Manager's Report

Dear Unitholders,

We are pleased to present you the Manager's report and the audited accounts of AmDynamic Bond ("Fund") for the financial year ended 31 July 2024.

Salient Information of the Fund

Name	AmDynamic Bond ("Fund")
Category/ Type	Bond / Income
Objective	<p>AmDynamic Bond is a medium to long-term bond fund with potentially higher level of income* and risk.</p> <p><i>Note:</i> <i>* The income could be in the form of units or cash.</i> <i>Any material change to the investment objective of the Fund would require Unit Holders' approval.</i></p>
Duration	The Fund was established on 16 September 2003 and shall exist for as long as it appears to the Manager and the Trustee that it is in the interests of the unitholders for it to continue. In some circumstances, the unitholders can resolve at a meeting to terminate the Fund.
Performance Benchmark	<p>BPAM Corporates All Bond Index (Available at www.aminvest.com)</p> <p><i>Note: The risk profile of the Fund may not be the same as the risk profile of the performance benchmark.</i></p>
Income Distribution Policy	<p>Subject to the availability of income, distribution will be made at least twice every year.</p> <p>At the Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) distribute income on a regular basis in accordance with the distribution policy of the Fund or (ii) increase the amount of distributable income to the Unit Holders, after taking into consideration the risk of distributing out of capital.</p> <p>Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Unit Holders' original investment and may also result in reduced future returns to Unit Holders. When a substantial amount of the original investment is being returned to the Unit Holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.</p>

The Fund performance is calculated based on net asset value per unit of the Fund. Average total return of the Fund and its benchmark for a period is computed based on the absolute return for that period annualised over one year.

Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

Fund Performance

For the financial year under review, the Fund registered a return of 6.10% comprising of 5.61% capital growth and 0.49% income distribution.

Thus, the Fund's return of 6.10% has outperformed the benchmark's return of 5.90% by 0.20%.

As compared with the financial year ended 31 July 2023, the net asset value ("NAV") per unit of the Fund increased by 5.59% from RM0.6971 to RM0.7361, while units in circulation increased by 5.35% from 136,531,304 units to 143,834,971 units.

The following line chart shows comparison between the annual performances of AmDynamic Bond and its benchmark, BPAM Corps All Bond Index/ AMGS, for the financial years ended 31 July.

Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

Strategies and Policies Employed

For the financial year under review, the Fund invested primarily in debt securities, and by active portfolio trading.

The Fund's investment maturity profile is subject to active tactical duration management in view of the interest rate view.

Portfolio Structure

The table below is the asset allocation of the Fund as at 31 July 2024 and 31 July 2023.

	As at 31.07.2024 %	As at 31.07.2023 %	Changes %
Local corporate bonds	80.60	85.55	-4.95

Government Investment Issues	4.97	-	4.97
Money market deposits and cash equivalents	7.76	7.41	0.35
Total	100.00	100.00	

For the financial year under review, the Fund invested 80.60% of its NAV in local corporate bonds, 5.56% in foreign corporate bonds, 1.11% in foreign government bonds, 4.97% in Government Investment Issues, while remaining 7.76% was held in money market deposits and cash equivalents.

Securities Lending / Repurchase Transactions

The Fund has not undertaken any securities lending or repurchase transactions (collectively referred to as "securities financing transactions").

Cross Trades	There were no cross trades undertaken during the financial year under review.								
Distribution/ unit splits	<p>During the financial year under review, the Fund declared income distribution, detailed as follows:</p> <table border="1"> <thead> <tr> <th>Date of distributions</th> <th>Distributions per unit RM (sen)</th> <th>NAV per unit Cum-Distributions (RM)</th> <th>NAV per unit Ex-Distributions (RM)</th> </tr> </thead> <tbody> <tr> <td>23-Jan-24</td> <td>0.3400</td> <td>0.7206</td> <td>0.7172</td> </tr> </tbody> </table> <p>There is no unit split declared for the financial year under review.</p>	Date of distributions	Distributions per unit RM (sen)	NAV per unit Cum-Distributions (RM)	NAV per unit Ex-Distributions (RM)	23-Jan-24	0.3400	0.7206	0.7172
Date of distributions	Distributions per unit RM (sen)	NAV per unit Cum-Distributions (RM)	NAV per unit Ex-Distributions (RM)						
23-Jan-24	0.3400	0.7206	0.7172						
State of Affairs	There has been neither significant changes to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unitholders during the financial year under review.								
Rebates and Soft Commission	During the year, the management company did not receive soft commissions by virtue of transactions conducted for the Fund.								
Market Review	<p>The domestic bond market was volatile during the year under review. The lack of catalyst in the local bond market sent Malaysian Government Securities (MGS) yields to slowly drift higher as global bond market sentiment weakened when the “higher for longer” narrative in United States (US) took center stage again. Both 10-year and 30-year United States Treasuries (UST) briefly touching the 5.00% psychological level in October 2023.</p> <p>However, the sentiment in the local bond market swiftly shifted to a positive stance in November 2023, buoyed by a subsequent rally in UST on the back of a slew of underwhelming macro data releases, the Israel-Hamas crisis and a dovish guidance from the December Federal Open Market Committee (FOMC). The bullish sentiment and strong domestic liquidity continued to lend support to the bond market in 1Q2024 until Malaysian Government Securities (MGS) yields repriced higher in April 2024 following a sell-off in UST on stronger than expected inflation and job data.</p> <p>The sell-off in the local bond market was then reversed, driven by similar movement in the UST. Economic data releases from the US were generally supportive of the bond market, indicating a cooling labour market and a continued disinflation trend. As investors digested comments from Federal Reserve (Fed) Chair Jerome Powell, who suggested a September rate cut was on the table, along with a jump in US jobless claims, the US 10-year Treasury yield fell below 4% for the first time since February. Overall, the MGS curve ended lower driven by ample domestic liquidity and movement in the UST.</p>								
Market Outlook	With The United States (US) Federal Reserve (Fed) poised to cut rates as soon as September, we expect further fund flows from offshore investors to intensify in the coming months. This would provide the catalyst for the market to rally further especially on the government bonds market. Market liquidity is expected to remain ample with strong demands on bonds on an extended pause on the Overnight Policy Rate (OPR) by Bank Negara Malaysia (BNM).

