PRODUCT SUITABILITY

RHB Smart Treasure Fund	Suitable for aggressive investors who are willing to accept high risk in order to obtain high capital growth over a long term* period.
RHB Smart Balanced Fund	Suitable for investors who are willing to accept moderate risk in their investments in order to achieve long term* capital growth and income.
RHB Smart Income Fund	Suitable for conservative investors who seek a steady income stream from their investments and have a low to moderate risk tolerance with a medium to long term** investment horizon.
<i>Note: * "long term" in this context refers to a period of between 5 - 7 years.</i>	
<i>** "medium to long term" in this context refers to a period between 3 - 7 years.</i>	

KEY PRODUCT FEATURES**RHB SMART TREASURE FUND**

Investment Objective	This Fund aims to achieve long term* capital appreciation through investments in companies with high growth potential. <i>Note: * "long term" in this context refers to a period of between 5 – 7 years.</i>
Investment Strategy	The Fund seeks to achieve its investment objective by investing: <ul style="list-style-type: none"> - 70% - 95% of its net asset value ("NAV") in securities of companies with high growth potential. The Fund may also invest up to 20% of its NAV in Asia ex-Japan markets. - the balance of the NAV shall be invested in liquid assets including money market instruments, deposits and collective investment schemes investing in money market instruments and deposits. <p>The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes/type of investments (i.e. equity and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of the investment is deemed to have been reduced over a prolonged rise in equity values and the other available equity investments may present cheaper valuations and higher potential returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission Malaysia. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the deed of the Fund.</p> <p>The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as collective investment schemes, money market instruments and deposits with financial institutions, which are defensive in nature. In its reallocation, the level of equity investments would normally not be below 20% of its NAV.</p>
Benchmark	FTSE Bursa Malaysia EMAS Index ("FBM EMAS Index").
Distribution Policy	Consistent with the Fund's objective to achieve capital growth, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses, are generally declared annually.
Distribution Mode	Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units of the Fund based on the NAV per unit as at the first Business Day when units in the Fund are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter. No sales charge will be imposed for any reinvestment of distribution into the Fund.

