Unit prices for this Fund may go down as well as up. The Fund is exposed to a variety of risks due to the nature of the investment strategy of the Fund. As such, the Fund does not provide any guarantee on the investment amount nor does it guarantee a fixed rate of return.

KEY RISKS

6. What are the key risks associated with this product?

Investors are advised to read the Fund's prospectus and understand the risks involved and if necessary, consult a professional adviser for a better understanding of the risks before investing.

General Risks related to the Fund

| | |
|-----------------------|---|
| Market Risk | Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value. |
| Manager's Risk | This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund. |

| | |
|--------------------------------------|--|
| Liquidity Risk | Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If a fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund and consequently the value of unit holders' investments in the fund will be negatively affected when it has to sell such assets at unfavourable prices. |
| Inflation Risk | This is the risk that investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased. |
| Non-Compliance Risk | This refers to the current and prospective risk to the unit trust fund and the investors' interest arising from non-compliance of regulations imposed by the Capital Markets and Services Act 2007 and the guidelines, deeds, prospectuses and/or manager's internal policies and procedures by the manager. Risk of non-compliance can lead to diminished reputation, reduced franchise value, limited business opportunities and reduced expansion potential for the company. Accordingly, non-compliance may affect the investor's investments by causing a fall in the value of the unit trust fund. |
| Loan Financing Risk | This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan. Islamic unit trust fund's investors are advised to seek for Islamic financing to finance their investment. |
| Suspension of Repurchase Risk | The repurchase of units of a fund may be suspended under exceptional circumstances, where the fair value of a material portion of the fund's assets cannot be reasonably determined. Upon suspension, the fund will not be able to pay unit holders' repurchase proceeds in a timely manner and unit holders will be compelled to remain invested in the fund for a longer period of time than the stipulated repurchase timeline. Hence, unit holder's investments will continue to be subjected to the risk factors inherent to the fund. Please refer to Section 7.7 of the Master Prospectus for more information on suspension of dealing in Units. |

Specific Risks related to the Fund

| | |
|--|--|
| Equity and Equity-related Securities Risk | <p>As the investments of the Fund will be in equities/ Shariah-compliant equities and equity-related securities/ Shariah-compliant equity-related securities, other than warrants and convertible loan stocks, the Fund will be affected by equity risk. For risk relating to warrants and convertible loan stocks, please refer to the Warrants and Convertible Loan Stocks Risk. Generally, equity risk may arise in the following forms, i.e., equity risks related to external factors and equity risks related to company-specific factors. All of these related equity risks can adversely affect the prices of equities, which would negatively impact the performance of the Fund.</p> <p>Equity risks related to external factors include economic, political or general market factors which impact equities generally. For example, adverse political developments may cause the economy of the country in which the Fund invests in to become unstable, which in turn affects the profitability of a company that operates in that country due to weakening of the economy.</p> <p>Equity risks related to company-specific factors include how the companies in which the Fund invests are managed; the performance of any given company depends on the quality of its management. A company that has a competent management with the necessary experience and skill sets will contribute to the effectiveness of the operations of the company as indicated by such metrics as revenue growth and profitability. Company specific factors also include how the company is doing relative to its competitors or other companies in its industry or related industries.</p> <p>These types of equity risks can work individually or in combination to negatively affect the value of equities/ Shariah-compliant equities and equity-related securities/ shariah-compliant equity-related securities held by the Fund.</p> |
| Reclassification of Shariah Status Risk | The risk that the currently held Shariah-compliant securities in the portfolio of Islamic Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of the Securities Commission Malaysia (SACSC), the Fund's Shariah Adviser or the Shariah boards of the relevant indices. If this occurs, the Manager will take the necessary steps to dispose of such securities. There may be opportunity loss to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant securities. The value of the Fund may also be adversely affected in the event of a disposal of Shariah non-compliant securities at a price lower than the investment cost. |

Please be advised that if you invest in Units through an institutional unit trust scheme advisers which adopts the nominee system of ownership, you would not be considered to be a Unit Holder under the deed and consequently do not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have your particulars appearing in the register of Unit Holders of the Fund).

FEES AND CHARGES

7. What are the fees and charges involved?

The table below describes the fees and charges that you may DIRECTLY incur when you buy or redeem Units of the Fund.

| | |
|--------------------------|----------------------------------|
| Sales Charge | Up to 5.50% of the NAV per Unit. |
| Repurchase Charge | Nil |
| Transfer Fee | Nil |
| Switching Fee | Nil |

| | |
|----------------------|--|
| Other Charges | There are no other charges (except charges levied by banks on remittance of money) payable directly by investors when purchasing or redeeming Units of the Fund. |
|----------------------|--|

The table describes the fees that you may INDIRECTLY incur when you invest in Units of the Fund.

| | |
|------------------------------|---|
| Annual Management Fee | 1.50% of the NAV of the Fund per annum. |
| Annual Trustee Fee | 0.05% of the NAV of the Fund per annum. |

All fees and charges payable to the Manager and the Trustee are subject to such tax as may be imposed by the government or other authorities from time to time.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

VALUATIONS AND EXITING FROM INVESTMENTS

8. How often are valuations available?

Valuations are valued daily and you may refer to www.kenangainvestors.com.my for the Unit price.

9. How do I exit from this investment and what are the risks and costs involved?

Unit Holders may redeem their investments in the Fund on any Business Day by completing the prescribed repurchase request form or such other manner as the Manager may accept and returning it to the Manager or through its appointed agents on any Business Day; the repurchase request form is available at the office of the Manager.

