MANAGER'S REPORT 30 September 2020

Performance Review

From 7 May 1998 (date of launch: 16 April 1998) to 30 September 2020, the Pacific Dana Aman registered a total return of 381.71%, while its composite benchmark (95% FTSE Bursa Malaysia EMAS Shariah Index [FBMS] and 5% 3-Month Islamic Interbank Money Market [IIMM] rate), rose 209.95%.

For the interim period under review (1 April 2020 to 30 September 2020), the Fund registered a total return of 32.93%. In comparison, its benchmark rose 26.24%.

Investment Strategy Review

The period under review for the Pacific Dana Aman began with high uncertainty on the back of a trio of negative events hitting the local market; namely an unexpected change in Malaysian government, the accelerating spread of the COVID-19 coronavirus pandemic and a breakdown in oil cartel cooperation impacting oil prices and economic growth. However, rapid reactions by central banks and governments across the world to provide monetary and fiscal stimulus to stem the drastic economic pressure from pandemic control actions fuelled a rise in equity markets that belied many market participants and economic views. In this context, the Fund gradually raised equity exposure in the second quarter of 2020 from 76% to 84% by the end of June 2020, favouring defensive stocks and attractively valued companies with growth prospects.

The third quarter of 2020 revealed more of the same with broad-based asset price reflation was broad (stocks, bonds, commodities ascended in tandem) but with divergent views on the prospects of different sectors – technology and 'new economy' stocks surged to new all-time highs; while more COVID-19-impacted sectors like travel and financials remained battered down. The Malaysian market also benefited from an idiosyncratic rise in the rubber glove makers, which are set to enjoy multi-fold profit hikes following the demand surge for PPE (personal protective equipment). A surge in local retail participation also offset the severe foreign equity outflows, which reached RM22.3 billion for nine-months 2020, almost on par with the total net outflows for the two years of 2018 and 2019 combined. The Fund continued on a trading strategy with a general uplift in asset allocation towards 89% equity allocation by 30 September 2020.

Going forward, a renewed pick-up in volatility is expected as global economic data begins to falter after moving past the low-base rebounds. Cautious sentiment will also prevalent as multiple countries begin experiencing new waves of increased COVID-19 infections. The Fund will be shifting towards more defensive footing, while maintaining focus on fundamentally robust companies and good yield prospects.

Asset Allocation

The Shariah-compliant equity exposure (inclusive of Shariah-compliant warrants) of Pacific Dana Aman increased to 88.83% as at 30 September 2020 from 76.32% recorded at the beginning of the interim period under review due to net purchases of equities.

The 9.40% in Islamic collective investment scheme was placed in Pacific Dana Murni, a sukuk fund managed by the Manager. Such investment is in line with the objective of Pacific Dana Aman and is an efficient way to manage the exposure of Pacific Dana Aman in Islamic fixed income securities. The exposure of Pacific Dana Aman in the Islamic collective investment scheme is taken into account when assessing the asset allocation of Pacific Dana Aman in Islamic fixed income securities. Management fee on the Islamic collective investment scheme managed by the Manager is rebated to the Fund.

Analysis Of Net Asset Value

The net asset value (NAV) per unit of Pacific Dana Aman increased from RM0.2870 to RM0.3815 during the interim period under review. Meanwhile, total NAV of the Fund increased from RM42,230,298 to RM50,950,968 due to fund inflows.

Market Review Equity Market Review

The FBMKLCI surged 12% quarter-on-quarter (QoQ) in the first quarter under review driven by ample liquidity, rallies in the glove sector and strong retail participation. Despite a spat of discouraging 1Q2020 corporate results, the index entered into a bull market territory as glove manufacturers single-handedly lifted the market. Share prices of glove manufacturers continue to break new highs as investors bet on the higher consumption of glove amidst the pandemic. Separately, Bank Negara cut the overnight policy rate (OPR) by 50 basis points (bps) in early-May 2020, the most since early 2009, as it seeks to bolster the reopening of the economy. Surprisingly, Malaysia's GDP grew at a slower pace of 0.6% in the first quarter, but better than expected on the back of stronger exports and domestic demand. Market sentiment could continue to improve as lockdown measures are reduced and as infection rates of COVID-19 continue to trend downwards.

