PRODUCT SUITABILITY

This Fund is suitable for investors who:

- want an investment that complies with the principles of Shariah;
- want a professionally managed portfolio of Shariah-compliant equities, sukuk and Islamic debt securities;
- want to have a balanced portfolio that provides both income and capital growth; and
- want to invest in shares but do not have the time to manage their own portfolio.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

To provide a balanced mix of income and potential for capital growth by investing in stocks listed on the stock exchange managed and operated by the Bursa Malaysia Securities Berhad ("Bursa Malaysia") or on any other stock exchanges, unlisted stocks and Islamic debt securities and other non-interest bearing assets acceptable under principles of Shariah. The Fund's activities shall be conducted strictly in accordance with the requirement of the Shariah principles and shall be monitored by the Shariah Adviser of the Fund.

INVESTMENT STRATEGY

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Up to 60% of net asset value ("NAV") will be invested in Shariah-compliant equities.
- Minimum of 40% of NAV will be invested in Islamic debt securities ("sukuk"), Islamic money market instruments and/or liquid assets acceptable under Shariah principle.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund is geared towards investors who look for Shariah based investments that provide a mixture of income and capital appreciation. The Fund's objective is to achieve returns from sukuk's income stream, the dividend income stream, as well as capital appreciation. The adjustments of asset allocation between equity and sukuk are formulated based on the economic analysis and valuations of securities.

Equity investments of the Fund are limited to those in the list of Shariah-compliant securities as determined by the Shariah Advisory Council of the Securities Commission Malaysia which is updated and published twice a year. These investments generally focus on companies that have healthy prospective earnings growth, reasonable valuations and preferably yielding dividend that are superior to the fixed deposit rates.

For sukuk, the Fund seeks investments amongst the Shariah principled sukuk that are of investment grade. The investments will be a duration led strategy depending on the yield curve movement.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's Shariah-compliant equity investments into other asset classes such as sukuk, Islamic money market instruments, cash and Islamic deposits with financial institutions, which are defensive in nature and comply with Shariah requirements.

DISTRIBUTION

DISTRIBUTION POLICY - Income, if any, will be distributed during the financial year.

DISTRIBUTION MODE - Distribution (if any) which is less than or equal to the amount of RM300.00, will be automatically reinvested into the Fund based on the NAV per unit seven (7) Business Days after the ex-dividend date. No sales charge or costs shall be incurred or payable by the unit holders of the Fund ("Unit Holder(s)") for the reinvestment.

Distribution (if any) which is more than the amount of RM300.00, will be automatically paid out to the Unit Holders via cheque, unless the Unit Holder specifically requests for the distribution to be reinvested into the Fund by selecting the appropriate option in the application form. Unit Holders who opt for their distribution to be reinvested into the Fund will have their distribution reinvested into the Fund based on the NAV per unit seven (7) Business

KEY PRODUCT FEATURES

Days after the ex-dividend date. No sales charge or costs shall be incurred or payable by the Unit Holders for the reinvestment. In the absence of the Unit Holder's written instructions, income distribution from the Fund will be automatically paid out to the Unit Holders via cheque. A Unit Holder must notify the Manager in writing seven (7) Business Days prior to each date fixed for the distribution of any change in his distribution instructions.

KEY RISKS

STOCK MARKET RISK - Securities may decline in value due to factors affecting securities markets generally or particular industries represented in the securities markets. The value of a security may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investors' sentiment generally. They may also decline due to factors that affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. Equity securities generally have greater price volatility than fixed income securities. The market price of securities owned by the Fund might go down or up, sometimes rapidly or unpredictably.

INDIVIDUAL STOCK RISK - The performance of each individual stock that the Fund invests in is dependent upon the management quality of the particular company and its growth potential. Hence, this would have an impact on the Fund's prices and its dividend income. The Manager aims to reduce all these risks by using diversification that is expected to reduce the volatility as well as the risk for the Fund's portfolio. In addition, the Manager will also perform continuous fundamental research and analysis to aid its active asset allocation management especially in its stock selection process.

LIQUIDITY RISK - Liquidity risk exists when particular investments are difficult to sell, possibly preventing the Fund from selling such illiquid securities at a favourable price. The Fund's principal investment strategies that involve derivatives or securities with substantial market and/or credit risk tend to have greater exposure to liquidity risk. As part of its risk management, the Manager will attempt to manage the liquidity of the Fund through asset allocation and diversification strategies within the portfolio. The Manager will also conduct constant fundamental research and analysis to forecast future liquidity of its investments.

ISSUER RISK - The value of each individual sukuk that the Fund invests in may decline for a number of reasons which is directly related to the issuer, such as, the management performance, financial leverage and reduced demand for the issuer's goods or services. The Manager aims to reduce all these risks by using diversification that is expected to reduce the volatility as well as the risk for the Fund's portfolio.