Units redeemed during dealing hours (i.e. from 8.30 a.m. to 4.00 p.m.) on any Business Day will be redeemed at the NAV per Unit calculated as at the next valuation point after the request is received (i.e. "forward pricing").

Any redemption request received after the dealing hours on any Business Day will be taken as a redemption request made on the next Business Day.

The minimum redemption amount is 500 Units for each transaction or such other lower amount as the Manager in its sole discretion allows.

However, if the redemption request leaves a Unit Holder with less than 500 Units (minimum holdings), the Manager reserves the right to liquidate the balance of the Units held in the Unit Holder's account.

Redemption proceeds will be paid within seven (7) Business Days from the date the Manager receives a duly completed repurchase request form.

Cooling-Off Right

A cooling-off right is only given to an individual investor who is investing for the first time in any unit trust funds managed by the Manager but shall not include the Manager's staff and a person registered with a body approved by the Securities Commission Malaysia ("SC") to deal in unit trusts funds.

The cooling-off period shall be within six (6) Business Days from the date the Manager receives the duly completed form. The investors shall be refunded within seven (7) Business Days (from the date of receipt of the cooling-off notice by the investors). Any application for cooling-off must be made before the cut-off time of 4:00 p.m. on any Business Day.

For investors who invest via the EPF Member Investment Scheme ("EPF MIS"), the cooling-off period shall be subject to EPF's terms and conditions, and any refund pursuant to the exercise of the cooling-off right will be credited back into your EPF accounts.

Note: Please read and understand the Fund's prospectus and its supplemental prospectus (if any) before investing in the Fund.

FUND PERFORMANCE

Average Total Returns

The basis of calculating the average total returns is by calculating the growth of the NAV of the Fund at the start point against the NAV of the Fund at the end point of the calculation period of 1 year, 3 years, 5 years and 10 years. We take into account and factor in all the distributions and unit splits into the NAV of the Fund for the purposes of the calculations.

| | 1 year 31/05/23 - 31/05/24 (%) Return | 3 years 31/05/21 - 31/05/24 (%) Return | 5 years 31/05/19 - 31/05/24 (%) Return | 10 years 31/05/14 - 31/05/24 (%) Return |
|------------------|--|---|---|--|
| KSGF | 27.07 | 3.69 | 6.93 | 4.02 |
| Benchmark | 16.84 | -0.33 | -1.87 | 0.07 |

1-Year Fund Performance Review

The Fund outperformed its benchmark, FTSE- Bursa Malaysia Emas Shariah Index (FBMS) for the financial year under review.

Performance Chart Since Inception

Source: Novagni Analytics and Advisory

Total Expense Ratio (TER) and Portfolio Turnover Ratio (PTR)

| | Financial Years Ended 31 May | | |
|--------------------|------------------------------|------|------|
| | 2024 | 2023 | 2022 |
| TER (%) | 1.57 | 1.58 | 1.57 |
| PTR (times) | 0.30 | 0.16 | 0.35 |

Explanation of significant change in the TER

TER is lower against previous financial year mainly due to decrease in expenses incurred during the financial year under review.

Explanation of significant change in the PTR

PTR is higher due to higher trading activities taking place during the financial year under review.

Distributions

Distributions were made in the form of cash for periods disclosed below.

| Year Ended 31 May 2024 | Year Ended 31 May 2023 | Year Ended 31 May 2022 |
|---|---|---|
| No distributions were made during the period. | No distributions were made during the period. | No distributions were made during the period. |

PAST PERFORMANCE OF THE FUND IS NOT AN INDICATION OF ITS FUTURE PERFORMANCE.

APPENDIX : GLOSSARY

| | |
|---------------------------------------|--|
| Business Day | Means a day on which the stock exchange managed or operated by Bursa Malaysia Securities Berhad is open for trading. |
| long-term | Refers to a period of more than five (5) years. |
| Total Expense Ratio (TER) | $\frac{\text{Total annual expenses incurred by the Fund}}{\text{Average NAV of the Fund calculated on daily basis}} \times 100$ <p>This ratio will inform you of the total expenses incurred by the Fund during the year as compared to its average NAV. Total expenses include management fee, trustee fee and expenses incurred for fund administrative services. A low TER indicates the effectiveness of the Manager in managing the expenses of the Fund.</p> |
| Net Asset Value (NAV) | Means the total value of the Fund's assets minus its liabilities at the valuation point. In computing the annual management fee and annual trustee fee, the NAV of the Fund should include the management fee and the trustee fee for the relevant day. |
| NAV per Unit | Means the NAV of the Fund divided by its total number of units in circulation. |
| Portfolio Turnover Ratio (PTR) | <p>Refers to the measure of trading activity or how frequently assets within a fund are bought and sold by the Manager. A fund with a 0.5 times portfolio turnover ratio, for example, replaces half of its holdings during the period under review. A fund with a high portfolio turnover rate will typically incur more transaction costs than one with a low portfolio turnover rate.</p> <p>The computation of PTR is as follows :</p> $\text{PTR} = \frac{(\text{Total acquisitions of the Fund} + \text{Total disposals of the Fund})}{2 \times \text{Average NAV of the Fund calculated on a daily basis}}$ |
| Unit(s) | Means a unit of a Fund and includes a fraction of a unit. |
| Unit Holder(s)/ Investor(s) | Means the person for the time being registered under the provisions of the deed as the holder of units and includes the Manager and joint-holder. |
