The benchmark returns are adjusted by the movement of Ringgit Malaysia against foreign currencies.

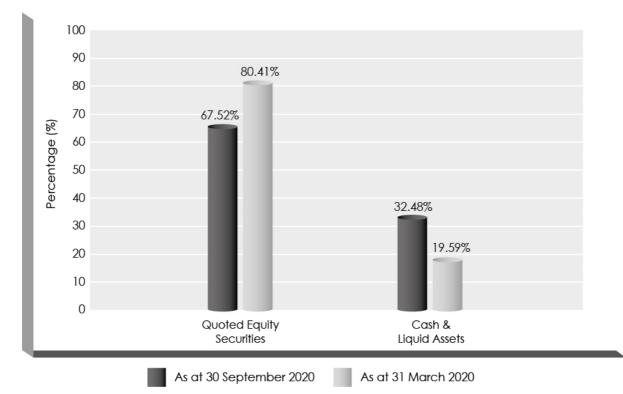

#### **Investment Strategy Review**

The Pacific Global A.I.R. Fund was managed passively via a buy and hold strategy during the interim period under review to minimise transaction costs.

Equity exposure stood at 67.5% at end-September 2020, as the Fund reduced positions in stocks to meet regulatory limits.

The Fund will continue to be managed passively, whilst adhering to regulatory requirements.

#### Asset Allocation

The quoted equity securities allocation of Pacific Global A.I.R. Fund decreased to 67.52% as at 30 September 2020 from 80.41% recorded at the beginning of the interim period under review due to net equity sales.

#### Analysis Of Net Asset Value

The net asset value (NAV) per unit of Pacific Global A.I.R. Fund decreased from RM0.1981 to RM0.0985 during the interim period under review. Meanwhile, total NAV of the Fund decreased from RM34,128 to RM13,316 mainly due to net outflow of funds and fund related fees.

#### Market Review Review Of Global Markets

Global markets rebounded 20% in the first quarter supported by a boost in global liquidity and optimism surrounding a speedy economic recovery as global lockdown measures ease. Early in the quarter, economic data released showed investors the extent of the damage caused by the pandemic. US unemployment benefit claims increased to 30.3 million in the week ending 25 April or 18.6% of the US labour force and the flash reading of Eurozone Markit composite PMI in the month of April 2020 plunged to an all-time low of 29.7 in March 2020 from 51.6 in February 2020. However, markets continue to trend higher despite the negative data due to ample fiscal support and notably loose liquidity conditions. The reopening of economies further boosted investor's confidence as economic data released started to show improvements giving hope for a meaningful rebound in the first quarter.

The rally continued into the second quarter as it gained 8% on the back of loose monetary policy, progress in COVID-19 vaccine development and synchronised economic recovery. Markets continued to climb higher earlier in the guarter as economic data posted by major economies showed signs of recovery. The Federal Reserve (Fed) kept its dovish stance as they signalled that interest rates could be persistently low under the possibility that they would let inflation exceed its target figure. In Europe, PMI reading continues to improve for the third consecutive month. The European Central Bank (ECB) also unveiled a new 750 billion Euro fiscal stimulus package and its accommodative monetary policy. Unsurprisingly, China's recovery was ahead of its peers as it was the guickest to recover from the COVID-19, hence the Chinese equity markets saw a sturdy inflow of capital. Unfortunately, markets begin to pull back in September 2020. The US equities gave up its 5-month winning streak amidst a rising number of COVID-19 cases and the looming presidential elections. Economic data released also indicated a recovery less speedy than hoped for. Crucially, investors were also discouraged by the failure of Congress to pass an additional stimulus bill, as partisan friction was increased by skewed incentives created by the nearing elections in November 2020. Over in Europe, a pullback was similarly observed alongside rising COVID-19 cases and moderating economic data. China produced the most convincing appearance of a continued economic recovery but tension between the US and China continued to escalate after the US administration curb exports to Chinese largest chipmaker SMIC. This was after forcing the sale of social media app TikTok under national security concerns. How US-China relations develop in the foreseeable future is perceived to be also contingent on the results of the US elections, but pundits do not generally expect a major easing of restrictions even if the Trump administration is replaced.