Independent auditors' report to the unit holders of AmDynamic Bond

Report on the audit of the financial statements

Opinion

We have audited the financial statements of AmDynamic Bond (the "Fund"), which comprise the statement of financial position as at 31 July 2024, and statement of comprehensive income, statement of changes in equity and statement of cash flows of the Fund for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 10 to 45.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 July 2024, and of its financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Manager of the Fund (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent auditors' report to the unit holders of AmDynamic Bond (cont'd.)

Information other than the financial statements and auditors' report thereon (cont'd.)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of the Manager and the Trustee for the financial statements

The Manager is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Independent auditors' report to the unit holders of
AmDynamic Bond (cont'd.)**

Auditors' responsibilities for the audit of the financial statements (cont'd.)

As part of an audit in accordance with the approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Independent auditors' report to the unit holders of
AmDynamic Bond (cont'd.)**

Other matters

This report is made solely to the unit holders of the Fund, as a body, in accordance with the Guidelines on Unit Trust Funds issued by the Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2024

1. GENERAL INFORMATION

AmDynamic Bond (the “Fund”) was established pursuant to a Deed dated 11 September 2003 as amended by Deeds supplemental thereto (the “Deeds”), between AmFunds Management Berhad as the Manager, HSBC (Malaysia) Trustee Berhad as the Trustee and all unit holders.

The Fund was set up with the objective of providing investors a medium to long term bond fund with potentially higher level of income and risk. As provided in the Deeds, the financial year shall end on 31 July and the units in the Fund were first offered for sale on 16 September 2003.

The financial statements were authorised for issue by the Manager on 18 September 2024.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards (“MFRS”) as issued by the Malaysian Accounting Standards Board (“MASB”) and International Financial Reporting Standards (“IFRS”).

Standards effective during the financial year

The adoption of the following MFRS and amendments to MFRS which became effective during the financial year did not have any material financial impact to the financial statements.

3. SUMMARY OF ACCOUNTING POLICIES

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Interest income

For all interest-bearing financial assets, interest income is calculated using the effective interest method. Effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.1 Income recognition (cont'd.)

(i) Interest income (cont'd.)

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(ii) Gain or loss on disposal of investments

On disposal of investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the investments. The net realised gain or loss is recognised in profit or loss.

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

3.4 Foreign currency transactions

Transactions in currencies other than the Fund's functional currency (foreign currencies) are recorded in the functional currency using exchange rates prevailing at the transaction dates. At each reporting date, foreign currency monetary items are translated into RM at exchange rates ruling at the reporting date. All exchange gains or losses are recognised in profit or loss.

3.5 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to cash with insignificant risk of changes in value.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.6 Distribution

Distribution is at the discretion of the Manager. A distribution to the Fund's unit holders is accounted for as a deduction from retained earnings and realised income. Realised income is the income earned from interest income, other income and net gain on disposal of investments after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the unit holders on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

3.7 Unit holders' capital

The unit holders' capital of the Fund meets the definition of puttable instruments and is classified as equity instruments as it meets all criteria for such classification under MFRS 132 *Financial Instruments: Presentation* ("MFRS 132").

3.8 Financial instruments – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial asset. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets

Classification and measurement

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPI test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPI test determines whether the contractual cash flows are solely for payments of principal and interest and the assessment is performed on a financial instrument basis.

Business model

The business model reflects how the Fund manages the financial assets in order to generate cash flows. That is, whether the Fund's objective is solely to collect the contractual cash flows from the assets, or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. the financial assets are held for trading purposes), then the financial assets are classified as part of "other" business model. Factors considered by the Fund in determining the business model for a portfolio of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

Cash flow characteristics

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Fund assesses whether the financial assets' contractual cash flows represent solely payment of principal and interest ("SPPI"). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPI.