The rally continued into the second quarter as the FBMKLCI increased +13%. The surge was driven by a 25bps cut in the OPR to an all-time low of 1.75% and abundance in retail support due to extension of loan moratorium. However, 2Q2020 corporate earnings painted a stark contrast against the market as earnings came in at record low, reflecting the lower-than-expected 2Q2020 GDP figure impacted by the MCO. As we approach towards the end of September 2020, the index pulled back due to rotation from the glove sector as news of vaccine becomes more apparent and higher perceived risk as the loan moratorium approaches its expiry. The government did announce additional fiscal stimulus with a sum of RM10 billion for small business support and wage subsidies, but it was overshadowed by political risk as Anwar claimed to have the support of majority MPS, capable of forming a new government, just before the Sabah Election.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(b) Functional and presentation currency

The financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is also the Fund's functional currency.

(c) Financial instruments

The Fund recognises financial assets and financial liabilities in the statement of financial position on the date it becomes a party to the contractual provisions of the instruments.

Regular way purchase and sales of all categories of investments in financial instruments are recognised on trade dates i.e. dates on which the Fund commits to purchase or sell the financial instruments.

Financial Assets

The Fund classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss ("FVTPL") on the basis of both the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

(i) Financial assets at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial asset in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit ("SPPP") on the principal amount outstanding. Receivables are classified as financial assets at amortised cost. They are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These include cash and cash equivalents, amount due from Manager, brokers/dealers and other receivables. For the purpose of the investment made by the Fund, debt instrument refers to sukuk.

(ii) Financial assets at FVTPL

A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and profit ("SPPP") on the principal amount outstanding; or
- (b) It is held within a business model whose objective is to sell; or

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(c) Financial instruments (Cont'd.)

Financial Assets (cont'd.)

- (ii) Financial assets at FVTPL (cont'd.)
 - (C) At initial recognition, it is irrevocably designated as measured at FVTPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Fund includes in this its Permitted Investments. These include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains.

Financial liabilities

Financial liabilities are recognised initially at fair value i.e. the consideration for goods and services received and subsequently stated at amortised cost. These include amounts due to Manager, brokers/dealers, Trustee and other payables. The difference between the proceeds and the amount payable is recognised over the period of the payable using the effective profit method.

(d) Derecognition of financial assets and liabilities

Financial assets

A financial asset is derecognised when the asset is disposed and the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liability is derecognised, and through the amortisation process.

(e) Impairment of financial assets

Credit losses are recognised based on the expected credit loss ("ECL") model. The Fund recognises loss allowances for ECL on financial instruments that are not measured at fair value through profit or loss ("FVTPL"), either on a 12-month or lifetime basis based on the significant increase in credit risk since initial recognition. The impairment model does not apply to equity investments.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(e) Impairment of financial assets (cont'd.)

Given the limited exposure of the Fund to credit risk, there is no material impact on the Fund's financial statements. For balances which are short-term in nature and with no financing component (e.g. profit receivable, dividend receivable and amount due from brokers/dealers), full impairment will be recognised on uncollected balances after the grace period exceeded.

(f) Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

Dividend income is recognised when the Fund's right to receive payment is established.

Profit income is recognised using the effective profit method on an accrual basis.

(g) Unrealised reserves/(deficits)

The unrealised reserves/(deficits) represent the net gain or loss arising from carrying quoted investments and fixed income securities at their fair value and are recognised in the statement of comprehensive income.

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and placements in Islamic money market instruments with original maturities of 3 months or less which have an insignificant risk of changes in value.

(i) Taxation

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rate and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

(j) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(k) Unitholders' capital

Unitholders' capital meets the conditions for the definition of puttable instruments classified as equity instruments.

Distribution equalisation is accounted for on the date of creation and cancellation of units. It represents the average distributable amount included in the creation and cancellation prices of units. This amount is either refunded to unitholders by way of distribution and/or adjusted accordingly when units are cancelled.

(I) Significant accounting estimates and judgments

The preparation of financial statements in accordance with MFRS and IFRS requires the use of certain accounting estimates and exercise of judgments. Estimates and judgments are continually evaluated and are based on past experience, reasonable expectations of future events and other factors.