### NOTES TO THE UNAUDITED FINANCIAL STATEMENTS 30 SEPTEMBER 2020

#### 1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Pacific Global Agriculture, Infrastructure and Resources Fund (hereinafter referred to as "the Fund") was constituted pursuant to the execution of a Master Deed dated 26 October 2009, Supplemental Master Deed dated 27 April 2011, Second Supplemental Master Deed dated 2 June 2011 and its Third Supplemental Master Deed dated 4 March 2013 (hereinafter referred to as "the Deeds"), made between the Manager, BOS Wealth Management Malaysia Berhad and the Trustee, CIMB Commerce Trustee Berhad for the registered holders of the Fund.

The principal activity of the Fund is to invest in "Permitted Investments" as defined in the Deeds, which include stocks and shares of companies quoted on Bursa Malaysia Securities Berhad, foreign securities, unlisted securities, futures contracts and any other investments approved by the Securities Commission Malaysia. The Fund was launched on 12 April 2010 and will continue its operations until terminated as provided in the Deeds.

Prior to 29 November 2019, the Manager, a company incorporated in Malaysia was a 70% owned subsidiary of Lion Global Investors Limited, a company incorporated in Singapore. The remaining 30% of the share capital of the Manager was held by Koperasi Angkatan Tentera Malaysia Bhd.

On 29 November 2019, the Manager became a wholly owned subsidiary of Bank of Singapore Limited, a private bank based in Singapore. The ultimate holding company is Oversea-Chinese Banking Corporation Limited, a public listed company incorporated in Singapore.

The principal activities of the Manager are the establishment and management of unit trust funds as well as the management of private investment mandates. The Manager received approval from the Securities Commission Malaysia to include the regulated activity of investment advice under the variation of its Capital Markets Services License on 25 October 2019. The Manager registered to be an Institutional Unit Trust Adviser with the Federation of Investment Managers Malaysia on 13 November 2019. The Manager has not commenced activities relating to investment advise and marketing and distribution of third party funds as of the end of the interim period.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of preparation

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS"), the Deeds and the Securities Commission Malaysia's Guidelines on Unit Trust Funds in Malaysia.

The significant accounting policies adopted are consistent with those applied in the previous financial year end except for the adoption of new MFRSs and Amendments to MFRSs which are effective for the financial year beginning on or after 1 January 2020. These new MFRSs and Amendments to MFRSs did not give rise to any significant effect on the financial statements.

The Fund will adopt the following MFRS and Amendments to MFRSs when they become effective in the respective financial periods and these MFRS and Amendments to MFRSs are not expected to have any material impact to the financial statements of the Fund upon initial application.

#### Standards issued but not yet effective:

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

#### (b) Functional and presentation currency

The financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is also the Fund's functional currency.

#### (c) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into RM at rates of exchange prevailing at the reporting date.

Transactions in foreign currencies are translated into RM at the rates of exchange ruling on the dates of transactions. Exchange differences arising are included in profit or loss.

#### (d) Financial instruments

The Fund recognises financial assets and financial liabilities in the statement of financial position on the date it becomes a party to the contractual provisions of the instruments.

Regular way purchase and sales of all categories of investments in financial instruments are recognised on trade dates i.e. dates on which the Fund commits to purchase or sell the financial instruments.

#### Financial Assets

The Fund classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss ("FVTPL") on the basis of both the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

#### (i) Financial assets at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial asset in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Receivables are classified as financial assets at amortised cost. They are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These include cash and cash equivalents, amount due from Manager, brokers/dealers and other receivables.

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

#### (d) Financial instruments (Cont'd.)

Financial Assets (cont'd.)

(ii) Financial assets at FVTPL

A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest ("SPPI") on the principal amount outstanding; or
- (b) It is held within a business model whose objective is to sell; or
- (C) At initial recognition, it is irrevocably designated as measured at FVTPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Fund includes in this category debt instruments. These include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains.

#### Financial liabilities

Financial liabilities are recognised initially at fair value i.e. the consideration for goods and services received and subsequently stated at amortised cost. These include amounts due to Manager, brokers/dealers, Trustee and other payables. The difference between the proceeds and the amount payable is recognised over the period of the payable using the effective interest method.

#### (e) Derecognition of financial assets and liabilities

#### Financial assets

A financial asset is derecognised when the asset is disposed and the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received is recognised in profit or loss.

#### Financial liabilities

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liability is derecognised, and through the amortisation process.

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

#### (f) Impairment of financial assets

Credit losses are recognised based on the expected credit loss ("ECL") model. The Fund recognises loss allowances for ECL on financial instruments that are not measured at fair value through profit or loss ("FVTPL"), either on a 12-month or lifetime basis based on the significant increase in credit risk since initial recognition. The impairment model does not apply to equity investments.

