KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

The Fund's objective is to seek to achieve long term capital appreciation through investment in a collective investment scheme, which invests primarily in securities of United States of America companies.

INVESTMENT STRATEGY

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- At least 95% of net asset value ("NAV") will be invested in a target fund i.e. the Goldman Sachs US Equity Portfolio.
- Up to 5% of NAV will be in cash and cash equivalents.

The Fund will invest at least 95% of NAV in a target fund i.e. the Goldman Sachs US Equity Portfolio, which invests primarily in a diversified portfolio of equities and equity-related securities of companies domiciled in the United States of America, including companies that derive the majority (i.e. more than 50%) proportion of their revenues or profits from the United States of America.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may attempt to cushion the portfolio's downside by reducing its exposure to the Goldman Sachs US Equity Portfolio and increasing its exposure into risk free assets i.e. mainly cash. It follows therefore that there is a risk that the Fund may not track the performance of the Goldman Sachs US Equity Portfolio.

If, in the opinion of the Manager, the Goldman Sachs US Equity Portfolio no longer meets the Fund's investment objective, and/or in acting in the best interests of unit holders of the Fund ("Unit Holder(s)"), the Manager may replace the Goldman Sachs US Equity Portfolio with that of another collective investment scheme that is consistent with the objective of this Fund, subject always to the approval of the Unit Holders.

The replacement of the Goldman Sachs US Equity Portfolio with another collective investment scheme may be performed on a staggered basis to facilitate a smooth transition or where the Goldman Sachs US Equity Portfolio imposes any conditions to the redemption of units or if the manager of the newly identified target fund imposes any Anti Dilution Levy* in relation to applications for units. In such an event, the time required to perform the replacement will depend on such conditions, if any, imposed by the Goldman Sachs US Equity Portfolio in addition to any conditions associated with the Anti Dilution Levy that may be charged by the newly identified target fund. Hence during such transition period, the Fund's investment may differ from the stipulated investment strategies.

* Anti Dilution Levy is an allowance for fiscal and other charges that is added to the net asset value per unit/share to reflect the costs of investing application monies in underlying assets of the target fund. The levy is intended to be used to ensure that all investors in the target fund are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs.

As the Fund is a feeder fund, the risk management strategies and techniques employed will be at the Goldman Sachs US Equity Portfolio level whereby the Goldman Sachs US Equity Portfolio has access to employ a risk management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Goldman Sachs US Equity Portfolio.

BENCHMARK

DISTRIBUTION POLICY - The Fund is not expected to make any distribution.

All unclaimed distributions will be automatically reinvested into additional units at the expiry of the validity period of the cheques based on the prevailing NAV per unit seven (7) Business Days after the expiry of validity period of the cheques.

KEY RISKS

Since a large portion of the NAV is invested in the Goldman Sachs US Equity Portfolio, investment into the Fund assumes the risks inherent in the Goldman Sachs US Equity Portfolio. The specific risks to investors when investing in the Fund include the following:

INVESTMENT MANAGER RISK - As this Fund invests at least 95% of its NAV in the Goldman Sachs US Equity Portfolio, it is subject to risk associated with the investment manager of the Goldman Sachs US Equity Portfolio. This is the risk associated with the following: -

- (i) The risk that the investment manager may under-perform the target or the benchmark of the Goldman Sachs US Equity Portfolio due to the investment manager making poor forecasts of the performances of securities, asset classes or markets;
- (ii) The risk of non-adherence to the investment objectives, strategy and policies of the Goldman Sachs US Equity Portfolio, which may occur due to system failure or the inadvertence of the investment manager; and
- (iii) The risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes, systems and people.

The Manager has no control over the investment manager's investment strategy, techniques and capabilities, operational controls and management of the Goldman Sachs US Equity Portfolio. Any mismanagement of the Goldman Sachs US Equity Portfolio may negatively affect the NAV of the Fund. In the event of such occurrence, the Manager would seek an alternative investment manager and/or other target fund that is consistent with the objective of the Fund.

MARKET RISK - The value of the instruments in which the Goldman Sachs US Equity Portfolio invests, may go up or down in response to the prospects of individual companies and/or prevailing economic conditions. Movement of overseas markets may also have an impact on the local markets.

CURRENCY RISK - The Fund invests at least 95% of its NAV in the Goldman Sachs US Equity Portfolio denominated in USD. Fluctuation in foreign exchange rates will affect the value of the Fund's foreign investments when converted into local currency and subsequently the value of Unit Holders' investments. When United States Dollar ("USD") moves unfavourably against the Ringgit Malaysia ("RM"), these investments will suffer currency losses. This is in addition to any capital gains or losses in the investment (please note that capital gains or losses in the Fund's investment in the Goldman Sachs US Equity Portfolio is also exposed to currency gains or losses resulting from fluctuations in the foreign exchange rates between USD and the other currencies which the Goldman Sachs US Equity Portfolio may be exposed to). The Manager may utilise the hedging of currencies to mitigate this risk.

