

Switching (Intra)

Step 1

The screenshot shows the homepage of fundsupermart.com. The navigation bar includes links for GETTING STARTED, TRANSACTIONS, EPF, PRS, MY INVESTMENTS, REGULAR SAVINGS PLAN, RESEARCH, FUNDS INFO, and COMMUNITY. A dropdown menu is open under TRANSACTIONS, listing options like Cash Management Fund, Buy Unit Trusts, Sell Unit Trusts, UT Switching, Private Retirement Scheme, Void Orders, Transfer In, and Forms. The 'UT Switching' option is expanded to show 'Intra Fund House', 'Inter Fund House', and 'Switching Calculator'. A red callout box points to 'Intra Fund House' with the text: 'To do switching within SAME fund house, click "UT Switching >> Intra Fund House" under TRANSACTIONS'. Other elements include a 'Quick Links' sidebar, a 'Funds Search' bar, and a 'Yield' section.

Step 2

The screenshot shows the 'UT Switching' page on fundsupermart.com. The page title is 'UT Switching' and the logo 'FSM' is in the top right. The main heading is '4 Steps Intra-Fund Switching' with a large '1' icon and the word 'Introduction'. Below this, the text reads 'Step 1 of 4 : Introduction' followed by a list of 8 points regarding switching rules and requirements. A red callout box points to a 'Next' button at the bottom of the page with the text: 'Click the "Next" button after read through the introduction'.

Step 1 of 4 : Introduction

1. This module allows you to switch between funds of the same fund manager.
2. Switching is allowed for all payment methods.
3. You may only switch from 1 fund to another. Switching from one fund to multiple funds in a single switch order is not allowed.
4. The minimum initial investment amount will apply if you are switching into a fund which you do not currently own. Otherwise the minimum subsequent investment will apply.
5. Switching will be in the form of a switch sell order and a switch buy order.
6. **For cash investment:** The switch-sell and switch-buy orders will be transacted on the same business day the order is received before 3:00pm. Otherwise it will be transacted on the next business day.
7. **For EPF Account 1 investment:** The switch-sell and switch-buy orders will be transacted on the same business day the fund manager in-house switching form is received before 3:00pm. Otherwise it will be transacted on the next business day.
8. You are not required to make any payment as the proceeds from the switch sell order will be used to pay for the switch buy order.

8. As the switch-buy order will be transacted after the switch-sell order, you need to ensure that the redemption amount from the switch-sell, based on the latest indicative bid/NAV price, is at least 105% of the minimum initial or subsequent investment amount of the fund you are switching into.

For example, if you want to switch out of Fund A and into Fund B, and Fund B has an initial investment amount of RM1,000, you need to ensure that the redemption amount from the switch-sell, based on its latest indicative bid/NAV price, will generate at least RM1,050 worth of proceeds. This is so that if the actual transacted switch-sell price is lower than the latest indicative bid/NAV price, there is a buffer to ensure that the minimum initial or subsequent investment amount of Fund B can be met.

Our system will prompt you if the amount is insufficient.

UT Switching FSM

4 Steps Inter-Fund Switching

1 Introduction

Step 1 of 4 : Introduction

IMPORTANT:
Please take note that the fees incurred for Intra fund house switches may be lower as compared to Inter fund house. Do consider this option before you execute an inter fund house switch.

- Inter fund house switching is allowed only for cash investments. You CANNOT switch if you had invested using savings in EPF Account 1. Switching comprises of two processes: a sell transaction for the fund that you are invested in and a buy transaction for a fund that you want to invest in. Switching into a fund is not free of charge and investors have to pay for redemption fees, if any, as well as the sales charge imposed on buying a fund.
Switching is, however, more convenient as you only place one switch transaction as opposed to one buy transaction and one sell transaction. You also benefit from shorter processing period by switching as we do the buy and sell transactions on your behalf.
- You may only switch from 1 fund to another fund. Switching from one fund to multiple funds in a single switch order is not allowed.
- A fund's minimum initial investment amount still applies for switch transactions. If you are switching into a fund that you do not own, the fund's minimal initial investment amount is applicable. However, if you already have units of the fund that you are switching into, the minimum subsequent investments amount applies.

Switch Orders

- A switch will comprise of 2 steps: a 'switch-sell', where the fund that you want to switch out from will be sold and a 'switch-buy', where the sale proceeds will be used to buy the fund that you want to switch into.
- The switch-sell order will be transacted on the same business day the order is received provided the order is received before 3:00 PM. Otherwise, the order will be transacted on the next business day.
- The switch-buy order will be transacted based on the lag time as described in [Fund Sales Charges - Switch Inter Fund House](#). However, this lag time will be shorter than executing the sell and buy transactions on your own.

Investment Amount

- As the switch-buy order is transacted after the switch-sell order, you need to ensure that the redemption amount from the switch-sell, based on the fund's latest indicative bid/NAV price is at least 105% of the minimum initial or subsequent investment amount of the fund you are switching into. This is to ensure that there is a small buffer to meet the minimum investment amount and to pay for redemption and sales charges.

For example, if you want to switch out of Fund A and into Fund B, and Fund B has an initial investment amount of RM1,000, you need to ensure that the switch-sell of Fund A, based on its latest indicative bid/NAV price, will generate at least RM1,050 worth of proceeds. This is so that if the actual transacted switch-sell price of Fund A is lower than the latest indicative bid/NAV price, there is a buffer to ensure that the minimum initial or subsequent investment amount of Fund B can be met.

Our system will prompt you if the amount is insufficient to buy into the selected fund.

Payment and Sales Charge

- Inter fund house switches (switching between funds from different fund houses) are not free of charge as investors will need to be manager on the switch-sell fund and also the sales charge of the switch-buy fund.
- You are not required to make any payment as the proceeds from the switch-sell order will be used to pay for the switch-buy order.

Unprocessed Buy Orders and RSP

- If you switch-sell all the units of a fund, you cannot have a normal buy order for the same fund still being processed in the system.

IRREVOCABLE

- All switch orders received are IRREVOCABLE. Please read the [Fund Sales Charge - Switch Inter Fund House](#) table carefully before placing your orders.