Given the limited exposure of the Fund to credit risk, there is no material impact on the Fund's financial statements. For balances which are short-term in nature and with no financing component (e.g. profit receivable, dividend receivable and amount due from brokers/dealers), full impairment will be recognised on uncollected balances after the grace period exceeded.

#### (g) Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

Dividend income is recognised when the Fund's right to receive payment is established.

Interest income, accretion of discount and amortisation of premium are recognised using the effective interest method on an accrual basis.

#### (h) Unrealised reserves/(deficits)

The unrealised reserves/(deficits) represent the net gain or loss arising from carrying quoted investments and fixed income securities at their fair value and are recognised in the statement of comprehensive income.

#### (i) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and deposits with licensed financial institutions with original maturities of 3 months or less which have an insignificant risk of changes in value.

#### (j) Taxation

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rate and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

#### (k) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

#### (I) Unitholders' capital

Unitholders' capital meets the conditions for the definition of puttable instruments classified as equity instruments.

Distribution equalisation is accounted for on the date of creation and cancellation of units. It represents the average distributable amount included in the creation and cancellation prices of units. This amount is either refunded to unitholders by way of distribution and/or adjusted accordingly when units are cancelled.

#### (m) Significant accounting estimates and judgments

The preparation of financial statements in accordance with MFRS and IFRS requires the use of certain accounting estimates and exercise of judgments. Estimates and judgments are continually evaluated and are based on past experience, reasonable expectations of future events and other factors.

No major estimates or judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities at the reporting date.

## NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 4. FAIR VALUE HIERARCHY

The Fund uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation techniques:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1 RM	Level 2 RM	Total RM
30.9.2020			
Financial assets at FVTPL			
Quoted investments	8,991	-	8,991
24.0.000			
31.3.2020			
Financial assets at FVTPL			
Quoted investments	27,443		27,443

The carrying amounts of other financial assets and financial liabilities, approximate fair values due to the relatively short term maturities of these financial instruments.

#### 5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash at banks and deposits with licensed financial institutions.

	30.9.2020	31.3.2020

#### 6. AMOUNT DUE TO MANAGER

The amount due to Manager represents amount payable for units cancelled and/or amount payable for management fee.

Management fee is payable on a monthly basis and amount payable for units cancelled is paid within 10 days of the transaction dates.

#### 7. AMOUNT DUE FROM BROKERS/DEALERS

The amount due from brokers/dealers relates to disposal of investments which remain outstanding at the reporting date. These are normally received within two (2) business days of the transaction dates.

#### 8. MANAGER'S FEE

The Manager's fee provided in the financial statements is computed at 1.50% (2019: 1.50%) per annum of the NAV attributable to unitholders of the Fund, calculated on a daily basis.

### NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 9. TRUSTEE'S FEE

The Trustee's fee provided in the financial statements is computed at 0.06% (2019: 0.06%) per annum of the NAV attributable to unitholders of the Fund, calculated on a daily basis, subject to a minimum fee of RM12,000 per annum.

#### 10. CUSTODIAN'S FEE

The Custodian's fee provided in the financial statements ranges from 0.01% to 0.30% (2019: 0.01% to 0.30%) per annum, computed based on the NAV attributable to unitholders of the Fund of the respective foreign portfolio at the end of the month.

#### 11. PORTFOLIO TURNOVER RATIO ("PTR")

	1.4.2020	1.4.2019
	to	to
	30.9.2020	30.9.2019
Portfolio turnover ratio ("PTR")	1.29 times	1.47 times

The PTR of the Fund is the ratio of average acquisitions and disposals of the Fund for the interim period over the average NAV attributable to unitholders of the Fund calculated on a daily basis. The PTR for the current interim period is lower due to decrease in investing activities.

#### 12. MANAGEMENT EXPENSE RATIO ("MER")

	1.4.2020	1.4.2019
	to	to
	30.9.2020	30.9.2019
Management expense ratio ("MER")	72.34%	2.98%

MER is the ratio of expenses of the Fund expressed as a percentage of the average NAV attributable to unitholders of the Fund for the interim period calculated on a daily basis. The MER for the current interim period is higher than previous interim period due to a lower percentage of decrease in expenses compared with the average NAV attributable to unitholders.

<sup>1</sup> The MER does not include brokerage and other transaction fees.