KEY PRODUCT FEATURES

RHB SMART BALANCED FUND

Investment Objective	<p>This Fund aims to maximize total returns through a combination of long term* growth of capital and current income^ consistent with the preservation of capital# through a combination of investments in companies with market capitalization of not more than RM1 billion and investments in fixed income securities.</p> <p><i>Note: * "long term" in this context refers to a period of between 5 - 7 years.</i> ^ The income is in the form of units. Please refer to the Fund's distribution mode. # Although the Fund aims to achieve preservation of capital, the Fund is not a capital guaranteed fund or a capital protected fund.</p>
Investment Strategy	<p>This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and quality fixed income securities.</p> <p>This Fund will generally adopt a 50 : 50 blend investment portfolio comprising carefully selected investments in securities of companies with market capitalization of not more than RM1 billion (determined at the point of purchase) and quality fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB rating by any domestic rating agencies or its equivalent rating by a reputable rating agency and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions.</p> <p>Given this balanced asset mix, the Fund will be very much protected from wild swings in the market while still able to enjoy part of the appreciation from growth in the stock market. However, the actual percentage of assets invested in equities and fixed income securities will vary from time to time, depending on the judgement of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. The Fund's asset mix would range from 40% - 60% in securities of companies with market capitalisation of not more than RM1 billion and 40% - 60% in fixed income securities, money market instruments, cash and deposits with financial institutions depending on the market conditions but subject always to a minimum allocation of 40% in each category. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.</p> <p>The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes/type of investments (i.e. equity, fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of the investment is deemed to have been reduced over a prolonged rise in market value of the investments and the other available investments may present cheaper valuations and higher potential returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission Malaysia. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the deed of the Fund.</p> <p>The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments, cash and deposits with financial institutions, which are defensive in nature. In its reallocation, the level of equity investments would not fall below 20% of the NAV.</p>
Benchmark	50% FTSE Bursa Malaysia Small Cap Index ("FBM Small Cap Index") and 50% RHB Bank Berhad's 12-month fixed deposit rate.
Distribution Policy	<p>Consistent with the Fund's objective to achieve long term* growth of capital and current income^, the Fund will distribute a portion of its returns to unit holders of the Fund ("Unit Holder(s)"). Distributions, if any, after deduction of taxation and expenses, are generally declared annually.</p> <p><i>Note: * "long term" in this context refers to a period of between 5 - 7 years.</i> ^ The income is in the form of units. Please refer to the Fund's distribution mode.</p>
Distribution Mode	Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units of the Fund based on the NAV per unit as at the first Business Day when units in the Fund are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter. No sales charge will be imposed for any reinvestment of distribution into the Fund.
RHB SMART INCOME FUND	
Investment Objective	<p>This Fund aims to provide investors with higher than average income^ returns compared to fixed deposits over the medium to long term* period through an investment blend comprising primarily of quality fixed income securities and with the remaining investments in a strategically selected portfolio of companies with market capitalisation of not more than RM1 billion.</p> <p><i>Note: * "medium to long term" in this context refers to a period between 3 - 7 years.</i> ^ The income is in the form of units. Please refer to the Fund's distribution mode.</p>
Investment Strategy	<p>This Fund will invest primarily in quality fixed income securities with selective participation in securities of companies with market capitalisation of not more than RM1 billion with a view in providing enhanced returns to the Fund. Accordingly, this Fund seeks to achieve its investment objective by structuring a portfolio as follows:</p> <ul style="list-style-type: none"> • 70% - 100% of its NAV - Investments in quality fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB rating by any domestic rating agencies or its equivalent rating by a reputable rating agency and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions with minimum risk to capital invested. • 0% - 30% of its NAV - Investments in securities of companies with market capitalization of not more than RM1 billion (determined at the point of purchase). <p>The Fund's asset mix would range from 70% - 100% in fixed income securities, money market instruments, cash and deposits with financial institutions, and 0% - 30% in securities of companies with market capitalization of not more than RM1 billion depending on the market conditions but subject always to a minimum allocation of 70% in fixed income securities, money market instruments, cash and deposits with financial institutions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.</p> <p>The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes/type of investments (i.e. equity, fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of the investment is deemed to have been reduced over a prolonged rise in the market value of the investments and the other available investments may present cheaper valuations and higher potential returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission Malaysia. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the deed of the Fund.</p>

KEY PRODUCT FEATURES

Benchmark	RHB Bank Berhad's 12-month fixed deposit rate.
Distribution Policy	Consistent with the Fund's objective to provide investors with higher than average income [^] returns compared to fixed deposits, the Fund will distribute a substantial portion of its returns to Unit Holders. Distributions, if any, after deduction of taxation and expenses, are generally declared annually. <i>Note: [^] The income is in the form of units. Please refer to the Fund's distribution mode.</i>
Distribution Mode	Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units of the Fund based on the NAV per unit as at the first Business Day when units in the Fund are quoted ex-entitlement. KEY RISKS

RHB SMART TREASURE FUND

CURRENCY RISK - As the Fund may invest up to 20% of its NAV in the Asia ex-Japan markets, the investments of the Fund may be denominated in currencies other than Ringgit Malaysia. Any fluctuation in the exchange rate between Ringgit Malaysia and the currencies in which the investments are denominated may have an impact on the value of the investments of the Fund. Investors should be aware that if the currencies in which the investments are denominated depreciate against Ringgit Malaysia, this will have an adverse effect on the NAV of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

COUNTRY RISK - Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction in currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of units to fall.

Note: If your investments are made through an institutional unit trust scheme adviser ("IUTA") which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the deed of the Fund and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders' meetings and the right to vote at a Unit Holders' meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the deed of the Fund.

RHB SMART BALANCED FUND & RHB SMART INCOME FUND

LIQUIDITY RISK OF UNDERLYING INVESTMENTS - Liquidity is the ability to convert an investment portfolio to cash without suffering a noticeable loss in value. The Malaysian fixed income instruments market is not as liquid as the equity market and this may affect the price of any fixed income instrument. Likewise, when investing in small to medium sized companies, the acquisition or disposal of securities of these companies may require a longer time period as there are generally less ready buyers or sellers as compared to the securities of larger, more established companies.