No major estimates or judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities at the reporting date.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

4. FAIR VALUE HIERARCHY

The Fund uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation techniques:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1 RM	Level 2 RM	Total RM
30.9.2020			
Financial assets at FVTPL			
Quoted Shariah-compliant investments	50,048,003	-	50,048,003
31.3.2020 Financial assets at FVTPL Quoted Shariah-compliant investments	37,257,938		37,257,938

The carrying amounts of other financial assets and financial liabilities, approximate fair values due to the relatively short term maturities of these financial instruments.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash at banks and placements in Islamic money market instruments.

	30.9.2020 RM	31.3.2020 RM
Cash at banks	13,445	51,566
Islamic money market instruments with licensed financial institutions: - Commercial bank - Investment bank	1,130,000	2,430,000 2,520,000 4,950,000
Cash and cash equivalents	1,143,445	5,001,566

6. SHARIAH INFORMATION OF THE FUND

The Shariah Adviser confirmed that the investment portfolio of the Fund is Shariah-compliant, which comprises:

(a) Securities listed on Bursa Malaysia Securities Berhad which have been classified as Shariah-compliant by the SAC of the SC, except for the securities of Hume Industries Berhad which have been reclassified as Shariah non-compliant by the SAC of the SC.

The above securities have to be disposed of with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the last trading day before the effective date of Reclassification. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the last trading day before the effective date of Reclassification. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities on and after the effective date of Reclassification should be channelled to baitulmal and/or charitable bodies approved by the Shariah Adviser

- (b) Liquid assets in local market which are placed in Shariah-compliant instruments; and
- (c) Collective investment scheme which is verified as Shariah-compliant by the Shariah Adviser.

7. AMOUNT DUE TO MANAGER

The amount due to Manager represents amount payable for units cancelled and/or amount payable for management fee.

Management fee is payable on a monthly basis and amount payable for units cancelled is paid within 10 days of the transaction dates.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

8. AMOUNT DUE FROM/TO BROKERS/DEALERS

The amount due from/to brokers/dealers relates to disposal/purchase of investments which remain outstanding at the reporting date. These are normally received/paid within two (2) business days of the transaction dates.

9. MANAGER'S FEE

The Manager's fee provided in the financial statements is computed at 1.50% (2019: 1.50%) per annum of the NAV attributable to unitholders of the Fund, calculated on a daily basis net of Manager's fee rebate on the Islamic collective investment scheme as agreed by the Trustee and the Manager as follows:

Name of Funds

Pacific Dana Murni

Rate p.a. 1.00%

10. TRUSTEE'S FEE

The Trustee's fee provided in the financial statements is computed at 0.06% (2019: 0.06%) per annum of the NAV attributable to unitholders of the Fund, calculated on a daily basis, subject to a minimum fee of RM12,000 per annum.

11. PORTFOLIO TURNOVER RATIO ("PTR")

	to	to
	30.9.2020	30.9.2019
Portfolio turnover ratio ("PTR")	0.66 times	0.46 times

The PTR of the Fund is the ratio of average acquisitions and disposals of the Fund for the interim period over the average NAV attributable to unitholders of the Fund calculated on a daily basis. The PTR for the current interim period is higher due to increase in investing activities.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

12. MANAGEMENT EXPENSE RATIO ("MER")

	1.4.2020	1.4.2019
	to	to
	30.9.2020	30.9.2019
Management expense ratio ("MER")	0.78%	0.77%

MER is the ratio of expenses of the Fund expressed as a percentage of the average NAV attributable to unitholders of the Fund for the interim period calculated on a daily basis. The MER for the current interim period remains consistent with that of the previous interim period.

¹ The MER does not include brokerage and other transaction fees.

13. TAXATION

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk, credit risk, liquidity risk, specific risk, single issuer risk and Shariah status reclassification risk.

Financial risk management is carried out through policy reviews, internal control systems and adherence to the investment restrictions as stipulated in the Securities Commission Malaysia's Guidelines on Unit Trust Funds in Malaysia.

(i) Market Risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments. The Fund seeks to diversify some of these risks by investing into different sectors to mitigate risk exposure to any single asset class.

Financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel coronavirus known as Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The outcomes of global and local financial markets are highly uncertain and cannot be predicted at this point in time. Due to this, the Manager of the Fund is unable to reliably estimate the quantitative impact of Covid-19 towards the Fund's performance for the next twelve months. The Manager of the Fund will continue to actively monitor the developments in the market to minimise any potential impact to the Fund.