INTEREST RATE RISK - Generally, sukuk prices move in the opposite direction of interest rates; a rise in interest rates will generally cause a fall in sukuk prices and vice versa. The Fund will experience a capital loss or capital gain should the sukuk be sold before maturity. The interest rate risk here refers to the general interest rate risk of the country which may affect the value of the Fund's investments even if the Fund does not invest in interest bearing instruments. The sukuk indicative rate is influenced by the yield curve of the conventional interest rates. Thus, any movement in the conventional interest rates may be reflected in the indicative rates of sukuk as well. However, this does not in any way suggest that the Fund will invest in conventional fixed income securities where interest rates apply. All the investments carried out for the Fund will be in accordance with Shariah principles. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

CREDIT AND DEFAULT RISK - This refers to the likelihood that the company issuing the sukuk and/or financial institution where liquid assets of the Fund are deposited may default. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Shariah-compliant municipal sukuk are subject to the risk that litigation, legislation or other political events, local business or economic conditions, or the bankruptcy of an issuer could have a significant effect on the issuer's ability to make payments of principal and/or profit. The Fund could lose money if the issuer or guarantor of a sukuk, or the counterpart to a derivatives contract, repurchase agreement or a financial institution, is unable or unwilling to make timely principal and/or profit payments, or to otherwise honour its obligations. Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer and/or financial institution. This risk refers to the possibility that the issuer of an instrument and/or financial institution will not be able to make timely payments of profit or principal repayment on the maturity date, where applicable. This may lead to a default in the payment of principal and profit and ultimately a reduction in the value of the Fund.

SHARIAH SPECIFIC RISK - The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah-compliant. Should the situation arise, the Manager will need to take the necessary steps to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

Note: If your investments are made through an institutional unit trust scheme adviser ("IUTA") which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the deed of the Fund and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders' meetings and the right to vote at a Unit Holders' meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the deed of the Fund.

FUND PERFORMANCE

The Fund has been in operation since 9 May 1996 and the Fund's financial year end is on 28/29 February. Effective from 1 January 2016, the Fund's composite benchmark comprising FTSE Bursa Malaysia Emas Shariah Index (50%) and Maybank Islamic Berhad's 12 months general investment account-i rate (50%) was changed to FTSE Bursa Malaysia Emas Shariah Index (50%) and Maybank Islamic Berhad's 12 months Islamic Fixed Deposit-i rate (50%) because Maybank Islamic Berhad's general investment account-i benchmark uses a Shariah principle (*Mudharabah*) which is no longer deemed as deposits, thus, leaving the Fund with an inappropriate benchmark. The Fund's composite benchmark are as follows:

- FTSE Bursa Malaysia Emas Shariah Index (50%) and Maybank Islamic Berhad's 12 months general investment account-i rate (50%) from 28 February 2011 – 31 December 2015;
- FTSE Bursa Malaysia Emas Shariah Index (50%) and Maybank Islamic Berhad's 12 months Islamic Fixed Deposit-i rate (50%) from 1 January 2016 – 29 September 2023 and
- FTSE Bursa Malaysia Emas Shariah Index (50%) and RHB Islamic Bank Berhad's 12-month Commodity Murabahah Deposit-i rate (50%) with effect from 30 September 2023.

The new composite benchmark is used in all performance reporting.

TRANSACTION INFORMATION

Minimum Initial Investment	RM100.00 or such other lower amount as the Manager may from time to time decide.
Minimum Additional Investment	RM100.00 or such other lower amount as the Manager may from time to time decide.
Minimum Investment Balance	100 units or such other lower quantity as the Manager may from time to time decide.
Minimum Redemption of Units	Any number of units.
Frequency of Redemption of Units	No restriction.
Switching Facility and Frequency of Switching	Available. Unit Holders may switch to units of any unit trust fund under the management of the Manager that are of the same currency units and that allow for switching. There is no restriction as to the number of switches a Unit Holder may perform or the frequency of switching. The minimum investment balance must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide after the switch. Following a switching transaction, if the quantity of units held by a Unit Holder in the Fund falls below its minimum investment balance, the Manager can switch the entire investment and forward the proceeds to the fund that the Unit Holder intends to switch into. The Manager however, reserves the right to vary these terms.
Transfer Facility	Available. Unit Holders may transfer their holdings of units to another investor by forwarding the completed form of transfer to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. However, the Manager may refuse to register any partial transfer of units if the registration would result in the transferor or the transferee holding less than the minimum investment balance of the Fund or such other lower quantity as the Manager may from time to time decide. The Manager may also refuse an entry of transfer during the fourteen (14) days preceding an income distribution date.

An investor may request for a lower minimum initial investment, lower minimum additional investment or lower minimum investment balance which the Manager may accept at its absolute discretion from time to time.

Note: If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, the minimum initial investment shall be RM1,000.00 (or any other amount as may be determined by EPF).

Subscription Settlement	Payment must be made on the subscription date.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. Accordingly, the valuation of the Fund for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the price of the Fund for a particular Business Day will be published online on the Manager's website on the next day. Investors may obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, www.rhbgroup.com.

EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per unit as at the next valuation point of the Fund's relevant Business Day after the request for repurchase of units is received by the Manager ("forward pricing"). The Manager will not impose any repurchase charge on the redemption amount.

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the Fund. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of units of the Fund after the redemption must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There is no restriction on the number of units a Unit Holder can redeem out of the Unit Holder's investments or the frequency of redemptions in a year. If the balance of units held after the redemption is less than the minimum investment balance, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.