#### **18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Fund is exposed to a variety of risks which include market risk, credit risk, liquidity risk, specific risk and single issuer risk.

Financial risk management is carried out through policy reviews, internal control systems and adherence to the investment restrictions as stipulated in the Securities Commission Malaysia's Guidelines on Unit Trust Funds in Malaysia.

(i) Market Risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments. The Fund seeks to diversify some of these risks by investing into different sectors to mitigate risk exposure to any single asset class.

## NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(i) Market Risk (cont'd.)

Financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel coronavirus known as Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The outcomes of global and local financial markets are highly uncertain and cannot be predicted at this point in time. Due to this, the Manager of the Fund is unable to reliably estimate the quantitative impact of Covid-19 towards the Fund's performance for the next twelve months. The Manager of the Fund will continue to actively monitor the developments in the market to minimise any potential impact to the Fund.

The Fund's market risk is affected primarily by the following risks:

(a) Price risk

Price risk is the adverse changes in the fair value of securities as a result of changes in the levels of equity indices and the value of individual securities. The price risk exposure arises from the Fund's quoted investments.

The table below summarises the effect on net loss before tax and the NAV attributable to the unitholders of the Fund at the reporting date due to possible changes in equity prices, with all other variables held constant:

Change in price (%)		on net loss before tax and NAV attributable to unitholders		
	Decrease (Increase)/ 30.9.2020	Decrease (Increase)/ 31.3.2020		
+5/ (5)	<b>RM</b> 450 (450)	<b>RM</b> 1,372 (1,372)		

(b) Interest rate risk

The Fund does not have any deposits with licensed financial institutions as at reporting date and consequently no sensitivity analysis on interest rate risk has been presented.

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(c) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Fund invests in securities and other investments that are denominated in currencies other than the functional currency. Accordingly, the value of the Fund's assets may be affected favourably or unfavourably by fluctuations in currency rates and therefore subject to foreign exchange risks.

The Fund does not have any investments that are denominated in currencies other than the functional currency as at the reporting date.

(ii) Credit risk

The Fund's principal exposure to credit risk arises primarily due to changes in the financial conditions of an issuer or a counterparty to make payment of principals, interest and proceeds from realisation of investments. Such events can lead to loss of capital or delayed or reduced income for the Fund resulting in a reduction in the Fund's NAV and thus, unit price. This risk is mitigated by setting counterparty limits and vigorous credit analyses.

Credit risk is generally arising from investments, cash and cash equivalents and other receivables. The maximum exposure to credit risk is presented in the statement of financial position. None of these balances are impaired. Cash and cash equivalents are placed in licensed financial institutions with strong credit ratings.

(iii) Liquidity risk

This risk occurs in thinly traded or illiquid securities. Should the Fund need to sell a relatively large amount of such securities, the act itself may significantly depress the selling price. The risk is minimised by maintaining a prudent level of liquid assets that allows the Fund to meet daily redemption of units without jeopardising potential returns.

The maturity of the Fund's financial liabilities fall due within three months while the NAV attributable to unitholders are payable on demand.

(iv) Specific risk

The Fund is exposed to the individual risks of the respective companies issuing securities which includes changes to the business performance of the company, consumer tastes and demands, lawsuits and management practices. This risk is minimised through the diversification of the portfolio of investments of the Fund.

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

#### 18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(v) Single issuer risk

The Fund's exposure to securities issued by any issuer is limited to not more than a certain percentage of the Fund's NAV. Under such restriction, the risk exposure to the securities of any issuer is minimised.

#### **19. OPERATING SEGMENT**

The Fund is organised into one main operating segment for investment management purposes. The Investment Department takes a team approach to the investment process of the Fund. The decision-making process involves input from the entire team, with each team member (inclusive of analysts) contributing their respective expertise and views to yield fully informed conclusions. The Investment Committee is responsible for ensuring adherence to investment guidelines, both internal and external, as well as to assess strategy and implementation effectiveness and to oversee the entire investment function. Accordingly, significant operating decisions are based upon the analysis of the Fund as one operating segment. The financial results from this segment are equivalent to the financial statements of the Fund as a whole.

#### 20. CAPITAL MANAGEMENT

The Fund's capital comprises unitholders' subscription to the Fund. The unitholders' capital fluctuates according to the daily subscription and redemption of units at the discretion of unitholders.

The Fund aims to achieve its investment objective and at the same time maintain sufficient liquidity to meet unitholders' redemptions.