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets include in this category are deposits with licensed financial institutions, cash at banks, amount due from Target Fund Manager, amount due from Manager, amount due from brokers/financial institutions, dividend/distribution receivables and other receivables.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets (cont'd.)

Classification and measurement (cont'd.)

The Fund may classify its financial assets under the following categories: (cont'd.)

Financial assets at FVOCI

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial asset. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal.

These investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in "Net gain or loss on financial assets at FVTPL". Interest earned element of such instrument is recorded in "Interest income". Exchange differences on financial assets at FVTPL are not recognised separately in profit or loss but are included in net gain or net loss on changes in fair value of financial assets at FVTPL.

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

3.10 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the holder. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.11 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either:
 - the Fund has transferred substantially all the risks and rewards of the asset, or
 - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

3.12 Financial instruments – expected credit losses (“ECL”)

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.13 Determination of fair value

For investments in local fixed income securities, nominal value is the face value of the securities and fair value is determined based on the indicative prices from Bond Pricing Agency Malaysia Sdn Bhd plus accrued interest, which includes the accretion of discount and amortisation of premium. For investments in foreign fixed income securities, fair value will be based on indicative prices provided by independent and reputable institutions plus accrued interest. Adjusted cost of investments relates to the purchased cost plus accrued interest, adjusted for amortisation of premium and accretion of discount, if any, calculated over the period from the date of acquisition to the date of maturity of the respective securities as approved by the Manager and the Trustee. The difference between adjusted cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss. Unrealised gains or losses recognised in profit or loss are not distributable in nature.

3.14 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.15 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its investments as financial assets at FVTPL as the Fund may sell its investments in the short-term for profit-taking or to meet unit holders' cancellation of units.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

5. DERIVATIVE INSTRUMENTS

Derivative instruments comprise forward currency contracts. The forward currency contracts entered into during the previous financial year were for hedging against the currencies exposure arising mainly from investments in the foreign currencies that are not denominated in the Fund's functional currency. As the Fund has not adopted hedge accounting during the financial year, the change in the fair value of the forward currency contract is recognised immediately in the statement of comprehensive income.

(b) Financial instruments that are carried at fair value

The Fund's financial assets and liabilities are carried at fair value.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable; either directly or indirectly; or
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

There are no financial instruments which are not carried at fair value and whose carrying amounts are not reasonable approximation of their respective fair value.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, country risk, management risk and non-compliance risk.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of investments coupled with stringent compliance to investments restrictions as stipulated by the Capital Markets and Services Act 2007, Securities Commission Malaysia's Guidelines on Unit Trust Funds and the Deeds as the backbone of risk management of the Fund.

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

The Fund's market risk is affected primarily by the following risks:

(i) Interest rate risk

Interest rate risk will affect the value of the Fund's investments, given the interest rate movements, which are influenced by regional and local economic developments as well as political developments.

Domestic interest rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

The result below summarised the interest rate sensitivity of the Fund's NAV, or theoretical value due to the parallel movement assumption of the yield curve by +100bps and -100bps respectively:

Parallel shift in yield curve by:	Sensitivity of the Fund's NAV, or theoretical value	
	2024 RM	2023 RM
+100 bps	(5,681,141)	(4,879,759)
-100 bps	<u>5,968,638</u>	<u>5,362,323</u>

(ii) Currency risk

Currency risk is associated with the Fund's financial assets and financial liabilities that are denominated in currencies other than the Fund's functional currency. Currency risk refers to the potential loss the Fund might face due to unfavorable fluctuations of currencies other than the Fund's functional currency against the Fund's functional currency.

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. The Fund can invest up to 100% of its NAV in money market instruments and fixed income instruments. As such the Fund would be exposed to the risk of bond issuers and financial institutions defaulting on its repayment obligations which in turn would affect the NAV of the Fund.

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its financial liabilities or redeem its units earlier than expected. The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise of cash at banks, deposit with licensed financial institution and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

The Fund's financial liabilities have contractual maturities of not more than six months.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 JULY 2024**

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(d) Single issuer risk

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

(e) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(f) Country risk

The risk of price fluctuation in foreign securities may arise due to political, financial and economic events in foreign countries. If this occurs, there is a possibility that the NAV of the Fund may be adversely affected.

(g) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(h) Non-compliance risk

This is the risk of the Manager or the Trustee not complying with the respective internal policies, the Deeds, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.

20. CAPITAL MANAGEMENT

The capital of the Fund can vary depending on the demand for creation and cancellation of units to the Fund.

The Fund's objectives for managing capital are:

- (a) To invest in investments meeting the description, risk exposure and expected return indicated in its prospectus;
- (b) To maintain sufficient liquidity to meet the expenses of the Fund, and to meet cancellation requests as they arise; and
- (c) To maintain sufficient fund size to make the operations of the Fund cost-efficient.

No changes were made to the capital management objectives, policies or processes during the current and previous financial years.