CREDIT RISK - This refers to the creditworthiness of the fixed income issuer and its expected ability to repay debt. Default happens when the issuer is not able to make timely coupon payments and / or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

INFLATION/PURCHASING POWER RISK - Inflation can be defined as increases of the price level of goods and services and is commonly reported using the consumer price index as a measure. Inflation is one of the major risks to investors and results in uncertainty over the future value of the investments. Inflation reduces purchasing power of money. In an inflationary environment, fixed rate securities are exposed to higher inflation risks than equities due to its fixed returns nature as compared to equities whose returns are variable.

Note: If your investments are made through an IUTA which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the deed of the Fund and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders' meetings and the right to vote at a Unit Holders' meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the deed of the Fund.

TRANSACTION INFORMATION

	RHB Smart Treasure Fund	RHB Smart Balanced Fund	RHB Smart Income Fund
Minimum Initial Investment	RM100.00 or such other amount as the Manager may from time to time accept.		
Minimum Additional Investment	RM100.00 or such other amount as the Manager may from time to time accept.		
Minimum Investment Balance	100 units or such other lower quantity as the Manager may from time to time decide.		
Minimum Redemption of Units	Any number of units.		
Frequency of Redemption of Units	No restriction.		
Switching Facility and Frequency of Switching	Available. Unit Holders may switch between Funds under the umbrella of the RHB Smart Series Funds or with any unit trust fund under the management of the Manager that are of the same currency and that allows for switching by forwarding the completed form of request to switch to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. The minimum amount for a switch into another fund is RM100.00 or such other amount as the Manager may from time to time decide. There is no restriction as to the number of switches a Unit Holder may perform or the frequency of switching. The minimum investment balance must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide after the switch. Following a switching transaction, if the quantity of units held by a Unit Holder in the Fund falls below its minimum investment balance, the Manager can switch the entire investment and forward the proceeds to the fund that the Unit Holder intends to switch into. The Manager however, reserves the right to vary these terms.		
Transfer Facility	Available. Investors may transfer their holdings of units in a Fund to another investor by forwarding the completed form of transfer to the Manager's registered office or any of its branch offices, or to any of its authorised sales agents or participating IUTAs, before their respective cut-off times. However, the Manager may decline to register any partial transfer of units if the registration would result in the transferor or the transferee holding less than one hundred (100) units or such other lower quantity as the Manager from time to time decide. The Manager may also refuse an entry of transfer during the fourteen (14) days preceding a distribution date.		
	An investor may request for a lower minimum initial investment, lower minimum additional investment, lower minimum investment balance or lower minimum amount for a switch which the Manager may accept at its absolute discretion from time to time. Note: If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, the minimum initial investment shall be RM1,000.00 (or any other amount as may be determined by EPF).		
Subscription Settlement	Payment must be made on subscription date.		
Redemption Settlement	Units of a Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the respective Funds. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase.		

TRANSACTION INFORMATION

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Funds must be valued at least once every Business Day. However, certain foreign markets in which the **RHB Smart Treasure Fund** may invest in have different time zones from that of Malaysia. Accordingly, the valuation of the respective Funds (except for **RHB Smart Treasure Fund**) for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the daily price of the respective Funds (except for **RHB Smart Treasure Fund**) for a particular Business Day will be published online on the Manager's website on the next day. For **RHB Smart Treasure Fund** which has investments in foreign markets, the valuation of the Fund for a Business Day will be conducted by 5:00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business. Accordingly, the price of the Fund for a particular Business Day will not be published online on the Manager's website on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated on the Manager's website. Investors may obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, www.rhbgroup.com.

EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per unit as at the next valuation point of the Fund's relevant Business Day after the request for repurchase is received by the Manager ("forward pricing"). The Manager will not impose any repurchase charge on the redemption amount. Units of a Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the respective Funds. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of units of a Fund after the redemption must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There is no restriction on the minimum number of units a Unit Holder can redeem out of the Unit Holder's investments or the frequency of redemptions in a year. If the balance of units held after the redemption is less than the minimum investment balance, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.