(a) Price risk

Price risk is the adverse changes in the fair value of securities as a result of changes in the levels of equity indices and the value of individual securities. The price risk exposure arises from the Fund's quoted Shariah-compliant investments.

The table below summarises the effect on the net income before tax and NAV attributable to the unitholders of the Fund at the reporting date due to possible changes in prices, with all other variables held constant:

Change in price (%)		n net income before tax and NAV attributable to unitholders	
	Increase/ (Decrease) 30.9.2020 RM	Increase/ (Decrease) 31.3.2020 RM	
+5/ (5)	2,502,400 (2,502,400)	1,862,897 (1,862,897)	

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

- (i) Market Risk (cont'd.)
 - (b) Interest rate risk

This risk refers to the effect of interest rate changes on the returns on placements in Islamic money market instruments. In the event of reduction in interest rates, the returns on placements in Islamic money market instruments will decrease, thus affecting the NAV of the Fund. This risk will be minimised via the management of the duration structure of the placements in Islamic money market instruments.

The Fund's exposure to interest rate risk with respect to Islamic deposits with licensed

financial institutions is not considered to be significant at the reporting date and

consequently no sensitivity analysis on interest rate risk has been presented.

Interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that the Fund will invest in conventional financial instruments. All the investments carried out for the Fund are in accordance with Shariah requirements.

(ii) Credit risk

The Fund's principal exposure to credit risk arises primarily due to changes in the financial conditions of an issuer or a counterparty to make payment of principals, profit and proceeds from realisation of investments. Such events can lead to loss of capital or delayed or reduced income for the Fund resulting in a reduction in the Fund's NAV and thus, unit price. This risk is mitigated by setting counterparty limits and vigorous credit analyses.

Credit risk is generally arising from investments, cash and cash equivalents and other receivables. The maximum exposure to credit risk is presented in the statement of financial position. None of these balances are impaired. Cash and cash equivalents are placed in licensed financial institutions with strong credit ratings.

(iii) Liquidity risk

This risk occurs in thinly traded or illiquid Shariah-compliant securities. Should the Fund need to sell a relatively large amount of Shariah-compliant securities, the act itself may significantly depress the selling price. The risk is minimised by maintaining a prudent level of Islamic liquid assets that allows the Fund to meet daily redemption of units without jeopardising potential returns.

The maturity of the Fund's financial liabilities fall due within three months while the NAV attributable to unitholders are payable on demand.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(iv) Specific risk

The Fund is exposed to the individual risks of the respective companies issuing Shariahcompliant securities which includes changes to the business performance of the company, consumer tastes and demands, lawsuits and management practices. This risk is minimised through the diversification of the portfolio of Shariah-compliant investments of the Fund.

(v) Single issuer risk

The Fund's exposure to Shariah-compliant securities issued by any issuer is limited to not more than a certain percentage of the Fund's NAV. Under such restriction, the risk exposure to the Shariah-compliant securities of any issuer is minimised.

(vi) Shariah status reclassification risk

The risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of Islamic funds may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the last trading day before the effective date of reclassification of the list of Shariahcompliant securities ("Reclassification") by the SAC of the SC or date of review ("Review") by the Shariah Adviser. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the last trading day before the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities on and after the effective date of Reclassification or Review should be channelled to baitulmal and/or charitable bodies approved by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the last trading day before the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, capital gains (if any) from the disposal of the securities should be channelled to baitulmal and/or charitable bodies approved by the Shariah Adviser; or
- (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONT'D.) 30 SEPTEMBER 2020

19. OPERATING SEGMENT

The Fund is organised into one main operating segment for investment management purposes. The Investment Department takes a team approach to the investment process of the Fund. The decision-making process involves input from the entire team, with each team member (inclusive of analysts) contributing their respective expertise and views to yield fully informed conclusions. The Investment Committee is responsible for ensuring adherence to investment guidelines, both internal and external, as well as to assess strategy and implementation effectiveness and to oversee the entire investment function. Accordingly, significant operating decisions are based upon the analysis of the Fund as one operating segment. The financial results from this segment are equivalent to the financial statements of the Fund as a whole.

20. CAPITAL MANAGEMENT

The Fund's capital comprises unitholders' subscription to the Fund. The unitholders' capital fluctuates according to the daily subscription and redemption of units at the discretion of unitholders.

The Fund aims to achieve its investment objective and at the same time maintain sufficient liquidity to meet unitholders' redemptions.
