EXITING FROM INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund will be valued at least once every Business Day. The valuation of the Fund will be conducted at the close of Bursa Malaysia for that Business Day.

From time to time, Unit Holders will be able to obtain the unit price of the Fund as published in the major newspaper and at our website, www.kaf.com.my to monitor their investments. Unit Holders may also obtain the latest NAV per unit by contacting the Manager directly.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Unit Holders may redeem their investments in the Fund by completing the prescribed repurchase request form and returning it to the Manager before the cut-off time of 4:00 p.m. on a Business Day. Any repurchase request received after 4:00 p.m. on a Business Day, will be considered to be received on the next Business Day.

There are no restrictions on the number of units a Unit Holders can redeem out of his investments and no restrictions on the repurchase frequency.

If following a repurchase request leaves the Unit Holder with less than 500 units or such other lower quantity as the Manager may decide from time to time (the minimum investment balance), the Manager has the option to liquidate the balance of the units held in the Unit Holder's account and forward the proceeds to the Unit Holder. Repurchase proceeds will be paid within seven (7) Business Days from the date on which the repurchase request is received by the Manager.