LIQUIDITY RISK - The liquidity risk that exists at the Fund level is associated with the inability of the Goldman Sachs US Equity Portfolio to meet large redemption in a timely manner. In the event of large redemption request that would result in the total redemption shares in the Goldman Sachs US Equity Portfolio to be more than 10% of the shares in the Goldman Sachs US Equity Portfolio or a particular share class of the Goldman Sachs US Equity Portfolio, part or all of such requests for redemption may be deferred for a period typically not exceeding ten business days of the Goldman Sachs US Equity Portfolio. However, should the Goldman Sachs US Equity Portfolio extend the period of the payment of the redemption proceeds beyond ten (10) business days, the Manager will pay the investors five (5) Business Days after obtaining the redemption proceeds from the Goldman Sachs US Equity Portfolio.

REGULATORY RISK - Any changes in national policies and regulations may have an effect on the capital markets in which the Goldman Sachs US Equity Portfolio is investing. If this occurs, there is a possibility that the unit price of the Fund may be adversely affected.

RISK OF SUBSTANTIAL REDEMPTIONS - Substantial redemptions of shares within a limited period of time could require the Goldman Sachs US Equity Portfolio to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the shares of the Goldman Sachs US Equity Portfolio. This risk may be exacerbated where an investment with a fixed life or where investments utilizing hedging techniques is made by the Goldman Sachs US Equity Portfolio.

SUSPENSION OF NAV CALCULATION / LIMITATION OF REDEMPTION PAYMENTS - The umbrella fund of the Goldman Sachs US Equity Portfolio may in certain circumstances temporarily suspend the determination of the net asset value per share of the Goldman Sachs US Equity Portfolio or a specific share class of the Goldman Sachs US Equity Portfolio and the issue, redemption or exchange of shares or a particular share class in the Goldman Sachs US Equity Portfolio.

As further described in the prospectus of the Goldman Sachs US Equity Portfolio, if on any given date requests for redemption of shares relate to more than 10% of the shares in the Goldman Sachs US Equity Portfolio or a particular share class of the Goldman Sachs US Equity Portfolio, part or all of such requests for redemption may be deferred for a period typically not exceeding ten (10) business days of the Goldman Sachs US Equity Portfolio.

Furthermore, investments of Goldman Sachs US Equity Portfolio are subject to the following risks:

- Currency risk
- Concentration risk
- Corporate action and voting rights
- Derivatives and structured products risk
- Uncertain tax positions
- Certain ERISA (i.e. Employee Retirement Income Security Act 1974, United States federal pension regulations) considerations
- Securities risk
- Inclusion of shares in an index
- Investments in American depository receipts, European depository receipts and global depository receipts
- Cross-contamination between portfolios and share classes
- Materiality policy for correcting valuation errors
- "Fair value" prices
- Debt securities, interest rate risk
- Real estate companies
- Illiquid assets
- Risk of changes in borrowing rates
- Legal, tax and regulatory risk

These specific risks of Goldman Sachs US Equity Portfolio are elaborated in the Fund's prevailing prospectus and its supplementary(ies) (if any).

Note: If your investments are made through an institutional unit trust scheme adviser ("IUTA") which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the deed of the Fund and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders' meetings and the right to vote at a Unit Holders' meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the deed of the Fund.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia. The valuation of the Fund for a Business Day will be conducted by 5.00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business, when the closing prices of the foreign markets for that Business Day would be available. As such, the price for a particular Business Day will not be published online on the Manager's website on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated on the Manager's website. Investors may obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, www.rhbgroup.com.

EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per unit as at the next valuation point of the Fund's relevant Business Day after the request for repurchase of units is received by the Manager ("forward pricing"). The Manager will not impose any repurchase charge on the redemption amount.

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the Fund. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of units of the Fund after the redemption must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There is no restriction on the number of units a Unit Holder can redeem out of the Unit Holder's investments or the frequency of redemptions in a year. If the balance of units held after the redemption is less than the minimum investment balance, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.

All repurchase of units may be subject to such limit on the number of units which can be repurchased by a Unit Holder on a Business Day. In the event that the target fund imposes a suspension of or limit on the number of units which can be redeemed from it, this would result in several repurchase prices being computed. Each Unit Holder will therefore be paid on a staggered basis based on the repurchase prices calculated at each valuation point when the staggered payment request is met by the target fund until the full redemption amount so requested by such Unit Holder can be completed. As such, the full redemption proceeds will be paid to the Unit Holder within fifteen (15) Business Days after the request for repurchase of units is received by the Manager or after five (5) Business Days of such other extended period as may be imposed by the target fund. If such a suspension is imposed by the target fund, the Manager will inform the affected Unit Holders within two (2) Business Days after the date of the Manager being notified in writing of such suspension and/or such extension in the suspension period imposed by the target fund.
